Hemoccult®

The world's leading full-range test for fecal occult blood.

Routine digital examination explores only 8 cm. of the colon. Sigmoidoscopy reveals an additional 17 cm. But colorectal cancer can occur throughout the colon. And it's often asymptomatic.

That's why the 'Hemoccult' guaiac method is so valuable as a preliminary diagnostic screen. 'Hemoccult' is a reliable detector of blood throughout the colon.

In addition, it's accurate, inexpensive, simple to use and easy to read. The test can be done in your office in minutes, or given to your patient to take home and return by mail.

More than 100,000 cases of colorectal cancer will occur in the United States this year. The earlier they are diagnosed, the greater the chances for successful treatment. Send for your free 'Hemoccult' starter package, today.

'Hemoccult' is available through local distributors, nationwide.

Send to:

SKD SmithKline Diagnostics
880 West Maude Ave., P.O. Box 1947
Sunnyvale, CA 94086

Please send me the 'Hemoccult II' Physician's Complimentary Starter Package.

COVER LEGEND

Cancer Research this month salutes the European Organization for Research on Treatment of Cancer (EORTC).

Founded in 1962 by a group of European oncologists, it now has members from practically every western European nation. Past Presidents were Georges Mathé, Silvio Garattini, and Dirk van Bekkum. The current President is Henri J. Tagnon of the Jules Bordet Institute, Brussels, Belgium.

EORTC has four major integrated efforts in cancer therapy: a screening program; clinical cooperative groups; collaborative research; and symposia, courses, and publications. A Coordinating and Data Center located in Brussels provides central coordination for the activities. There is close cooperation with the National Cancer Institute through a National Cancer Institute-EORTC Liaison Office.

The *European Journal of Cancer* was created in 1965, with Tagnon as editor, as a major publication outlet for the activities of EORTC.

The Secretariat of EORTC is located at Birchstrasse 95, 8050 Zurich, Switzerland.

Pictured are Dr. Henri J. Tagnon and a map of the participating members of EORTC.

THIRD ANNUAL BRISTOL-MYERS AWARD FOR DISTINGUISHED ACHIEVEMENT IN CANCER RESEARCH

AWARD: \$25,000

DEADLINE FOR RECEIPT OF NOMINATIONS

December 31, 1979

ANNOUNCEMENT OF AWARD RECIPIENT

May, 1980

The Bristol-Myers Company presents an annual award to a scientist making an outstanding contribution in cancer research. The candidates for the award are to be nominated by medical schools, free-standing hospitals and cancer research centers. Only one nomination from each institution is permitted.

SELECTION COMMITTEE

Alan C. Sartorelli, Ph.D., Selection Committee Chairman
Professor and Chairman, Department of Pharmacology
Yale University School of Medicine

Harris Busch, M.D., Ph.D.
Professor and Chairman, Department of Pharmacology
Baylor College of Medicine

Albert H. Owens, Jr., M.D.
Director, Oncology Center, The Johns Hopkins University

Saul A. Rosenberg, M.D.
Professor of Medicine and Radiology, and Chief, Division of Oncology
Stanford University School of Medicine

John E. Ultmann, M.D.
Director, Cancer Research Center, University of Chicago

Rules and official nomination forms are available from:
Secretary, Award Committee, 345 Park Avenue, Room 43-30,
New York, New York 10022.
