INSTRUCTIONS FOR AUTHORS

Reports on observations in laboratory, clinical, or statistical cancer research and critical reviews, must be original and submitted exclusively to CANCER RESEARCH. Submit double-spaced typed original and 1 copy, complete with figures and charts, in English only, on 8½ x 11 inch paper.

Title and byline: Brief but informative. Author's name and institution on separate page; acknowledgments on another separate page.

Summary: Informative, 250 words or less, on separate page.

Text: Follow style and arrangement of recent issues. Type footnotes, numbered alphabetically, on a separate page. Follow Webster's International Dictionary in matters of spelling, punctuation and hyphenation. Follow Chemical Abstracts for chemical terms.

Tables: Should be numbered, typed on separate sheets, and arranged vertically. Title should be descriptive, all columns should have headings, abbreviations explained in footnotes to table, units of measure should be clear. Same data should not be repeated in charts.

Abbreviations: All organic, biochemical, and similar abbreviations used in the text must be explained fully and listed in a common footnote; a single text citation will then suffice.

Unit abbreviations, i.e., µg (not γ), mg, gm, µl, ml °C, do not require a period. Use liter (no abbreviation), ml (not cc), and cm mm (not mm²). Distinguish clearly between millimole (m mole) and millimolar (mM). Use the style cholesterol-4,14C (not 14C-cholesterol).

Charts: Graphs, line-cut illustrations are printed in the text, numbered consecutively. They should be planned to be reducible, to a one-column width (3½ in.); lettering must be 2 mm (½ inch) or higher after reduction. Original line drawings in black India ink are preferred; glossy prints are acceptable, if sharp and black. Type legend for each chart on separate page.

Figures: Illustrations, photomicrographs, photographs are printed as plates at end of article. They must be clear and relevant; color plates are accepted only if essential and are paid for by author. Glossy, correctly trimmed photographs are mounted on white cardboard, 8½ x 11 in. the area for figures not to exceed 7½ x 9½ inches. Number each figure on plate. Legend for each figure is typed on separate pages, in consecutive order. Figures will be considered only if essential for the data.

References: Type double-spaced, numbered in alphabetical order of first author, giving author, title, journal, volume, inclusive pages, and year. For book references, give author, title, pages, edition number, city, publisher and year. Check all references. Follow Chemical Abstracts for abbreviations of journals. Unpublished data and personal communications are listed in parentheses in text, not in references.

Changes in proof: Any but minor changes from the manuscript made in proof will be billed to the author.

Reprints: Should be ordered before publication, according to a schedule of prices accompanying the galley proof of the article.

No responsibility is accepted by the Editors, by Cancer Research, Inc., or by the publishers of CANCER RESEARCH for opinions expressed by contributors.

Manuscripts and correspondence related to contributions should be addressed to: Dr. Michael B. Shimkin, Editor, Cancer Research, Fels Research Institute, Temple University School of Medicine, Philadelphia, Pennsylvania 19140.

Subscriptions and business inquiries should be addressed to the publishers, The Williams & Wilkins Co., 428 E. Preston St., Baltimore, Maryland, U.S.A., 21202.
Hydroxy urea has been reported effective against the standard L1210 leukemia in mice upon intraperitoneal or oral administration. (1) Krakoff, et.al., have shown responses from hydroxy urea in chronic granulocytic leukemia. And the substance has also been shown to reduce the rate of incorporation of thymidine H3 into Ehrlich ascites tumor cells in vitro. It appears that part of the carcinostatic action of hydroxy urea is mediated through interference with D.N.A. metabolism. (2)

Give new life to leukemia research in your laboratory. Phone collect, 216-662-0212 (USA) only. NBCo will process your order carefully, efficiently and immediately. NBCo guarantees shipment within 60 minutes of your call; one-day delivery anywhere in the continental USA, 80 hours anywhere in the world. Send for our free catalog containing more than 3000 items.
