NCI NEW DRUG SEMINAR

The Division of Cancer Treatment, National Cancer Institute, has announced the Fifth New Drug Seminar to be held December 16 and 17, 1974, at the Washington Hilton, Washington, D. C. The subject of the seminar will be adriamycin (Doxorubicin), a new antitumor antibiotic originally developed in Italy and soon to be commercially available in the United States. In addition to a review of the drug's initial development, mechanism of action, and initial clinical evaluation in Italy, a series of detailed reports on the American experience in each of the active tumor types will be presented. For further information contact: Dr. C. Gordon Zubrod, Director, Division of Cancer Treatment, NCI, NIH, Building 31, Room 3A52, Bethesda, Maryland 20014.

ADVANCES IN CANCER MANAGEMENT

The American Cancer Society in conjunction with the National Cancer Institute will present Part II of the National Conference on Advances in Cancer Management, entitled "Detection and Diagnosis." To be held May 1 to 3, 1975, at the Denver Hilton, Denver, Colorado, the purpose of the conference is to provide information to improve the ability of the practicing physician to detect and diagnose cancer earlier and with greater accuracy. Sessions are open to all members of the medical and related health professions and advance registration is requested. There is no registration fee. This conference is accredited by the American Medical Association and the American Academy of Family Physicians. Further information may be obtained by writing to: Dr. Sidney L. Arje, National Conference on Advances in Cancer Management, American Cancer Society, 219 East 42nd Street, New York, New York 10017.

METHODS OF IMMUNOLOGIC RESEARCH AND DIAGNOSIS

The Center for Immunology of the State University of New York at Buffalo will offer the Fourth Summer School in Methods of Immunologic Research and Diagnosis, to be held in July 1975. The deadline for applications is March 31, 1975. Further information may be obtained from James F. Mohn, M.D., Director, The Center for Immunology, State University of New York, at Buffalo, Buffalo, New York 14214.

TRENDS IN CHILDHOOD CANCER SYMPOSIUM

The Division of Oncology of the Children's Hospital of Philadelphia and the Department of Radiation Therapy of the American Oncologic Hospital of the Fox Chase Cancer Center will hold a symposium entitled "Trends in Childhood Cancer" on November 15 and 16, 1974. For further information, contact: Dr. H. Gunter Seydel, Chief, Department of Radiation Therapy, American Oncologic Hospital, Central and Shelmire Avenues, Philadelphia, Pennsylvania 19111.
