PROGRAM PLANNING COMMITTEE

CO-CHAIRPERSONS

Carlos A. Perez  
Willis J. Taylor

COMMITTEE MEMBERS

Joan M. C. Bull  
George M. Hahn  
William C. Dewey  
Joseph P. Lowenthal  
Saul B. Gusberg  
James R. Oleson  
Stefano Vivona

PROGRAM

List of Participants  ................................................................. 4706s
Opening Remarks.  ........................................................................ 4707s

Biology, Physiology

Chairperson: William C. Dewey

Biological Effects of Heat.  ............................................................ 4708s
Eric J. Hall and Laurie Roizin-Towle
Interaction of Heat with Radiation and Chemotherapy.  ............ 4714s
W. C. Dewey
Effect of Local Hyperthermia on Blood Flow and Microenvironment: A Review.  .................................................. 4721s
Chang W. Song
Sequencing of the Total Course of Hyperthermia and Irradiation.  .................. 4731s
B. Emami, B. M. Mittal, and S. Sapareto
Summary of Discussion.  .............................................................. 4733s
William C. Dewey

Heat Delivery

Chairperson: James R. Oleson

Deep Local Hyperthermia for Cancer Therapy: External Electromagnetic and Ultrasound Techniques.  .................. 4736s
Augustine Y. Cheung and Ali Neyzari
The Clinical Efficacy of Localized Hyperthermia.  ...................... 4745s
John L. Meyer
Local Hyperthermia with Interstitial Techniques.  ....................... 4752s
Ivan A. Brezovich, William J. Atkinson, and Michael B. Lilly
Combined Interstitial Irradiation and Localized Current Field Hyperthermia: Results and Conclusions from Clinical Studies.  ............................................................. 4757s
Silvio A. Aristizabal and James R. Oleson
Regional Power Deposition for Hyperthermia: Theoretical Approaches and Considerations.  .................. 4761s
James R. Oleson
Regional Hyperthermia: A Clinical Appraisal of Noninvasive Deep-Heating Methods.  .................. 4765s
Frederic A. Gibbs, Jr.
Summary of Discussion.  .............................................................. 4771s
James R. Oleson

Thermal Dosimetry

Chairperson: Thomas C. Cetas

The Utility of Thermal Dose as a Predictor of Tumor and Normal Tissue Responses to Combined Radiation and Hyperthermia.  ............................................................. 4772s
Mark W. Dewhirst and Dalice A. Sim

4704s  
CANCER RESEARCH VOL. 44

Downloaded from cancerres.aacrjournals.org on May 1, 2017. © 1984 American Association for Cancer Research.

John W. Strohbehn .................................................. 4781s

Applications of Bioheat Transfer Simulations in Hyperthermia.

R. B. Roemer and T. C. Cetas .................................... 4788s

Direct Temperature Measurement.

Peter Fessenden, Eric R. Lee, and Thaddeus V. Samulski ............. 4799s

Will Thermometric Tomography Become Practical for Hyperthermia Treatment Monitoring?

Thomas C. Cetas .................................................. 4805s

Summary of Discussion.

Thomas C. Cetas .................................................. 4809s

**Clinical Dose Effects**

*Chairperson: Carlos A. Perez*

Quality Assessment and Assurance in Clinical Hyperthermia: Requirements and Procedures.

Gilbert H. Nussbaum ............................................. 4811s

Thermal Dose Expression in Clinical Hyperthermia and Correlation with Tumor Response/Control.

Carlos A. Perez and Stephen A. Saperato .......................... 4818s

Pathological Effects of Hyperthermia in Normal Tissues.

Luis Felipe Fajardo-L-G ......................................... 4826s

Clinical Use of Thermal Enhancement and Therapeutic Gain for Hyperthermia Combined with Radiation or Drugs.

Edward L. Gillette .............................................. 4836s

Anatomical Site-specific Modalities for Hyperthermia.

Malcolm A. Bagshaw, Mark A. Taylor, Daniel S. Kapp, John L. Meyer, Thaddeus V. Samulski, Eric R. Lee, and Peter Fessenden ............................. 4842s

An Update on the Anticancer Effects of a Combination of Chemotherapy and Hyperthermia.

Joan M. C. Bull .................................................. 4853s

Problem of Sequence and Fractionation in the Clinical Application of Combined Heat and Radiation.

Giorgio Arcangeli, Carlo Nervi, Anna Cividalli, and Giorgio A. Lovisolo .......................... 4857s

Induction of Hyperthermia Using Implanted Electrodes.

O. H. Frazier and Peter M. Corry ................................ 4864s

Summary of Discussion.

Carlos A. Perez .................................................. 4867s

**Whole-Body Hyperthermia**

*Chairperson: Joan M. C. Bull*

Whole-Body Hyperthermia Induction Techniques.

Andrew J. Milligan ............................................. 4869s

General Anesthesia for Whole-Body Hyperthermia.

Leslie H. Cronau, Jr., Denis L. Bourke, and Joan M. Bull .................. 4873s

H. Ian Robins .................................................. 4878s

Summary of Discussion.

Joan M. C. Bull .................................................. 4884s

**Commentaries and Summary**

*Chairperson: George M. Hahn*

Thermal Biology and Physiology in Clinical Hyperthermia: Current Status and Future Needs.

Gloria C. Li ................................................... 4886s

Status and Future Developments in the Physical Aspects of Hyperthermia.

T. C. Cetas and R. B. Roemer .................................. 4894s

Past Clinical Studies and Future Directions.

J. Robert Stewart .............................................. 4902s

Summary of Discussion.

George M. Hahn .................................................. 4905s

Conference Summary.

George M. Hahn .................................................. 4906s

OCTOBER 1984 4705s
