THIS ISSUE CONSISTS OF TWO PARTS. THIS IS PART 1

CONTENTS

Erich Hirschberg. Tissue Culture in Cancer Chemotherapy Screening ........................ 869
Melvin Friedman and Jørgen Fogh. Evaluation of Malignancy in Tumors Produced in X-radiated 
and Cortisone-treated Rats Injected with Human Cells in Continuous Culture ............... 879
Fred G. Bock and Rhoda Mund. A Survey of Compounds for Activity in the Suppression of Mouse 
Sebaceous Glands ........................................................................................................ 887
Daniel S. Martin, Morton M. Kligerman, and Ruth A. Fugmann. Radiotherapy and Adjuvant 
Combination Chemotherapy (6-Aminonicotinamide and 6-Mercaptopurine) ...................... 893
Elizabeth M. Cranston. Effects of Some Tranquilizers on a Mammary Adenocarcinoma in Mice. 897
William H. Knisely and M. S. Mahaley, Jr. Relationship between Size and Distribution of 
"Spontaneous" Metastases and Three Sizes of Intravenously Injected Particles of VX2 Carcinoma 900
Norman Molomut. Host-induced Alterations in Strain Specificity of Sarcoma 1 in Mice: Reversibility of the Change .......................................................... 906
Marvin Tunis, Herbert Weinfeld, and Avery A. Sandberg. A Polypeptidic Substance Found 
in Human Leukemic Urine Which Promotes Nonenzymic Acid Solubility of Nucleic Acids 911
Harris Busch, Joseph R. Davis, and Dolores C. Anderson. Labeling of Histones and Other 
Nuclear Proteins with L-Lysine-U-C14 in Tissues of Tumor-bearing Rats ......................... 916
K. G. Scott, Ronald R. Scheline, and Robert S. Stone. Mast Cells and Sarcoma Growth in 
the Rat ......................................................................................................................... 927
R. R. Scheline and K. G. Scott. Mast-Cell Disruption and 141 Ca Distribution in the Rat .... 932
Alan C. Sartorelli and G. A. LePage. Inhibition of Ascites Cell Growth by Combinations of 
6-Thioguanine and Azaserine ...................................................................................... 938
Russell T. Jordan, A. F. Rasmussen, Jr., and Howard R. Bierman. Effect of Group A Strepto-
tococci on Transplantable Leukemia of Mice .............................................................. 948
B. B. Westfall, V. J. Evans, E. V. Peppers, N. M. Hawkins, J. C. Bryant, E. L. Schilling, 
and W. R. Earle. Observations on the Metabolic Behavior of a Clone of Mouse Liver Cells 
Grown in Agitated Fluid Suspension ............................................................................. 947
Gaston de Lamirande, Claude Allard, and Antonio Canterno. Purine-metabolizing Enzymes in 
Normal Rat Liver and Novikoff Hepatoma ...................................................................... 952
John E. Utzman. The Role of the Spleen in the Hemolytic Anemia of Cancer Patients ........ 959
Olga V. H. Owens, Margaret K. Gey, and George O. Gey. The Effect of Calcium and Magnesium 
on the Growth and Morphology of Mouse Lymphoblasts (MB III, de Bruyn) in Tissue Culture . 968
James Ashmore, George Weber, and Bernard R. Landau. Isotope Studies on the Pathways of 
Glucose-6-phosphate Metabolism in the Novikoff Hepatoma ........................................ 970
Announcements
Annual Meeting of the American Association for Cancer Research, Inc. ......................... 980
