A black and white reproduction of Michelangelo's 'The Creation of Adam' is the central visual element. It shows two hands reaching toward each other, with a small gap between the index finger of the hand on the left and the index finger of the hand on the right. The background is a dark, textured grey.

Leave your mark on life.

You don't have to move mountains to make a difference on this earth. Or be a Michelangelo to leave your mark on it.

Leaving even the smallest legacy to the American Cancer Society can help change the future for generations to come. By including the American Cancer Society in your will, you'll be leaving a loving and

lasting impression on life.

You see, cancer is beatable. The survival rate for all cancers is already approaching 50% in the United States.

You'll be giving a gift of life to the future. And giving life is the greatest way of leaving your mark on it.

# **WE HAVE ONLY GOOD THINGS TO SAY ABOUT CANCER OF THE COLON.**

If detected early, the cure rate for colorectal cancer is very high.

It can be as high as 75%.

Because we now know how to detect it early. And we know how to fight it once we detect it.

There are three simple checkup guidelines for men and women without symptoms.

One, get a digital exam every year. This is recommended for everyone over 40.

Two, get a stool blood test every year if you are over 50.

Three, after two initial negative tests one year apart, get a procto exam every three to five years if you are over 50.

These guidelines are the best protection against colorectal cancer you can have.

If you're not over 50, please give this information to friends and loved ones who are.

In any case, please help spread the word.

Good news doesn't always travel fast.

**AMERICAN CANCER SOCIETY®**

Get a checkup. Life is worth it.
