Program

List of Participants ................................................................. 697s

Pediatric Cancer and Nutrition Workshop: Introductory Comments.
Richard S. Ungerleider, William D. DeWys, and Diane J. Fink .......... 698s

Nutritional Assessment of the Child with Cancer.
Charlotte G. Neumann, Derrick B. Jelliffe, Alfred J. Zerfas, and E. F. Patrice Jelliffe ................. 699s
Discussion .......................................................... 711s

Effect of Nutritional Supportive Therapy on Children with Advanced Cancer.
J. van Eys, A. Cangir, P. Carter, and D. Coody .................. 713s

Physiological and Psychological Mechanisms of Cancer Anorexia.
ilene L. Bernstein ...................................................... 715s
Discussion .......................................................... 719s

Pathophysiology of Cancer Cachexia: Current Understanding and Areas for Future Research.
William D. DeWys ...................................................... 721s
Discussion .......................................................... 725s

Hyperalimentation in the Undernourished Cancer Patient.
Daniel W. Nixon ...................................................... 727s
Discussion (continued) ...................................................... 727s

Effects of Therapy on Nutritional Status of the Pediatric Cancer Patient.
Sarah S. Donaldson ...................................................... 729s
Discussion .......................................................... 735s

Effects of Undernutrition on Host Cell and Organ Function.
Robert A. Good, Anne West, Noorbibi K. Day, Zhi-Wei Dong, and Gabriel Fernandes ................. 737s
Discussion .......................................................... 743s

Effect of Nutritional Status on Response to Therapy.
Jan van Eys ...................................................... 747s
Discussion .......................................................... 753s

Effect of Nutritional Status on Response to Therapy.
Sarah S. Donaldson ...................................................... 754s
Discussion (continued) ...................................................... 755s

Tumoricidal Potential of Nutritional Manipulations.
George Ev. Demetrakopoulos and Murray F. Brennan ................. 756s
Discussion .......................................................... 765s

Supportive Nutritional Intervention in Pediatric Cancer.
Karyl A. Rickard, Robert L. Baehner, Thomas D. Coates, Robert M. Weetman, Arthur J. Provisor, and Jay L. Grosfeld ...................................................... 766s
Discussion .......................................................... 772s

Controlled Clinical Trials of Nutritional Intervention as an Adjunct to Chemotherapy, with a Comment on Nutrition and Drug Resistance.
Discussion .......................................................... 778s
