# The annual checkup. It may save your life.

Even though you feel fantastic, there's only one way to be sure you're in perfect health. Have an annual checkup. The annual checkup is a complete, head-to-toe examination.

By taking a blood count, doing a Pap test for women, giving you a procto, and doing all the other important things that make up

a complete examination, your doctor can discover if you're as well as you feel.

The annual checkup gives your doctor a good chance to catch a minor ailment before it becomes a major illness. Or a fatal one.

**We want to wipe out cancer in your lifetime. Give to the American Cancer Society.**
