Biomedical Researchers Like Lab Animals From Camm

If you could listen in on many researchers and investigators in the staff conference room you would learn not only that they like CAMM **Guinea Pigs** but also why they **prefer** them.

And when you listen to them discussing Camm's Specific Pathogen-Free Rats the comment most frequently heard is "Camm Rats are absolutely the best I've ever used." Three strains to choose from and no sendai virus...no bacterial pathogens...no salmo-

nella...no helminths, and on and on.

Camm lab animals are bred and developed under carefully controlled environmental conditions at Camm Research. Holding rooms are equipped with HEPA filters to deliver clean air to the animals.

Camm lab animals will arrive in a healthy, alert condition ready for your biomedical research tests and experiments.

Contact us today. See for yourself.

Camm
RESEARCH LAB ANIMALS

414 Black Oak Ridge Rd., Wayne, N.J. 07470 201 694-0703

American Cancer Society, Inc.

**RESEARCH ON
PSYCHOSOCIAL AND
BEHAVIORAL
ASPECTS OF CANCER**

The American Cancer Society recognizes the importance of conducting fundamental and applied investigations on the psychosocial and behavioral aspects of cancer and wishes to encourage research in these areas. Support will be provided by means of Research and Clinical Investigation Grants and through Grants in support of Personnel for Research. Brochures describing these programs are available at request from the Society.

The deadlines for receipt of applications for Research and Clinical Investigation Grants are **April 1** and **November 1, 1983**. The deadlines for receipt of applications for Grants in Support of Personnel for Research are **March 1** and **October 1, 1983**. Interested individuals are invited to submit applications to:

**American Cancer Society, Inc.
Research Department
777 Third Avenue
New York, N.Y. 10017**

For additional information, please write to the above address or call **(212) 371-2900**.
