Authors should consult the detailed "Instructions for Authors" printed in the January issue of the journal; copies are available upon request.

#### Manuscript Processing Fee

Journal policy requires that a single manuscript processing fee of \$50 be assessed for all papers to defray the expenses incurred in the review process. An invoice is sent to the author upon receipt of the manuscript; review is not delayed pending payment of this fee.

#### Copyright and Copyright Clearance Center

The Copyright Revision Act (PL 94-553), which became effective January 1, 1978, states that the copyright of a work is vested in the author from the moment of creation. Therefore, all authors who wish to publish in *Cancer Research* must formally transfer copyright to the proprietor of the journal, Cancer Research, Inc. It is understood by this transfer that the authors relinquish all exclusive rights of copyright ownership, including the rights of reproduction, derivation, distribution, sale, and display.

Authors who prepared their articles as part of their official duties as employees of the U. S. Federal Government are not required to transfer copyright to Cancer Research, Inc., since these articles are considered to be in the public domain. However, it is necessary for these authors to sign the appropriate section of the transfer form. In the case of articles supported by federal grants or contracts, copyright transfer to Cancer Research, Inc., is required. The federal government may retain a nonexclusive license to publish or republish such material. The duly authorized agent of a commercial firm or commissioning organization must sign the transfer form if the author prepared the article as part of his or her official duties as an employee.

Appropriate forms for transfer of copyright will be sent routinely with acknowledgment of receipt of manuscripts for review. They may also be requested from the *Cancer Research* Editorial Office.

The journal will not publish a paper unless the form is properly completed and signed.

The appearance of the code 0008-5472/79/0039-0000\$02.00 at the top of the first page of an article in *Cancer Research* indicates that the copyright owner has consented that copies of the article may be made for personal or internal use, provided that the copier pay the stated per-copy fee of \$2.00 through the Copyright Clearance Center, Inc. This Center is a nonprofit organization through which individuals and institutions may reimburse a copyright owner for photocopying of journal articles beyond what is defined as "fair use" in Sections 107 and 108 of the Copyright Revision Act of 1978.

Those who wish to photocopy *Cancer Research* articles may report the number they have made together with the fee code to: Copyright Clearance Center, Inc., Operations Office, P. O. Box 765, Schenectady, New York 12301. Remittances may be sent to the Center at the time of reporting or the Center will bill the user on a monthly basis. Deposit accounts and prepayment plans may also be arranged.

Articles from any issue of *Cancer Research* dating from 1973 may be photocopied under the same conditions and at the same fee. If there is no fee code, as in issues prior to June 1978, the user should report the title of the journal, the month of the issue, and the initial page number of the article, together with a statement of the number of copies made. If an article published after June 1978 does not carry a fee code, it is understood to be in the public domain and may be copied without restriction or payment of a fee.

*Cancer Research* is abstracted or indexed in *Biological Abstracts*, *Chemical Abstracts*, *Index Medicus*, *Science Citation Index*, and the *International Cancer Research Data Bank*.

No responsibility is accepted by the Editors, by Cancer Research, Inc., by the American Association for Cancer Research, or by the publisher of the journal *Cancer Research* for the opinions expressed by contributors or for the content of the advertisements.
