PROGRAM PLANNING COMMITTEE

Co-Chairmen

Emmanuel Farber
Michael B. Sporn

Committee Members

Roswell K. Boutwell
Gilbert H. Friedell
Pietro M. Gullino
Martin Lipkin
Paul Nettlesheim
James Price

PROGRAM

INTRODUCTION

Introductory Remarks.

Umberto Saffiotti .................................................. 2479
Introductory Remarks.

Emmanuel Farber .................................................. 2481

SESSION ON CERVIX AND BLADDER

Co-Chairmen: Gilbert H. Friedell and James Price

Carcinoma, Carcinoma in Situ, and “Early Lesions” of the Uterine Cervix and the Urinary Bladder: Introduction and Definitions.

Gilbert H. Friedell .................................................. 2482

In Vivo and in Vitro “Markers” of Human Cervical Intraepithelial Neoplasia.

George D. Wilbanks ................................................. 2485

Morphological and Clinical Observations of Patients with Early Bladder Cancer Treated with Total Cystectomy.

George M. Farrow, David C. Utz, and Charles C. Rife ............................................... 2495

Membrane Changes during Urothelial Hyperplasia and Neoplasia.

R. Marian Hicks, and J. St. John Wakefield .................................................. 2502

Early Lesions in Experimental Bladder Cancer: Experimental Design and Light Microscopic Findings.

Samuel M. Cohen, Jerome B. Jacobs, Masayuki Arai, Sonny Johansson, and Gilbert H. Friedell ............................................... 2508

Jerome B. Jacobs, Masayuki Arai, Samuel M. Cohen, and Gilbert H. Friedell ............................................... 2512

Changes in Plasma Membrane Structure Associated with Malignant Transformation in Human Urinary Bladder Epithelium.

Ronald S. Weinstein .................................................. 2518

Organ Culture of Normal and Carcinogen-treated Rat Bladder.

David H. Reese, Rosalind D. Friedman, Joseph M. Smith, and Michael B. Sporn ............................................... 2525

Early Changes Caused by N-Butyl-N-(4-hydroxybutyl)nitrosamine in the Bladder Epithelium of Different Animal Species.

Nobuyuki Ito .................................................. 2528

SESSION ON LIVER

Co-Chairmen: Peter P. Anthony and Emmanuel Farber

Hyperplastic Areas, Hyperplastic Nodules, and Hyperbasophilic Areas as Putative Precursor Lesions.

Emmanuel Farber .................................................. 2532

Sequential Phenotypic Changes in Hyperplastic Areas during Hepatocarcinogenesis in the Rat.

Tomoyuki Kitagawa .................................................. 2534

Functional Markers and Growth Behavior of Preneoplastic Hepatocytes.

Gary M. Williams .................................................. 2540

2476 CANCER RESEARCH VOL. 36

Downloaded from cancerres.aacrjournals.org on April 13, 2017. © 1976 American Association for Cancer Research.
The Precursor Tissue of Ordinary Large Bowel Cancer.

Nathan Lane ................................................................. 2669

Precancerous Changes in the Stomach.

Takashi Kawachi, Mariko Kurisu, Noriko Numanyu, Koji Sasajima, Tomono Sano, and Takashi Sugimura ... 2673

Characteristic Complements of Nuclear Nonhistone Proteins in Colonic Epithelial Tumors.

Lidia C. Boffa and Vincent G. Allfrey .................................. 2678

Biochemical Changes in Preneoplastic Rodent Intestines.

William J. Ball, Jr., Josephine S. Sailer, and M. Earl Ballis ........................................................... 2686

Morphological Lesions Associated with Human Primary Invasive Nonendocrine Pancreas Cancer.

Antonio L. Cubilla and Patrick J. Fitzgerald ............................................. 2690

DISCUSSION AND SUMMARY

Approaches to Prevention of Epithelial Cancer during the Preneoplastic Period.

Michael B. Sporn ..................................................................... 2699

Putative Precursor Lesions: Summary and Some Analytical Considerations.

Emmanuel Farber .................................................................... 2703

Summary Statement.

Peter P. Anthony, Roswell K. Boutwell, Emmanuel Farber, Gilbert H. Friedell, Pietro M. Gullino, Martin Lipkin, Paul Nettesheim, James Price, and Michael B. Sporn .............................................. 2706

* * *

The Conference Co-Chairmen wish to thank Dr. Carl E. Smith for his helpful assistance in the planning and publication of this Symposium. We thank Doris Overman for her help in preparing manuscripts for publication and Margaret Foti and her staff at CANCER RESEARCH for skilled editorial assistance with the final publication.
