# “When told I had cancer of the larynx, my reaction was: what good is a lawyer without a voice?”

“That was nine years ago. In less than two months after the operation, I was back at work and talking. Sure, with a different voice. But still talking. Today, I do everything I did before. Even try cases in court. And, believe me, that takes a lot of talking.

“All of this is thanks to early detection, effective treatment made possible through advances in cancer research, and an overpowering will to talk again. Not to mention the extremely beneficial voice training program offered by the American Cancer Society.

“I’ve won my battle. But the battle against cancer goes on. So, please, have regular check-ups. And give to the American Cancer Society. We want to wipe out cancer in your lifetime.”

**American Cancer Society**

**Frank Purcell, Attorney**
