

**Important Biochemicals from NBCo**  
 ...world's leading biochemicals house

*Unispray*

*Aerosol Reagent*

*Observations - Biological compounds containing NH bonds appear on paper chromatograms as blue-black spots against white or very light backgrounds. Compounds are identifiable in micrograms or less.*

*Compounds observed include... amino acids, amino acid esters, peptides, proteins, purines, pyrimidines, nucleotides, amines, amino sugars, vitamins and vitamin analogs, steroid conjugates, nucleic acids, guanido compounds and antibiotics.*

*Conclusions... Peptides, nucleotides and other NH compounds are readily identifiable with NBCo's Unispray (1% solution tert-butyl hypochlorite in cyclohexane) as follows... (1) Spray paper chromatogram with Unispray. (2) Dry. Wait 60 minutes at room temperature in air stream. (3) Spray with aqueous solution 1% KI and 1% soluble starch.*

**NBCo UNISPRAY KIT**

Consists of Aerosol spray unit; 3 grams tert-butyl hypochlorite; KI and soluble starch mixture sufficient for 1000 cc solution. Latter two reagents attachable to Aerosol spray unit. PRICES:

1 kit . . . . .	each	\$4.85
3 to 6 kits . . . . .	each	4.40
6 kits . . . . .	each	3.00
12 or more kits . . . . .	each	2.50

**TERT-BUTYL HYPOCHLORITE**

1000 gram bottle . . . . .	gram	.39
100 gram bottle . . . . .	gram	.50
25 gram bottle . . . . .	gram	.55
10 gram bottle . . . . .	gram	.60

**FOR YOUR PERMANENT LIBRARY . . .**

THE UNIVERSITY OF CHICAGO PRESS has made special arrangements for subscribers to have their issues of this journal bound in an Authorized Binding. Durable and decorative, crafted to rigid specifications, these bound volumes are an inexpensive asset to any institutional library, office, or home.

Eleven issues of **CANCER RESEARCH**, January through December, in the best grade of dark green, washable buckram, stamped on the spine with the title, volume, year, and the University crest, including your name on the front cover, cost \$4.65.

BOUND VOLUMES are returned to you prepaid approximately 30 days after receipt of your issues. Send the order form below with your shipment of journals. Full remittance must accompany order. Ship your order and journals via parcel post directly to PUBLISHERS' AUTHORIZED BINDERY SERVICE, LTD., 430 West Erie Street, Chicago 10, Illinois.

Please bind.....issues of **CANCER RESEARCH**.

I am inclosing the journals with my remittance of \$.....

## INSTRUCTIONS FOR AUTHORS

**Manuscripts for *Cancer Research*** must represent new and original contributions not previously published and, if accepted, not to be published elsewhere. They must be typed, double-spaced (including references, footnotes, and tables), with ample margins, on bond paper. The original and one clear copy of the entire manuscript, including figures and charts, must be submitted. All pages should be numbered consecutively. Every paper must begin with a concise *summary* of the essential results of the investigation.

**Supplements on Cancer Chemotherapy Screening Data.** Authors who wish to submit data for publication in these supplements, which appear at least three times a year, are urged to consult the Instructions for the preparation of such material, found on the inside back cover of most of these supplements.

**Critical reviews** on subjects dealing with cancer and allied fields will be considered for publication. Such reviews should attempt to correlate the various approaches to a problem so as to indicate the trends and emphasize the aspects that require further clarification. Critical analyses of the pertinent issues and expressions of opinions are encouraged.

The title of the paper should be as short as is compatible with a clear indication of the subject matter. The title (with subtitle, if any) must not exceed 130 characters. Chemical formulas should not be included in the title. The title of the paper, author (or authors), location, and any acknowledgments should appear on a separate page.

**Footnotes** within the text should be numbered consecutively and should appear on a separate sheet.

**Tables** should be typed, double-spaced throughout, on separate sheets and should be numbered. Each must have a brief, descriptive title. Tables should be arranged for vertical position on the page. Every column must be supplied with an appropriate heading, and units of measure must be clearly indicated. The same data may be presented in either chart or tabular form, but not in both. Tables should be intelligible without reference to the text.

**Illustrations:** The preparation of photographs, charts, and graphs is particularly important, and authors are requested to follow carefully the directions given below.

Halftone illustrations (photomicrographs and photographs) are designated *figures* and are printed as plates at the end of each article. Figures in moderate numbers will be accepted if they are of good technical quality and essential for the clarity of the presentation. Figures should be trimmed to show only the essential features; all parts of each figure must be in sharp focus. Only clear, glossy photo-

graphs should be submitted. *Mount all photographs on white cardboard* ( $8\frac{1}{2} \times 11$  inches in size), with the edges abutting tightly. The engraver will then draw a thin line between adjoining figures. Place as many together as will make a plate not to exceed  $6 \times 8\frac{1}{2}$  inches. Each figure should be numbered consecutively. Photographs of plates should accompany the second copy of the manuscript. Legends for plate figures should be typed separately, in consecutive order, on standard-sized paper with the heading "Legends for Figures."

Line-cut illustrations (graphs and charts) are designated *charts* and are printed in the text. These should be numbered in consecutive order. Charts should be planned so as to eliminate waste space; they must be ruled off close to the area of the curves, and descriptive matter must not extend beyond the curves. Charts must be so prepared that no letter or figure will be less than 2 mm. high after reduction. The majority of charts can be reduced to a one-column (3-inch) width, but larger ones are permissible when many data are included in one chart. Original line drawings on high-quality white drawing paper or board, blue tracing cloth, or coordinate paper *printed in blue* should be used. Only India ink should be used for drawing or lettering. Photographs of the charts should accompany the second copy of the manuscript. Legends for each chart should be typed separately in consecutive order on standard-sized paper with the heading "Legends for Charts."

The over-all size of mounted charts and plates must not exceed  $8\frac{1}{2} \times 11$  inches. When original drawings exceed this size, photographed reductions must be sent.

**References** must be typed *double-spaced* and should include, in order: author, title, journal abbreviation (*Chemical Abstracts* form), volume number in Arabic numerals, inclusive pages, and year. Book references should give: author, title, pages, edition number, city, publisher, and year. All references should be checked with the original publications and must be *arranged in alphabetical order*. Each number in the references is to refer to only one paper. *Unpublished data and personal communications may not be included in "References" but must be listed as footnotes.* For example of the correct style, refer to any current issue of *Cancer Research*.

**Changes in proof:** Any but minor changes from the manuscript which are made in proof will be billed to the author.

**Reprints** may be ordered before publication, according to a schedule of prices accompanying the galley proof of the article.

**Manuscripts and correspondence** related to contributions should be addressed to: Dr. Harold P. Rusch, Editor, *Cancer Research*, McArdle Memorial Laboratory, Madison 6, Wisconsin.

## INFORMATION FOR SUBSCRIBERS

All subscriptions and business inquiries should be addressed to the publishers, The University of

Chicago Press, 5750 Ellis Avenue, Chicago 37, Illinois.
