Volume XXIX: Index to Original Articles

A

Adrenal. See Suprarenal
Aebecold, P. C., 556
Aleukemic eosinophilic leukemia, carcinoma of cervix with blood picture simulating, 125 (Sala and Stein)
Allen, A. J., 341
American Association for the Study of Neoplastic Diseases, annual meeting, 128
2-Amino-5-azotoluene, liver tumors in pure strain mice following injection of, 269 (Shear)
Animal tumors, spontaneous
mammary adenofibroma of rats, lack of estrin concentration in, 356 (Mohs)
mammary carcinoma in a female rabbit, 93 (Heiman)
neoplasm in rabbit corresponding to Hodgkin's disease in man, 102 (Medlar and Sasano)
osteogenic sarcoma of femur in guinea-pig, 546 (Leader)
Arons, I., 551
Arsenicals, inhibition of tumor and liver nuclease by, 333 (Maver and Voegtlin)

B

Barnes, V. D., 541
Barry, G., 522
Belkin, M., 483, 499
1: 2-Benzanthracene, carcinogenic activity of, 260 (Fieser et al)
1: 2-Benzpyrene (or 3:4-benzpyrene). See also Chemical compounds as carcinogenic agents
fluorescence spectrum of, 705 (Hieger)
pure strain of malignant mesenchymal cells originating from a rat sarcoma produced by, 285 (Doljanski and Halberstaedter)
Bergstrand, H., 470
Biological effectiveness of fast neutrons and x-rays upon different organisms, 556 (Zirkle et al)
Blood groups in malignant disease, 307 (Goldfeder and Fershing)
Bone changes in leukemia, 20 (Connor)
Book reviews
Kaalund-Jørgensen, O.: Experimental studies on a transmissible myelomatosis (reticulosis) in mice, 565

Book Reviews—cont.
Lacassagne, A.: Certain biological problems relating to cancer, hormones and radiation, 567
Philipp, E. and Schäfer, G.: Metastasen und Rezidive im Knochen beim Genitalcarcinom der Frau und ihre Darstellung im Röntgenbild, 566
Brain tumors. See Glioma
Breast carcinoma
coexistent with axillary tuberculous lymphadenitis, 733 (Potter)
cure of, editorial, 563
genetic study of, 530 (Martynova)
incidence of oophorectomy in women bearing, 659 (Herrell)
spontaneous, in a female rabbit, 93 (Heiman)

C

Carcinogenic activity of the cholanthrenes and of other 1:2-benzanthracene derivatives, 260 (Fieser et al). (See also Chemical compounds as carcinogenic agents)
Carcinogenic agents (See also 2-Amino-5-azotoluene, Benzanthracene, Benzpyrene, Cholanthrenes, Dibenzanthracene, etc.)
chemical compounds as, 219 (Cook et al)
further observations on the organs of mice painted with, 78 (Twort and Twort)
Carman, F. F., 301
Casey, A. E., 47
Chambers, R., 111
Charache, H., 729
Chemical compounds as carcinogenic agents, 219 (Cook et al). (See also 2-Amino-5-azotoluene, Benzanthracene, Benzpyrene, etc.)
Chemical studies on tumor tissue, 483 (Belkin and Shear), 499 (Shear and Belkin)
Chemistry of cell division, 333 (Maver and Voegtlin)
Chloroma, 116 (Marten and Meyer)
Cholanthrenes, carcinogenic activity of, 260 (Fieser et al). (See also Chemical compounds as carcinogenic agents)

Names of authors in italics
INDEX TO VOLUME XXIX. ORIGINAL ARTICLES

Chordoma, case with unusual endocrine findings, 541 (Barnes and Owen)

Clemmesen, J., 313

Colorimetric and spectrophotometric determination of vitamin C in malignant tumors, 477 (Voegtlin et al)

Connor, C. L., 20

Cook, J. W., 219

Cramer, W., 1

Dempster, E. R., 556

D 1 : 2 : 5 : 6-Dibenzanthracene
development of tumors in female mice treated with theelin and, 680 (Perry and Ginzton)
tumors produced by, myeloid hyperplasia associated with, and its relation to transplantation, 510 (Lewis)

Doljanski, L., 285

Dublin, L. I., 736

E

Editorial: Cure of breast cancer, 563

Estrin (See also Theelin)
lack of, in mammary adenofibroma in rats, 356 (Mohs)

Experimental tumors
benzpyrene rat sarcoma, pure strain of cells cultured from, 285 (Doljanski and Halberstaedter)
dibenzanthracene, myeloid hyperplasia brought about by growth of, and its relation to transplantability, 510 (Lewis)
production of, by benzpyrene, influence of wheat germ oil on, 363 (Haddow and Russell)
production of, by 1 : 2 : 5 : 6-dibenzanthracene and theelin, 680 (Perry and Ginzton)
production of, in livers of pure strain mice, by 2-amino-5-azotoluene, 269 (Shear)

Experimental tumors, transplantable—cont.
staining of cells, with neutral red, 483 (Belkin and Shear)
vital staining of cells of, when swollen in salt solution, 499 (Shear and Belkin)
Walker rat sarcoma 319, metabolism of pure cultures of malignant cells of, 503 (Victor and Lewis)

F

Fein, M. J., 301, 715

Femur, osteogenic sarcoma of, in guinea-pig, 546 (Leader)

Fersling, J. L., 307

Fieser, L. F., 260

Fieser, M., 260

Fluorescence spectrum of 3 : 4-benzpyrene, 705 (Hieger)

Franklin, R. G., 341

G

Gallbladder, pleomorphic-cell sarcoma of, 722 (Ragins)

Genetics of cancer of the breast based upon 201 family histories, 530 (Martynova)

Ginzton, L. L., 680

Glione, dissemination of, by extension at a distance, 651 (Grolf)

Glomic tumors, 470 (Bergstrand)

Goldfeder, A., 307, 344

Grand, C. G., 111

Groff, R. A., 651

Guinea-pig, osteogenic sarcoma of the femur in, 546 (Leader)

H

Haddow, A., 363

Halberstaedter, L., 285

Haslewood, G. A. D., 219

Haven, F. L., 57

Hieinan, J., 93

Hereditv. See Genetics

Herrell, W. E., 659

Hershberg, E. B., 260

Hewett, C. L., 219

Hieger, L., 219, 705

Hodgkin's disease neoplasm in rabbit corresponding to, 102 (Medlar and Sasano)
of the lung, 715 (Fein and Meeker)

Hypernephroma, Paget's disease associated with, 729 (Charache)

I

Iso-agglutinins in association with malignant growth, 307 (Goldfeder and Fersling)

Medlar, E. M., 102
Meeker, L. H., 715
Metabolism of pure cultures of malignant cells of Walker rat sarcoma 319, 503 (Victor and Lewis)
Metastases, patellar, from carcinoma of the cervix, 122 (Millar)
Meyer, L. M., 116
Millar, W. M., 122
Mitosis count, prognostic value of, in biopsies of lymphosarcoma, 47 (Casey)
Moka, F. E., 356
Myeloid hyperplasia brought about in mice by growth of dibenzanthracene tumors and its relation to transplantability of tumors into mice, 510 (Lewis)

N
Nagy, S. M., 66
Neutrons, relative biological effectiveness of x-rays and, on different organisms, 556 (Zirkle et al)
Newman, M. S., 260
O
Oophorectomy, relative incidence of, in women with and without breast carcinoma, 659 (Herrell)
Ortho-amido-azotoluol. See 2-Amino-5-Azotoluene
Ossifying fibroma of maxillary sinus, successfully treated by irradiation, 551 (Arons)
Osteogenic sarcoma of the femur in a guinea-pig, 546 (Leader)
Owen, S. E., 541

P
Paget's disease associated with hypernephroma, 729 (Charache)
Patellar metastases from carcinoma of the cervix, 122 (Millar)
Perry, I. G., 680
Phelps, H. J., 517
Pinkus, H., 25
Pinocytosis of tumor cell, 666 (Lewis)
Pleomorphic-cell sarcoma of the gallbladder, 722 (Ragins)
Potter, A. H., 733

R
Radiation, effect on heterologous transplantation of tumor cells, 313 (Clemmensen)
Radiotherapy in ossifying fibroma of maxillary sinus, 551 (Arons)
Ragins, A. B., 722
Roentgen rays, relative biological effectiveness of fast neutrons and, on different organisms, 556 (Zirkle et al)

Russell, H., 363

S
Sala, A. M., 63, 125
Sasano, K. T., 102
Seligman, A. M., 260
Serological observations on the spontaneous regression of implants of Jensen's rat sarcoma, 517 (Lumsden and Phelps)
Serum, experimental, effect on cell respiration in vitro of sarcoma 180, 344 (Goldfeder)
Shear, M. J., 260, 269, 483, 499
Shore, B. R., 563
Skin, solitary leiomyomas of, 435 (Stout)
Smith, L., 341
Spectrographic studies of cancer and normal blood plasma. III. Ultraviolet absorption spectra of fractionated immune and normal rat blood plasma, 341 (Franklin et al)
Spectrophotometric and colorimetric determination of vitamin C in malignant tumors, 477 (Voegtlin et al)
Staining
with neutral red, of fresh preparations of mouse tumor cells, 483 (Belkin and Shear)
with vital dyes, of mouse tumor cells swollen in salt solutions, 499 (Shear and Belkin)
Starch grains, effect of injection into transplanted tumors, 111 (Chambers and Grand)
Statistical investigations in the campaign against cancer, 1 (Cramer)
Statistics, morbidity and mortality from cancer in the U. S., 736 (Dublin)
Stein, R. J., 63, 125
Stout, A. P., 435
Suprarenal gland
leukocytic infiltration of, in malignancy, 63 (Sala and Stein)
medullary carcinoma of, 301 (Fein and Carman)

T
Theelin, development of tumors in female mice treated with dibenzoanthracene and, 680 (Perry and Ginzton)
Thyroid, structure of, in mice of different strains, 522 (Barry and Kennaway)
Tissue cultures. See under Tumor Cell
Tumor cell
chemistry of cell division, inhibition of tumor and liver nuclease by arsenicals, 333 (Maver and Voegtlin)
culture of pure strain from benzpyrene rat sarcoma, 285 (Doljanski and Halberstaedter)
culture of pure strains from human tumors, 25 (Pinkus)
growth characteristics of a sarcoma and two brain tumors in vitro, 25 (Pinkus)
of sarcoma 180, effect of experimental serum on respiration of, in vitro, 344 (Goldfeder)

Tumor cell—cont.
of Walker rat sarcoma, metabolism of pure cultures, 503 (Victor and Lewis)
pinocytosis by, 666 (Lewis)
staining with neutral red, 483 (Belkin and Shear)
staining with vital dyes, 499 (Shear and Belkin)
transplantation of, to normal and pre-irradiated heterologous organisms, 313 (Clemmesen)
Tumor lipids, 57 (Haven)
Twort, C. C., 78
Twort, J. M., 78

U
Ultraviolet absorption spectra of fractionated immune and normal rat blood plasma, 341 (Franklin et al)
Urine, growth stimulating and inhibiting substances in, 66 (Rohdenburg and Nagy)
Uterus, carcinoma of cervix
with blood picture simulating chronic aleukemic eosinophilic leukemia, 125 (Sala and Stein)
with patellar metastases, 122 (Millar)

V
Victor, J., 503
Vitamin C, colorimetric and spectrophotometric determination of, in malignant tumors, 477 (Voegtlin et al)
Voegtlin, C., 333, 477

W
Wheat germ oil, influence of, in the diet on the induction of tumors in mice, 363 (Haddow and Russell)
