BENEFITS OF MEMBERSHIP

The American Association for Cancer Research (AACR) is a scientific society consisting of laboratory and clinical cancer researchers. It was founded in 1907 "to bring together active investigators of the cancer problem for presentation and discussion of new or significant observations; and to foster research in cancer and other phenomena of growth." Members of the AACR enjoy the following benefits:

1. a subscription to the journal Cancer Research at the reduced member rate;
2. the privilege of sponsoring an abstract for presentation at the AACR annual meeting;
3. an advance copy of the Program and Proceedings pertaining to each annual meeting;
4. a reduced registration rate at the annual meeting;
5. early notification of events in the AACR's new series of small scientific meetings;
6. subscriptions to any future AACR journals at reduced member rates;
7. preferred access to the AACR Employment Register;
8. the receipt of AACR newsletters, meeting announcements, and an up-to-date membership directory.

QUALIFICATIONS FOR MEMBERSHIP

Active membership in the AACR is open to investigators who live in the Americas, and who have conducted two years of meritorious research that has resulted in publications relevant to cancer. If a candidate is working in a research area not directly related to the cancer field but has conducted research of exceptional scientific merit, he or she may also qualify for membership.

Corresponding membership is open to qualified persons who are not residents of the Americas. The requirements for corresponding membership are the same as those for active membership. Visiting scientists from outside the Americas who intend to return to their countries of origin soon after submitting their applications should apply for corresponding membership. All other individuals should apply for active membership and transfer to corresponding status at a later date if they should leave the Americas.

PROCEDURES FOR APPLICATION

There are two deadlines for receipt of a membership application: August 1 and December 1 of each year. The Membership Committee will review all complete applications for active membership that have been received by these deadlines and will submit recommendations on each candidate to the Board of Directors, which formally elects all members. The same procedure is followed by the Special Memberships Committee, which receives applications for corresponding membership. Applicants who meet the August 1 deadline will be notified of the Board's decision in November, and, if elected, will be eligible to sponsor an abstract for the annual meeting of the AACR to be held the following Spring. Applicants meeting the December 1 deadline will be notified about their election in March.

A complete application consists of the following material:

1. 6 copies of the form on the opposite side of this page, with all requested information provided.
2. 5 copies of the candidate's most current curriculum vitae and bibliography.
3. 5 copies of a letter of recommendation from a nominator who is an active, emeritus, or honorary member of the AACR (at least one copy must be a signed, original letter). This letter should describe the candidate's achievements in laboratory research, clinical investigations, or epidemiological research, and it should affirm that this research adheres to accepted ethical standards.—OR—The nominator may supply the responses requested at the bottom of the application form in the section entitled "STATEMENT OF SUPPORT" (at least one copy of the form must be the signed original).
4. 5 copies of a letter of recommendation as described in Item 3. above from a secondor who is an active, emeritus, or honorary member of the AACR (at least one copy must be a signed, original letter).—OR—The secondor may supply the responses requested at the bottom of the application form in the section entitled "STATEMENT OF SUPPORT" (at least one copy of the form must be the signed original).
5. 5 reprints of each of two publications on which the candidate appears as author.

All material should be collated into five complete sets with the original application form as a covering document and sent to the address given below. Questions regarding procedures for membership application may also be directed to the following address:

American Association for Cancer Research
Temple University School of Medicine
West Building, Room 301
Broad and Tioga Streets
Philadelphia, PA 19140
215/221-4565

RESPONSIBILITIES OF MEMBERSHIP

Candidates should be aware of the following responsibilities of membership in the AACR. Active members must pay annual dues, a major portion of which is designated for a subscription to the AACR's official publication outlet, Cancer Research. Newly elected members of the AACR who have already purchased subscriptions to Cancer Research at the higher, nonmember rate will receive reimbursement of the unused portion of that subscription once their first year's membership dues are paid in full.

All corresponding members elected after May 23, 1985, are required to pay an annual assessment in lieu of dues. This assessment, which is equivalent to that portion of the regular dues that pertains to support of activities other than the journal Cancer Research, is imposed to defray the cost of sending AACR publications to members outside the Americas. Corresponding members may, if they wish, subscribe to Cancer Research at the reduced member rate.

Successful candidates will be expected to begin paying dues to the AACR in the year following receipt of their applications; e.g., successful applicants who meet either the August 1, or December 1, 1988 deadlines will begin to pay dues in 1989.

Margaret Foti
Executive Director
AMERICAN ASSOCIATION FOR CANCER RESEARCH, INC.

APPLICATION FOR MEMBERSHIP

CATEGORY OF MEMBERSHIP:  □ Active  □ Corresponding

NAME OF CANDIDATE: ________________________________  DATE OF BIRTH: ________________________________

PRESENT POSITION/TITLE: ________________________________

INSTITUTIONAL AFFILIATION: ________________________________

INSTITUTIONAL ADDRESS: ________________________________

(City)  (State/Province)  (Country)  (Postal Code)

TELEPHONE NUMBER: ________________________________  SOCIAL SECURITY NUMBER: ________________________________

PRIMARY FIELD OF RESEARCH (Please check only one):

□ Biochemistry and Biophysics  □ Biostatistics  □ Carcinogenesis
□ Cellular Biology and Genetics  □ Clinical Investigations  □ Endocrinology
□ Epidemiology  □ Immunology  □ Molecular Biology and Genetics
□ Preclinical Pharmacology and Experimental Therapeutics  □ Virology  □ Other: ________________________________

(Please specify)

ACADEMIC DEGREES (Including where and when granted)

____________________________________________________________________

____________________________________________________________________

____________________________________________________________________

EXPERIENCE SINCE HIGHEST DEGREE WAS GRANTED (Please list most recent first)

____________________________________________________________________

____________________________________________________________________

____________________________________________________________________

PUBLICATIONS (Reprints of two articles on which the candidate appears as an author must accompany this application. For these two articles list the authors, title, journal, volume, inclusive pages, and year. Do not submit abstracts.)

____________________________________________________________________

____________________________________________________________________

____________________________________________________________________

CANDIDATE NOMINATED BY: ________________________________  CANDIDATE SECONDED BY: ________________________________

(Please type or print)  (Please type or print)

STATEMENT OF SUPPORT (in place of letters of recommendation)
Instead of submitting letters of recommendation, either the nominator or the seconder or both may complete the following section:

How long has the candidate worked in the field of cancer research? ____ years
Will the candidate make a long-term contribution to cancer research? ____ Yes ____ No
Does the candidate's research adhere to accepted ethical standards? ____ Yes ____ No
I therefore recommend this candidate for membership in the American Association for Cancer Research.

Signature of nominator ________________________________  Date ________________________________

Signature of seconder ________________________________  Date ________________________________

See Guidelines for Application on the reverse side of this form for further instructions.

THE AMERICAN ASSOCIATION FOR CANCER RESEARCH ANNOUNCES
The First
AACR Special Conference in Cancer Research

GENE REGULATION AND ONCOGENES
October 23-27, 1988
Chatham Bars Inn, Chatham (Cape Cod), Massachusetts

Supported by a Generous Grant from the General Motors Cancer Research Foundation
Program Committee

Phillip A. Sharp, Program Chairman
Massachusetts Institute of Technology
Cambridge, MA

J. Michael Bishop
University of California
San Francisco, CA

John D. Minna
National Cancer Institute
Bethesda, MD

Robert A. Weinberg
Whitehead Institute
Cambridge, MA

Aims
The purpose of the conference is to bring to the attention of the scientific and clinical community the relationships between transcription of genes and cancer. This is a particularly timely topic because of rapid advances in scientific areas such as the recent biochemical analysis of proteins regulating transcription and the molecular cloning of genes encoding these proteins, studies in yeast and Drosophila relevant to gene regulation during the cell cycle and development, and the relationship of genetic plasticity and variation in cancer cells to alterations in gene regulation. The Program Committee feels that this will be a stimulating program and invites all interested scientists to submit applications.

Scientific Program

ONCOGENES AND TRANSCRIPTION
Steven McKnight, Carnegie Institution, Baltimore, MD
Peter Vogt, University of Southern California, Los Angeles, CA
Michael Green, Harvard University, Cambridge, MA
Tom Curran, Roche Institute for Molecular Biology, Nutley, NJ

TRANSCRIPTION AND MITOGENIC RESPONSE
Daniel Nathans, Johns Hopkins University, Baltimore, MD
Moshe Yaniv, Institut Pasteur, Paris, France
(2 additional speakers to be selected)

HORMONE RECEPTORS
Ronald Evans, Howard Hughes Medical Institute, San Diego, CA
Hartmut Beug, European Molecular Biology Organization, Heidelberg, Federal Republic of Germany
Geoffrey Green, Ben-May Laboratory, Chicago, IL
David Baltimore, Whitehead Institute for Biomedical Research, Cambridge, MA

GENE REGULATION AND DEVELOPMENT
Welcome Bender, Harvard Medical School, Boston, MA
Michael Levine, Columbia University, New York, NY
Peter Gruss, Max-Planck-Institute of Biophysical Chemistry, Gottingen, Federal Republic of Germany
Harold Weintraub, Fred Hutchinson Cancer Research Center, Seattle, WA

GENE REGULATION AND MALIGNANT CELLS
John Minna, National Cancer Institute, Bethesda, MD
Philip Leder, Harvard Medical School, Boston, MA
Mark Groudine, Fred Hutchinson Cancer Research Center, Seattle, WA
Marc Lippman, National Cancer Institute, Bethesda, MD

MECHANISM OF TRANSCRIPTION CONTROL
Robert Roeder, Rockefeller University, New York, NY
Kevin Struhl, Harvard Medical School, Boston, MA
Tom Maniatis, Harvard University, Cambridge, MA
Phillip Sharp, Massachusetts Institute of Technology, Cambridge, MA

ONCOGENES AND ANTI-ONCOGENES
Robert Weinberg, Whitehead Institute for Biomedical Research, Cambridge, MA
Michael Wigler, Cold Spring Harbor Laboratory, Cold Spring Harbor, NY
Thomas Roberts, Dana-Farber Cancer Center, Boston, MA
Sung-Hou Kim, University of California, Berkeley, CA

APPLICATION DEADLINE: AUGUST 1, 1988
