INFORMATION FOR AUTHORS

Manuscripts should be typed, double-spaced, with ample margins, on bond paper; only the original, not a carbon, should be submitted. Manuscript pages should be numbered consecutively.

The title of the paper should be as short as is compatible with a clear indication of the subject matter. Chemical formulas should not be included in the title. The title of the paper, the name of the author (or authors), his degrees, location, and any acknowledgments should appear on a separate page.

Footnotes should be numbered consecutively and should appear on a separate sheet.

Tables should be typed on separate sheets and should be numbered. Each must have a brief descriptive title. Tables should be arranged for vertical position on the page, either in single or double column. Every column must be supplied with an appropriate heading.

Illustrations in moderate numbers will be accepted if they are of good technical quality and essential for the clarity of the presentation. Plates in color and excessive numbers of illustrations, if accepted, will be charged to the author. The careful preparation of illustrations, charts, and graphs is particularly important. For half-tones, clear glossy photographs should be submitted. Charts and graphs should be so prepared that no letter or figure is less than 2 mm. high after reduction to the size in which it will appear. Drawings should be made with India ink. The size of charts or graphs should preferably not exceed 8½ × 11 inches. If photographs are mounted, the size of the mount should not exceed 8½ × 11 inches. Legends for each illustration should be typed separately, in consecutive order, on standard-sized paper.

References should include, in order: author, title, journal abbreviation (Quarterly Cumulative Index Medicus form), volume number in arabic numerals, inclusive pages, and year. Book references should give: author, title, pages, edition number, city, publisher, and year. All references should be checked with the original publications and should be arranged in alphabetical order. Each number in the references is to refer to only one paper. The following examples illustrate the desired style:

Reprints may be ordered before publication, at cost, according to a schedule of prices accompanying the galley proof of the article.

Manuscripts, reviews, and correspondence related to contributions should be addressed to: DR. HAROLD P. RUSCH, Editor, CANCER RESEARCH, McArthur Memorial Laboratory, University of Wisconsin, Madison 6, Wisconsin.

INFORMATION FOR SUBSCRIBERS

All subscriptions and business inquiries should be addressed to the publishers, THE UNIVERSITY OF CHICAGO PRESS, 5750 Ellis Avenue, Chicago 37, Illinois.
Through tonight’s small hours, today’s quota of tissues will be automatically processed ready for diagnosis tomorrow.
