## CONTENTS

**Julius Schultz and Samuel Schwartz.** *The Chemistry of Experimental Chloroma. II. Isolation of Crystalline Protoporphyrin, Its Origin and Relation to Other Porphyrins* 565

**Julius Schultz, Anne Turtle, Harry Shay, and Margot Gruenstein.** *The Chemistry of Experimental Chloroma. III. Activity and Activation of VPO in Cellular Particulates* 569

**Daniel M. Shapiro, L. S. Dietrich, and Maurice E. Shils.** *Quantitative Biochemical Differences between Tumor and Host as a Basis for Cancer Chemotherapy. II. Riboflavin* 575

**Maurice E. Shils, Ira M. Friedland, Albert S. Fine, and Daniel M. Shapiro.** *Quantitative Biochemical Differences between Tumor and Host as a Basis for Cancer Chemotherapy. III. Thiamine and Coenzyme A* 581

**L. S. Dietrich and D. M. Shapiro.** *Fluoroacetate and Fluorocitrate Antagonism of Tumor Growth: Effect of These Compounds on Citrate Metabolism in Normal and Neoplastic Tissue* 585

**C. P. Dagg, David A. Karnofsky, and Jacqueline Roddy.** *Growth of Transplantable Human Tumors in the Chick Embryo and Hatched Chick* 589

**Edward C. Horn.** *Ascites Tumor Development. II. Cytotoxicity of Various Antisera Prepared against Ehrlich Ascites Tumor Cell Components* 595

**Jacob Furth, Evelyn L. Gadsden, Kelly H. Clifton, and Evelyn Anderson.** *Autonomous Mammatropic Pituitary Tumors in Mice; Their Somatotropic Features and Responsiveness to Estrogens* 600

**Jacob Furth, Kelly H. Clifton, Evelyn L. Gadsden, and Rita F. Buffett.** *Dependent and Autonomous Mammatropic Pituitary Tumors in Rats: Their Somatotropic Features* 608

**Roberta S. Hartman and W. J. Nungester.** *A Comparison of the Electrophoretic Mobility of Gardner Lymphosarcoma Cells in the Presence of Normal and Post-Tumor-Regression CSH Mouse Serums* 617

**Mary L. Petermann, Nancy A. Mizen, and Mary G. Hamilton.** *The Cytoplasmic Nucleoproteins of Azo Dye-induced Rat Liver Tumors* 620

**M. Earl Balis, Dina Van Praag, and Frances Azen.** *Studies on the Metabolism of Human Tumors. II. Pentosenucleic Acid Synthesis in Tumor-bearing Rats* 628

**M. Earl Balis, Dina Van Praag, and George Bosworth Brown.** *Studies on the Metabolism of Human Tumors. III. Influence of Regenerating Liver on Purine Metabolism* 632

SYMPOSIUM
SPONSORED BY THE AMERICAN CANCER SOCIETY

A Critical Appraisal of the Biochemical Characteristics of Morphologically Separable Cancers

Program arranged by the
SCIENTIFIC REVIEW COMMITTEE OF THE AMERICAN CANCER SOCIETY

Held at the
WESTCHESTER COUNTRY CLUB, RYE, N.Y.
MARCH 23-25, 1956

PROGRAM

HARRY M. WEAVER. Foreword ........................................ 639

JESSE P. GREENSTEIN. Some Biochemical Characteristics of Morphologically Separable Cancers ........................................ 641

SIDNEY WEINHOUSE. Discussion of Doctor Greenstein's Paper ........................................ 654

VAN R. POTTER. Biochemical Uniformity and Heterogeneity in Cancer Tissue (Further Discussion) ........................................ 658

PHILIP P. COHEN. Summary of Informal Discussions of First Day ........................................ 668

I. BERENBLUM. Circumstantial Evidence Pointing to Differences between Cancers in Terms of Etiologic Factors ........................................ 675

PAUL E. STRINER. Additional Comments on Differences between Cancers in Terms of Etiologic Factors ........................................ 681

DAVID A. KARNOFSKY. Differences between Cancers in Terms of Therapeutic Responses ........................................ 684

L. W. LAW. Differences between Cancers in Terms of Evolution of Drug Resistance ........................................ 698

HOWARD E. SKIPPER. Discussion of the Papers by Doctors Karnofsky and Law ........................................ 717

JACK SCHULTZ. The Shape of the Cancer Problem ........................................ 720

C. P. RHoads. Summary of Informal Discussions of Second Day ........................................ 722
