Announcements from the Editor

BRIEF COMMUNICATIONS AND LETTERS TO THE EDITOR

The editors invite authors to submit appropriate Brief Communications and Letters to the Editor for publication in CANCER RESEARCH. These will be subject to the same stringent criteria and evaluation as all other contributions. We trust that this will create additional media for the communication of interesting data and concepts. The success and continuation of this venture will depend largely on the thought and care with which authors choose and prepare their material. The use of a Summary or section headings is optional in Communications and Letters.

DATES RECEIVED AND ACCEPTED

CANCER RESEARCH has adopted the policy of using both received and accepted dates for published manuscripts. The former refers to the date when all required material (2 copies of each manuscript, complete with illustrations) is received at the editorial office. The latter refers to the date when all corrections and clarifications (text and illustrations) have been made and evaluated favorably, and the paper can be scheduled for publication.

To avoid delays, authors should transmit complete manuscripts, in the proper style and format of CANCER RESEARCH, and return revisions and corrections promptly according to the suggestions and requirements of the editors and reviewers.

BOOK REVIEWS

The section on Books Received is being expanded to Book Reviews, to be prepared primarily by the editors and members of the editorial board. Publishers wishing to submit books appropriate for review in CANCER RESEARCH are invited to send them to the Editorial Office.
