Volume XXIV: Index to Original Articles

A

Adrenal glands. *See* Suprarenal

American Association for the Study of Neoplastic Diseases, Annual Meeting of, 134

Angioblastic meningiomas, 522 (Bergstrand and Olivecrona)

Animal tumors (*See also* Experimental tumors)
carcinoma of the mammary gland in an inbred stock of albino mice, 823 (Williams, Silcox and Halpert)
carcinoma of the pancreas in Say’s pine snake, *Pituophis Sayi*, 78 (Ratcliffe)
glioma in a dog and pinealoma in a silver fox, 350 (Schlotthauer and Kernohan)
susceptibility to cancer development in the skin and in mammary gland in two lines of inbred mice, 554 (Kreyberg)

Artificial pneumothorax, diagnostic value in case of delayed metastatic sarcoma of the pleura, 334 (Bromme, Nelson and Findley)

Asbesto-silicosis, carcinoma of lung in, 56 (Lynch and Smith)

B

Beers, D. N., 51

Bergstrand, H., 522

Bischoff, F., 549

Bone, phosphatase activity of tissues and plasma in tumors of, 299 (Franseen and McLean)

Book Reviews

Annual Report of the Surgeon General of the Public Health Service of the United States for the Fiscal Year, 1932, 1933, 131

Clark, G. L.: Applied X-Rays, 843

Collected Papers of St. Mark’s Hospital, Centenary Volume 1835–1935, 843

Dandy, W. E.: Benign Encapsulated Tumors in the Lateral Ventricles of the Brain, 842

Duroux, E.: Hérédité du Cancer, 132

Hertzer, A. E.: *Surgical Pathology of the Peritoneum*, 842

Book Reviews—cont.

Kolle, W.: *Wissenschaftliche Woche zu Frankfurt a. M.*, Band I. Erbbiologie; Band II. Carcinom; Band III. Probleme der Bakteriologie, Immunitätslehre und experimentellen Therapie, 130

Kotzareff, A.: *Traitement des cancers dits inopérables et abandonnés*, 132

Brain, angioblastic meningiomas, 522 (Bergstrand and Olivecrona)

Breast

bilateral carcinoma of, 69 (Meland)
fatty tissue tumors of, 797 (Menville)

British Malaya, cancer in, 661 (Hoffman)

Bromme, W., 334

Brouwer, J., 507

Burrows, H., 613

C

Cameron, G., 36

Carcinoma

of breast, bilateral, 68 (Meland)
of cervix, in nulliparous women, 396 (Tompkins)
of jejunum, primary, 72 (Proescher and Muir)
of liver, with hypoglycemia, 51 (Beers and Morton)
of lung, in asbesto-silicosis, 56 (Lynch and Smith)
of mammary gland in an inbred stock of albino mice, 823 (Williams, Silcox and Halpert)
of pancreas in Say’s pine snake, 78 (Ratcliffe)
of rectum, inoperable, irradiation treatment, 326 (Schreiner)
of suprarenal gland, primary, 75 (Donaldson and Howard)
spindle-cell epidermoid, 273 (Martin and Stewart)

Carcinoma metastases to heart and subcutaneous tissues, 831 (Nusbaum and Heyer)

Carson, W., 751

Chambers, R., 36

Culler, Max, 318
INDEX TO VOLUME XXIV. ORIGINAL ARTICLES

D

Datnow, M., 531
De Veer, J. A., 507
Diet in tar cancer, experimental study, 357 (Maisin and Pourbaix)
Dog, glioma in, 350 (Schlothauer and Kernohan)
Donaldson, S. W., 75

E

Earle, W. R., 566
Ehrlich, J. C., 1
Erlichman, E., 393
Esophagus, primary melanotic sarcoma of, 340 (Jaleski and Waldo)
Experimental tumors
carcinoma mammae in male mouse under continued treatment with oestrin, 613 (Burrows)
sarcoma 180, influence of caloric intake upon the growth of, 549 (Bischoff, Long and Maxwell)
tar cancer, effect on, of various tissues and tissue extracts, 357 (Maisin and Pourbaix)
Walker rat mammary carcinoma 256, study of, in vivo and in vitro, 566 (Earle)
Walker rat tumor and Flexner-Jobling rat carcinoma, quantitative study of growth of, 807 (Schrek)

F

Fatty tissue tumors of the breast, 797 (Menville)
Findley, T., Jr., 334
Flexner-Jobling rat carcinoma, quantitative study of, 807 (Schrek)
Fox, pinealoma in, 350 (Schlothauer and Kernohan)
Franseen, C. C., 299
Freeman, A. C., 345

G

Gerber, I. E., 1
Geschickter, C. F., 637
Giant-cell tumor of sacrum invading inferior vena cava, 345 (Freeman, Kinney and Moore)
Glioma, in dog, 350 (Schlothauer and Kernohan)
Good Beit, E., 617
Grand, C. G., 36
Growth-promoting and growth-inhibiting substances extracted from normal organs, 357 (Maisin and Pourbaix)

H

Halpert, B., 823
Heart, carcinoma metastases to, 831 (Nusbaum and Heyer)
Heyer, F. W., 831
Histogenesis of lymphosarcomatosis, 1 (Ehrlich and Gerber)
Hoffman, F. L., 661
Hormonal origin of fibroids, an hypothesis, 402 (Witherspoon)
How much should the cancer patient be told, (Editorial), 127
Howard, S. C., 75
Human fibroblasts grown for a year in a medium of sheep plasma and two solutions of known composition, 393 (Erlichman)
Hypernephroma, spontaneous regression of, 839 (Rae)

J

Jaleski, T. C., 340
Jares, J. J., 80
Jaws, tumors of, 90 (Geschickter)
Jejunum, primary carcinoma of, 72 (Proescher and Muir)

K

Kernohan, J. W., 350
Kinney, K. K., 345
Kreyberg, L., 554

L

Lead compounds, investigation of the value of, in treatment of malignant tumours, 531 (Datnow)
Liver, primary carcinoma of, with hypoglycemia, 51 (Beers and Morton)
Liverpool Medical Research Organization, 531
Long, M. L., 549
Lung
carcinoma of, in asbesto-silicosis, 56 (Lynch and Smith)
varied pathologic basis for the symptomatology produced by tumors in the region of the pulmonary apex and upper mediastinum, 507 (Browder and De Veer)
Lymphosarcoma with ovarian involvement in a child, 65 (Wright)
Lymphosarcomatosis, histogenesis of, 1 (Ehrlich and Gerber)
Lynch, K. M., 56

M

Maisin, J., 357
Martin, H. E., 273
INDEX TO VOLUME XXIV. ORIGINAL ARTICLES

Maxwell, L. C., 549
McLean, R., 299
Meland, O. N., 69
Melanoma, cells of, in tissue culture, 36
Mendelsohn, W., 626
Meningiomas, angioblastic, 522
Menville, J. G., 797
Metastases to heart and subcutaneous tissues, 831
Methylene blue, effect of, on oxygen consumption and respiratory quotient of normal and tumor tissue, 81
Mice, inbred, susceptibility to cancer development in skin and mammary gland, 554
Mitosis, abnormal, significance of, in development of malignancy, 626
Moore, M. R., 345
Morton, J. J., 51
Muir, J., 72

N
Nelson, H. P., 334
Neoplasm studies I. Cells of melanoma in tissue culture, 36
Nerve sheath tumor (neurilemoma), peripheral manifestations, 751
Neuromyo-arterial glomus, tumors of, 255
Nose, tumors of nasal and paranasal cavities, 637
Nusbaum, W. D., 831

O
Oestrin, carcinoma mammae occurring in a mouse under continued treatment with, 613
Olivecrona, H., 522
Ovary, lymphosarcoma with involvement of, in child, 65
Owen, S. E., 318

P
Pancreas, carcinoma of, in Say’s pine snake, 78
Peripheral manifestations of specific nerve sheath tumor, 751
Philippine Islands, cancer in, 661
Phosphatase activity of tissues and plasma in tumors of bone, 299
Pinealoma in a silver fox (Vulpes fulvus), 350
Pleura, case of delayed metastatic sarcoma of, illustrating the diagnostic value of artificial pneumothorax, 334
Pourbaix, Y., 357
Proesser, F., 72
Prolan A determinations, clinical value of, in teratoma testis, 318
Pulmonary asbestosis III: Carcinoma of lung in asbesto-silicosis, 56
Quantitative study of the growth of Walker rat tumor and Flexner-Jobling rat carcinoma, 807
Radiotherapy. See also Tele-curie-therapy in inoperable rectal carcinoma, 326
Rae, M. V., 839
Ratcliffe, H. L., 78
Rectum, inoperable carcinoma of, successful irradiation treatment of 8 cases, 326
Renhard, M. C., 386
Renner, R. R., 617
Sacrococcygeal teratoma, 617
Sacrum, case of giant-cell tumor of, which invaded the inferior vena cava, 345
Sarcoma of esophagus, primary melanotic, 340
of pleura, metastatic, diagnostic value of artificial pneumothorax in, 334
Schlotthauer, C. F., 350
Schreiner, R. F., 326
Schrek, R., 807
Sileoz, L. E., 823
Skin, spindle-cell epidermoid carcinoma, 273
Smith, W. A., 56
Snake, carcinoma of pancreas in, 78
Spindle-cell epidermoid carcinoma, 273
Spontaneous regression of a hypernephroma, 839
Stewart, F. W., 273
INDEX TO VOLUME XXIV. ORIGINAL ARTICLES

Stout, A. P., 255, 751
Subcutaneous tissues, carcinoma metastases to, 831 (Nusbaum and Heyer)
Suprarenal glands, primary carcinoma of, 75 (Donaldson and Howard)
Susceptibility to cancer development in the skin and mammary gland in two lines of inbred mice, 554 (Kreyberg)

Tele-curie-therapy, 386 (Schreiner, Reinhard and Wehr)
Teratoma, sacrococcygeal, 617 (Renner and Goodsitt)
Teratoma testis, clinical value of prolan A determinations in, 318 (Cutler and Owen)
Tissue, normal and tumor, effect of methylene blue on the oxygen consumption and respiratory quotient of, 80 (Jares)

U
Uterus
 cancer of the cervix, in nulliparous women, 397 (Tompkins)
 fibroids, hormonal origin of, an hypothesis, 402 (Witherspoon)

V
Vena cava, inferior, giant-cell tumor of sacrum invading, 345 (Freeman, Kinney, and Moore)

W
Waldo, P. V., 340
Walker rat tumor. See Experimental tumor
Wehr, W. H., 386
Williams, A. C., 823
Witherspoon, J. T., 402
Wright, R. B., 65
