EMPLOYMENT REGISTER
OF THE AMERICAN ASSOCIATION FOR CANCER RESEARCH

The advertisements below were submitted by prospective candidates and employers in the AACR Employment Registry by February 1, 1988, and were updated as of July 10, 1988. Employers participating in the Employment Registry may obtain information on the candidates listed, and participating candidates may obtain information on these positions in these advertisements by submitting written requests to the AACR Employment Registry, 330 Market Street, 2nd Floor, Philadelphia, PA 19106. The request should give the three-digit identification number(s) appearing in the upper left-hand corner of the desired advertisement(s) and should include the registrant's own three-digit identification number or a completed employment form. Requests for information on other positions in the Registry were sent to all members of the AACR in January 1989. They were also printed in the First Announcement of the Annual Meeting and in the December 1 (1988), December 15, 1988, and January 1 (1989) issues of Cancer Research.

POSITION LISTINGS

300P Staff Fellow/Senior SF: New project on res- pratin, epithelia: culture, transform, effects of cell mediat- ors of inflammation, oncogenes, growth factors. re- lated to lung carcinogenesis by silica, particulates, or other factors. Experience in cell molec. Start $24,000–30,000. U.S. citz. or perm. resid. Dr. U. Saffiotti, Lab. of Experimental Pathology, NCI/NIH, Bldg. 41/C105, Bethesda, MD 20892 (301)496-2818. 310P Postdoc. fellowship in exptl. pathol. re- lated to lung carcinogenesis by in situ, viral, and activated T cells. Experience in cell molec. and tech. related to lung cancer. Start $21,000–28,000. Dr. U. Saffiotti, Lab. of Experimental Pathology, NCI/NIH, Bldg. 41/C105, Bethesda, MD 20892 (301)496-2818.

330P Five postdoctoral training positions in immu- noregulation. Experienced with microcomputer and molec. immunology. Start $24,000–30,000. Dr. P. Kleihues, Institute of Pathology, Univ. of Zürich, CH-8091 Zürich, Switzerland.

311P Postdoctoral position in tumor cell biology available for 3 years to study mechanisms involved in tumor cell growth and development. Experience in tumor cell biology and molec. biology required. Salary: $24,000–30,000. Contact Dr. T. Saffiotti, Miami, FL 33101.

312P Postdoctoral position available in tumor cell biology for 3 years to develop and evaluate the effec- tiveness of novel cancer therapies. Experience with molec. biology and tumor cell biology required. Start $24,000–30,000. Contact Dr. T. Saffiotti, Miami, FL 33101.

313P Postdoctoral position in tumor cell biology available for 3 years to study mechanisms involved in tumor cell growth and development. Experience in tumor cell biology and molec. biology required. Salary: $24,000–30,000. Contact Dr. T. Saffiotti, Miami, FL 33101.

314P Postdoctoral position available in tumor cell biology for 3 years to develop and evaluate the effec- tiveness of novel cancer therapies. Experience with molec. biology and tumor cell biology required. Start $24,000–30,000. Contact Dr. T. Saffiotti, Miami, FL 33101.

315P Postdoc./Res. Assoc., Ph.D. or M.D. Available after January 1990. Study the function of signal transduction pathways that are involved in the activation of nuclear receptors and the development of resistance to estrogens. Salary: $24,000–30,000. Contact Dr. J. A. Goddy, New York, NY 10032.

318P Postdoctoral position available for 3 years to study signal transduction in the initiation and sensitization of tumor cell growth. Salary: $24,000–30,000. Contact Dr. A. J. R. F. Widdowson, New York, NY 10016.

324P Postdoctoral Fellow, Ph.D. in biochemistry, molecular biology or related areas to work on inter- feron receptors and interferon-mediated regulation of cellular gene expression. Experience in nucleic acids and recombinant DNA techniques desirable. Start $24,000–30,000. Contact Dr. S. L. Gupta, Hippie Cancer Research Center, Dayton, Ohio 45439-2092.

325P Associate Cancer Center Scientist, Ph.D., bio- chemist with at least 3 years postdoctoral experience in glycoprotein characterization and/or growth factors involved in human disease. Start $24,000–30,000. Salary: negotiable. Contact Dr. M. J. Murphy, Jr., Hippie Cancer Research Center, Dayton, Ohio 45439-2092.

326P Postdoctoral Fellow, Ph.D., with tissue culture expertise will further develop capillary cloning of hu- man tumors and pursue pharmacokinetics of novel chemotherapeutic agents supplied under NCI contract. Start $24,000–30,000. Salary: negotiable. Contact Dr. X. Peng, Hippie Cancer Research Center, Dayton, OH 45439-2092.

328P Postdoctoral Fellow, Ph.D., with cell culture expertise will employ capillary and Petri dish cloning of human and murine hematopoietic progeni- tors as a predictive assay for myelotoxicity of novel anti-cancer and anti-HIV chemotherapeutic agents supplied under NCI contract. Start $24,000–30,000. Salary: negotiable. Contact Dr. X. Peng, Hippie Cancer Research Center, Dayton, OH 45439-2092.

330P Postdoc./Res. Assoc. to study tissue culture and drug-nucleic acid interactions required. Knowledge of molecular aspects helpful. Application to research on novel anti-AIDS drugs. Start $24,000–30,000. Salary: negotiable. Contact Dr. J. P. Somma- dossi, Comprehensive Cancer Center, University of Alabama at Birmingham, Birmingham, AL 35294.

331P Postdoc. in Molecular Biol. Participate in on- going program in cell. bio., retinoids and hormones as

367P Assistant and Associate Professor in the Department of Hematology at M.D. Anderson Cancer Center with access to one of the largest populations of patients with hematological neoplasms in the world and the opportunity to play a role in the development of new regimens and to evaluate these disorders. Contact Dr. A. Deisseroth, Chairman, Department of Hematology, M.D. Anderson Cancer Center, 1515 Holcombe Blvd., Box 24, Houston, TX 77030, 713-792-8750/7955.

368P Post-doctoral fellows at a yearly salary of $26,000/yr are available in the laboratory of the Chair, of Hematology, M.D. Anderson Cancer Center. The laboratory is focused on the molecular mechanisms of hematopoietic differentiation in order to identify molecular approaches to treatment. Available immediately. Call Dr. A. Deisseroth at 713-792-8750 or write to the Department of Hematology, M. D. Anderson Cancer Center, 1515 Holcombe Blvd., Box 24, Houston, TX 77030.

369P Research Fellowships Available. Two post-doctoral fellowships are available immediately. One to clone and sequence the cDNA of a new growth factor gene, another to produce monoclonal antibodies against specific human growth factors. Candidates should submit CV, 3 reference letters to: Drs. James Chan and Leland Chung, Box 79 UT M.D. Anderson Cancer Center, Houston, Texas 77030, 713-792-3530.

370P Postdoctoral Research Associates (2 positions). Research in carcinogenesis of PAH and estrogens, with emphasis on the one-electron oxidation mechanism(s) and in chemical genotoxicity for biochemistry required. Analysis and identification of metabolites and DNA adducts by HPLC, 32P-postlabeling, and DNA sequencing. Salary $19,000. Contact: Dr. Eric B. Sobel, University of Texas Southwestern Medical Center, 3301 Gaston Ave., Dallas, TX 75216.

371P Postdoctoral Research Associate in the area of nucleic acid chemistry. Research involves the use of recombinant DNA technology and the study of viral encoded cellular antigens. The position is available immediately. Send curriculum vitae and list of publications to: Dr. Mark Ziegelstein, Director, Division of Molecular Pathology and Immunology, Denver, CO 80206.

372P Post-doctoral fellow in hematology. Research projects that will lead to a better understanding of the nature of cell killing and cell death. Candidates are expected to have an interest in target cell identification and their interaction with anti-cancer reagents. Available immediately. Send curriculum vitae and list of publications to: Dr. J. J. Topham, M.D., Memorial Sloan Kettering Cancer Center, 1275INY, New York, NY 10021.

373P Post-doctoral fellow in immunology. A position is available immediately in the laboratory of Dr. G. D. Shaffer. The position involves studies on human B-lymphocytes and the role of the T-cell factor in B-lymphocyte proliferation. Send curriculum vitae and list of publications to: Dr. M. G. G. Shaffer, Department of Microbiology and Immunology, University of Virginia, Charlottesville, VA 22908.

374P Post Doctoral Fellow, molecular biology of DNA repair, cell cycle, and tumor suppression in Drosophila. The position is available immediately. Send curriculum vitae and list of publications to: Dr. T. C. Beach, Department of Biological Sciences, Box 161070, University of Iowa, Iowa City, IA 52242.

375P Postdoctoral Fellow, molecular biology of DNA damage and DNA repair in mammalian systems. The position is available immediately. Send curriculum vitae and list of publications to: Dr. J. T. O'Hagan, Department of Biology, University of Connecticut, Storrs, CT 06269.

376P Postdoctoral Research Associate (2 positions). Research in carcinogenesis of PAH and estrogens, with emphasis on the one-electron oxidation mechanism(s) and in chemical genotoxicity. Analysis and identification of metabolites and DNA adducts by HPLC, 32P-postlabeling, and DNA sequencing. Salary $19,000. Contact: Dr. Eric B. Sobel, University of Texas Southwestern Medical Center, 3301 Gaston Ave., Dallas, TX 75216.

377P Post-doctoral fellow in hematology. Research projects that will lead to a better understanding of the nature of cell killing and cell death. Candidates are expected to have an interest in target cell identification and their interaction with anti-cancer reagents. Available immediately. Send curriculum vitae and list of publications to: Dr. J. J. Topham, M.D., Memorial Sloan Kettering Cancer Center, 1275INY, New York, NY 10021.

378P Research Associate. M.D., Ph.D. or equivalent or M.D. with 2–5 years of post-M.D. training. The position is available immediately. Send curriculum vitae and list of publications to: Dr. M. G. G. Shaffer, Department of Microbiology and Immunology, University of Virginia, Charlottesville, VA 22908.
402(559-4311).

408P Postdoc. Fel./Res. Assoc.—Mechanistic studies of damage/repair processes in carcinogenesis, mutagenesis, and, or cell killing. Available 7/1/89. New labs in new building. Contact Dr. M. Elkind, Colorado State University, CO 80497.

412P Nutritionist: development and promotion of nutrition programs related to Kellogg’s products to positively position the Company to respond to the interests and concerns of various audiences. Ph.D. Nutrition or equivalent required with experience. $36-$41. Contact P. W. Jones, Corporate Employment Services, Kellogg Company, Battle Creek, MI 49016-3599.

413P Positions in Cell. and Molec. Toxic. Dept. investigating mech. of oncogene activation and regulation, suppressor gene function, and sequence specificity for in vivo and in vitro mutagenesis. $24,000-$30,000. Contact Coordinator of Training, Chemical Industry Institute of Toxicology, P.O. Box 12137, Research Triangle Park, NC 27709.

414P Scientists positions in Molec. Carcin. Program. Investigate mechanism of oncogene activation and regulation, suppressor gene function and sequence specificity for in vivo and in vitro mutagenesis. CV, reprints and summary of research interests to Human Resources Dept. P.O. Box 12137, Research Triangle Park, NC 27709.

415P Staff Scientist in mechanisms of chemotherapy induced leukemogenesis. Applicant would be part of an interdisciplinary team evaluating chemically induced leukemogenesis in rodents. Expertise in hematopathology, including the use of special stains and interest in the use of molecular and cell biology techniques to characterize and interpret lymphoid malignancies. Available immediately. Contact: Dr. R. O. McClanahan, C.S.T., P.O. Box 12137, Research Triangle Park, NC 27709.

416P Staff Scientist to work in mechanisms of pul- monary carcinogenesis. Position involves an inter- disciplinary team evaluating pulmonary injury induced by fibers and particles. Expertise in morphologic evaluation of lung with special emphasis on electron microscopy. Experience working with walk-in approaches with biochemical, cellular and molecular biology techniques would be helpful. Available immediately. Contact: Dr. R. O. McClanahan, C.S.T., P.O. Box 12137, Research Triangle Park, NC 27709.

417P Postdoctoral position to study oncogene acti- vation and expression in chemical carcinogenesis at Monsanto Environmental Health Laboratory (St. Louis, MO). Candidates required to have experience in molecular biology with experience in oncogene research preferred. External publications and scientific interactions highly encouraged. Generous compensation package. Contact Dr. K. D. Kier, Monsanto EHL, 800 N. Lindberg Blvd., St. Louis, MO 63167.

418P Postdoctoral Position. Position available immediately for Ph.D. with strong background in mammalian cell biology/membrane biochemistry to join a research project investigating mammalian epithelial cell differentiation, under the direction of Dr. Karen Thompson. The project involves the stage-specific markers for normal mammalian epithelial cell development can be defined.

420P Research Assistant Professor: Successful applicant will have completed at least 3 years of postdoctoral work and will conduct independent research on oncogenes and/or the molecular biology of human tumors. Limited responsibilities for medical/graduate student teaching. Available September 1989. Contact W. F. Schmidt, M.D., Ph.D., Children’s Cancer Research Laboratory, The USC School of Medicine, Columbia, SC 29203. Tel.(803)-733-3154.

423P Postdoc Fellow, Ph.D. or M.D. Research on molecular biology techniques required to conduct res. on oncogenes and suppressor genes during liver regeneration. Contact Dr. Oscar Sudovisky, Instituto de Pathology, Case Western Reserve Univ., Cleveland, OH 44106.

424P Research in Mol. Biol. of Cancer. Studies on epidermal growth factor gene amplification; hepatocytic oncogenes. Basic research laboratory in conjunction with clinical molecular biology unit can provide mol. biology training. Available immediately. Contact Dr. A.C. Su, LSU, New Orleans, LA 70112.

425P Tenure track position at Asst./Associate Professor level. Applicant should be willing to participate in current departmental research in invertebrate reproductive biochemistry and development. Expected to develop a strong research program and teach. Research interests in fish biology and invertebrates. CV, reprints and relevant research experience to: Dr. N. Dykas, Biology Dept. The Ohio State University, Columbus, OH 43210.

426P Postdoctoral fellow/research associate wanted for project investigating the mechanism of spontaneous induction of malignancy of mouse cells by human tumors when they are implanted in nude mice. Candidates should have experience in molecular biology. The first position is a National Institutes of Health predoctoral fellowship. colleagues and salary negotiable. Avail. immediately. Contact: Dr. G. J. Barnard, Institute for Human Virology, 5600 Peachtree Corners Parkway, Atlanta, GA 30349.

427P Postdoctoral fellow/research associate for project investigating the mechanism of spontaneous induction of malignancy of mouse cells by human tumors when they are implanted in nude mice. Candidates should have experience in molecular biology. The first position is a National Institutes of Health predoctoral fellowship. colleagues and salary negotiable. Avail. immediately. Contact: Dr. G. J. Barnard, Institute for Human Virology, 5600 Peachtree Corners Parkway, Atlanta, GA 30349.

actions. Tiss. cult., receptor studies, in situ hybridiz.
for cellular RNA, Northern, plasmid preps., South-
379C Ph.D., 1983, Medicinal Chemistry; tissue cul-
ture, HPLC, southern blots, DNA transfections, plas-
mid and DNA isolation, biochemical assays, gel retar-
dation assays, DNA repair and alkalisation. Postdoc., 2
years; Assistant Professor (non-tenure track) 3 years;
Seek academic faculty position—available September
1989. Prefer Chicago or surrounding area.
380C Ph.D., will grad. late 1989. Biochem. /Cell Biol./
Hematotoxicol.; tissue culture, chemiluminescence,
DNA isolation, probes, in vivo/in vitro toxicity, protein
analysis. Seek acad./indus. postdoc. Available late
1989, early 1990. Prefer mid-Atlantic States. Salary negoti-
able.
381C Ph.D., 1986. Molec./Genetics. Experiences: tissue
culture/hybrids, protein purification, protein sequenc-
ing, immunol. analyses, antibody generation and
purification, Northern/Southern blots, DNA probes,
cloning, DNA sequencing, oncogenes, RFLP
linkage analyses. Postdoc. 3 yrs. Teach. exp. 2 1/2 yrs.
Seek acad./indus. research position. Salary Neg.
management in Pharmaceutical industry: cytokines,
immunotoxichology, arthritis, inflammation, cancer,
AIDS. IND for FDA. clinical site monitor. M.S., 1981,
Biomedical Sciences. Twelve years government and
academic research: arachidonate metabolism, free
radicals, radiation, tumor promotion and metastasis.
Seek industrial or government position. Prefer RTP
area. Available immediately.
383C Ph.D., 1988. Prot. purification (conventional af-
finity & immunopurification), enzyme assays (spectrophot-
o-meter radio label). prot. phosphorylation, tissue culture,
monoclonal Ab, SDS PAGE, HPLC TRL, RIA GC large
& small animals Post doc 2 yr. Study new folate
analogues in cancer res. Seeks indus./govt. res. pos. in
area of folate or purine metabolism. Avail. 3/90. Salary negoti-
able.
385C Ph.D., 1984, Env.Sc./Cancer Biol; enzymol-
ogy, HPLC, P2-p post labelling, autoradiography, tissue
culture, cytogenetic analyses, DNA addsucts analyses.
Postdoc. 3 yrs. Seek acad./indus. research position in
molec. carcinogenesis/oncogenes. Salary negoti-
able.
386C Ph.D., 1989. Pharmacology; tissue culture;
mutagenesis, mutagenicity testing, alkali elution,
DNA/plasmid isolation, DNA transfection, Southern
blotting. HPLC. Interests: DNA repair tumor biology,
genetic toxicology, molecular carcinogenesis. Seek
acad./indus. 2–3 yr postdoc. utilizing molecular biologi-
techniques to study carcinogenesis/neoplastic
transformation.
387C Ph.D., 1987. Biophysics; electron microscopy;
freeze fracture, transmission, scanning, immunogold,
en bloc stais, image analysis, computerized statisti-
cal/spatial analysis. Microbial/mammalian systems.
Postdoc. 3 yrs. Seek acad. position. Avail. summer
Salary negotiable.
388C Ph.D., 1984. hormone receptor, biology, im-
munotxin conjugation. FACS, immunotherapy, new
photosensitizers and PDT, DNA probes PCR, blood
banking virus killing, application of PDT in bone mar-
row and transplantation immunology, vaccine devel-
opment, toxicology and clinical trials. Research Asso.
389C Ph.D., Pharmacology. 1988. DNA repair and
replication, biochemical pharmacology, mechanisms
of drug resistance, tissue culture. HPLC. TLC, North-
ern blots, DNA probes, plasmids, DNA transfection,
enzymology and enzyme purification, drug interaction
Prefer East or West Coast. Salary negotiable.
390C Ph.D. Inorganic Chemistry. Postdoctoral Ex-
perience. 19 years experience in drug discovery/de-
development: Pt antitumor drugs, gold complexes in
arthritis radiopharmaceutical development, and metals
in medicine. Teaching and industrial experience. Seeks acad./indus. research position. Prefer midwest-
est. Salary & avail.—negotiable.
391C Ph.D., 1989 expected Pharmacology, cell and
molecular biology; experience in analysis of growth
factor production, oncogenic transfection of mamma-
lian cells, liver cell culture, molecular biology tech-
niques, immunoblotting; available winter 1989/90;
postdoctoral position in academia or industry; salary
negotiable.
392C Ph.D., 1988. Cytokine/cell biology, Northern/
Southern blots, RNA/DNA isolation, plasmid extrac-
tion, DNA probes, tissue culture, immunol. analyses,
radio-immunoprotocols. Postdoc. 2 yrs. Seek Indus./
393C Dr. P.H., 1989. Toxicology, immunotoxichol-
ogy, in vitro and in vivo immune responses, tyrosine
kinases, PKC, cell surface receptors, oncogenes, bio-
chemical and analytical chemistry. Postdoc. 1 yr.
Teach. exp. 1 yr. Seek acad./indus.Govt. research
position. Avail June 1990. Prefer NC, southeast S.F.
bay area. Salary negotiable.
395C Ph.D., 1984. Molec./Cell Biol./Pharm. Invest-
igated in mech. of cell-cell interaction and membrane-
mediated events inc. MDR. 5 yrs. postdoc exp. in
protein chem. inc. P-glycoprot. Multidisciplinary ap-
proach. Currently Luekaemia Soc. Spec. Fellow. Pub-
lcations in JBC, JCB, PNAS. Avail. fall 1989. Seek
Assistant Prof. or equiv. in acad./indus. in North-
esth corridor.
396C Ph.D., 1987. Pharm.; chem. carcinogenesis,
genet. toxicol., molec. molec., oncogenes, xenobiot. me-
tab., 32P-postlab., TLC, HPLC, gel elec., animal
handling + dissect., computer anal., teaching exp.
Postdoc 2 yr. Seek acad./indus. res. position. Avail.
fall 1989. Prefer Midwest and eastern states. Salary
Negot.
397C Ph.D., 1987. Nutr./Biochem./Cell Biology. Vi-
tamin A and D, retinoic acid and steroid hormone
receptors, tissue culture, Northern/Western blots,
RIA, ELISA, immunocytochemical staining, antibody
purification, micro injection. Staff position in Goverm./
Indus./Acad./DC/Baltimore, MD area.
399C Ph.D., 1986 Cell Biol./Microbiol. Tissue cul-
ture: extensive experience in cell culture and nutrition.
Nucleic acid and protein isolation and purification,
enzyme kinetics, column chromatog., HPLC, electro-
phoresis, blots. Computers—past work as computer
consultant. Postdoc. 4 yrs. Seek acad./industry re-
400C Ph.D., 1972. Immunology, Virology, Tumor Cell
Biology; in vitro, & in vivo tumor cell culture, drug
testing, radiocellabelling, localization & efficacy studies,
radiobiology, cellular immunology, B cell NK, CTL,
macrophage assays, R & D of adoptive immunother-
apy, B & T cell immortalization, T cell biology.
401C Ph.D., 1987 Endocrinol/physiol; tissue culture,
surface receptors, Western blots, protein purification,
cannulation. Postdoc 2 yrs. Teach. exp. 3 yrs. Seek
acad./indus. research position. Available Sept 1989, preferably
403C Ph.D., 1988. Biochemistry; hormone recep-
tors, protein purification and characterization, and
s tissue culture. Seek acad./indus. research position.
biology; tissue culture, in vivo—in vitro animal tumors.
Seek academic position. Available Sept 1989, preferably
surface receptors N/S/W blotting, immunomassays cy-
togenetics, 15 years lab. exp. Avail. Sept 1989. Seek
Salary negotiable.
and repair, cancer-prone genetic disease, carcinogen-
esis, gene cloning. Assist. prof. w/ R01 grant. Seek
tenure track position or equiv. indus. pos. Sal. negot.
407C Ph.D., 1983. Biochemistry; immunology, toxi-
cology and experimental therapeutics. Molecular mech-
anism of drug interaction and resistance. DNA, RNA
sequencing, Southern/Northern/Western blots. Gene
amplification by polymerase chain reaction (PCR).
DNA transfection, tissue culture, HPLC, GC, TLC.
Protein chemistry. Enzyme purification assay and ki-
408C Ph.D. Candidate Env. Toxiochemistry; tissue cul-
ture of lymphocytes and hepatocytes. Chromosome
analysis of gammaglutamyl transpeptidase positive
and negative cells separated by antibody affinity. Mi-
crosomal fraction preparation and analysis of DMBA
metabolism of lymphocyte cultures. HPLC separation
of metabolites. Seek acad./indus. research position.
410C Ph.D., 1980 Pharmacology; experience in drug
screening, signal transduction, monoclonal antibodies,
ELISA; Western blots, immunopetrecipitation, etc. To-
oxology, biochem. pharmacol., drug metabolism and
mechanism of action, physical chem. techniques. Seek
indus. research position. Avail. immediately. Salary ≥
45,000.
411C Ph.D. 1984 Biochemical Pharmacology; Mi-
olecular Biology/Genetics. Transcription, anti-tumor/
anti-viral drugs. mRNA analysis, Northern blots, S1
nuclease protection. Genomic sequencing/footprint-
ing. 2 Postdoc’s total 5 yrs. Seek industrial research
position in U.K. Available Nov 89.

AMERICAN ASSOCIATION FOR CANCER RESEARCH

1990 EMPLOYMENT REGISTER FORMS AND INSTRUCTIONS

INTRODUCTION

The AACR’s Employment Register is intended to attract young scientists to the Association, increase interest in AACR programs, and provide a valuable service to all cancer researchers, both senior and junior investigators.

The AACR has operated a limited Employment Register since 1983 with a fee structure that has permitted only the listing of positions and candidates at the annual meeting. Beginning in 1988, AACR staff scheduled interviews at the annual meeting, and brief advertisements describing available candidates and positions were published in the Proceedings of the American Association for Cancer Research and in two issues of Cancer Research. These services will be continued in 1990. Registration forms for the 1990 Employment Register can be found on the following pages. Fees have been set at the following levels:

Each candidate registration
— by an AACR member $10
— by a nonmember $25

Each position listing
— by an AACR member from a nonprofit or governmental organization $75
— by a nonmember from a nonprofit or governmental organization $125
— from a commercial organization $250

INSTRUCTIONS FOR CANDIDATES

1. Supply all information requested on the attached candidate registration form.
2. Type a short description of your background and the position you are seeking in the 5" x 1½" box provided. Do not include your name; the AACR will assign identification numbers to all candidate listings. Please type carefully; this description will be reproduced as described in the section below entitled PUBLICATION OF LISTINGS.
3. Enclose the original form plus 12 copies.
4. Enclose appropriate payment:
   a. $75 from AACR members in nonprofit or governmental organizations.
   b. $125 from nonmembers in nonprofit or governmental organizations.
   c. $250 from commercial firms.
5. Checks should be issued in U.S. dollars, drawn on a U.S. bank, and made payable to AACR, Inc.
6. Forms should be submitted by February 1, 1990, to ensure publication of listings in the Proceedings. However, position listing forms will continue to be accepted in the Association Office until May 1, 1990. After that date forms should be submitted at the annual meeting.
7. Mail all position listing forms to:
   Employment Register
   American Association for Cancer Research, Inc.
   330 Market Street, 2nd Floor
   Philadelphia, PA 19106

INSTRUCTIONS FOR EMPLOYERS

1. Supply all information requested on the position listing form for each position available.
2. Type a short description of the position available in the 5" x 1½" box provided. Please type carefully; this description will be reproduced as described in the section below entitled PUBLICATION OF LISTINGS.
3. Enclose the original form plus 12 copies.
4. Enclose appropriate payment:
   a. $75 from AACR members in nonprofit or governmental organizations.
   b. $125 from nonmembers in nonprofit or governmental organizations.
   c. $250 from commercial firms.
5. Checks should be issued in U.S. dollars, drawn on a U.S. bank, and made payable to AACR, Inc.
6. Forms should be submitted by February 1, 1990, to ensure publication of listings in the Proceedings. However, position listing forms will continue to be accepted in the Association Office until May 1, 1990. After that date forms should be submitted at the annual meeting.
7. Mail all position listing forms to:
   Employment Register
   American Association for Cancer Research, Inc.
   330 Market Street, 2nd Floor
   Philadelphia, PA 19106

SCHEDULING OF INTERVIEWS

The AACR will set aside space at the annual meeting for interviews which will be scheduled at mutually agreeable times during the following hours: Wednesday, Thursday, and Friday, May 23–25, from 8:00 a.m. to 5:00 p.m., and Saturday, May 26, from 9:00 a.m. to 12:00 noon. Each candidate and employer will receive an identification number. Registrants who submit their forms and fees by May 1, 1990, will receive from the AACR an acknowledgment which contains their identification number. Scheduling cards will be filled out at the annual meeting.

PUBLICATION OF LISTINGS

Short advertisements describing each candidate and position listing will be published in Volume 31 (1990) of the Proceedings of the American Association for Cancer Research and in the September 1, and December 1, 1990, issues of Cancer Research. The attached forms contain space for copy for these advertisements. Please type carefully to ensure accurate reproduction of your advertisement. Your copy must not exceed the limits of the box because space for these advertisements is limited. Advertisements for available positions should contain the name and address of the person conducting the job search, and candidates will be able to communicate with that person directly. Candidate advertisements will be anonymous. The AACR will provide the candidate’s complete form to any registered employer who requests it.

As noted above, because of the early publication date of the Proceedings, forms must be received by February 1, 1990, to ensure publication in that document. However, all advertisements submitted before or during the meeting will be published in the two issues of Cancer Research. Registrants wishing to withdraw their advertisements must submit written requests to that effect to the Association Office by July 5, 1990, for the September issue, and by October 3, 1990, for the December issue. All participants in the Employment Register are urged to notify the Association immediately of any change in their status so that all listings will remain current.

FURTHER INFORMATION

Questions about the Employment Register may be directed to the Association Office at 215-440-9300.
DESCRIPTION OF POSITION

Title ______________________________________

Nature of Work and Responsibilities (research, teaching, administration, etc.)

**AVAILABILITY FOR INTERVIEWS AT AACR ANNUAL MEETING**

I ___ plan ___ do not plan to attend the AACR Annual Meeting in Washington.
Dates available for interviews: ___ May 23 ___ May 24 ___ May 25 ___ May 26

(This form may be reproduced)
QUALIFICATIONS FOR MEMBERSHIP

Associate membership is open to graduate students, medical students, postdoctoral fellows, and physicians in training who live in the Americas and who are following a course of study or who are working in a research program relevant to cancer.

BENEFITS OF MEMBERSHIP

The American Association for Cancer Research (AACR), a scientific society consisting of laboratory and clinical cancer researchers, was founded in 1907 "to bring together active investigators of the cancer problem for presentation and discussion of new or significant observations; and to foster research in cancer and other phenomena of growth." Associate members of the AACR enjoy the following benefits:

1. the privilege of sponsoring an abstract for presentation at the AACR annual meeting provided that (a) the associate member is the presenter of the abstract and (b) an active member in good standing of the AACR also signs the abstract in support of the work (In this instance, the active member who cosigns the abstract does not lose his or her own sponsorship privilege);
2. an advance copy of the Program and (if one has been purchased by the associate member) the Proceedings of the American Association for Cancer Research which contains abstracts of all papers being presented at each annual meeting;
3. the privilege of registering for the annual meeting at the low student rate (This rate is otherwise available only to predoctoral students);
4. preferred access to the AACR Employment Register;
5. an optional subscription to the journal Cancer Research at the reduced member rate;
6. subscriptions to any future AACR journals at reduced member rates;
7. early notification of events in the AACR's new series of small scientific meetings on timely scientific topics;
8. the receipt of AACR newsletters, meeting announcements, and an up-to-date membership directory; and
9. the facilitation of informal scientific exchange with leading researchers in the cancer field.

PROCEDURES FOR APPLICATION

Persons wishing to apply for associate membership must use the official application form on the reverse side of these instructions. Each candidate for associate membership must be nominated by an active member in good standing of the AACR. Three completed copies of the form should be submitted; at least one of these copies must carry the original signatures of both the candidate and the active member nominator. The application form may be submitted to the Association Office at any time. After review of applications for associate membership, the Executive Director will notify candidates of their election or deferral within one month of the receipt of the application form. A check in the amount of $20, which represents one year's dues payment, must accompany the application. This fee will be refunded to any candidate deemed to be ineligible for associate membership. Checks should be in U.S. currency, made payable to AACR, Inc., and drawn on a U.S. bank. Send the three copies of the application form and the $20 dues payment to:

American Association for Cancer Research
330 Market Street - 2nd Floor
Philadelphia, PA 19106
215/440-9300

RESPONSIBILITIES OF MEMBERSHIP

Associate members must pay annual dues in an amount to be determined by the AACR Board of Directors. Dues for 1989 have been set at $20 per year. If an application is submitted by August 31, the accompanying dues payment will be credited to the current year. Candidates submitting applications between September 1 and December 31 may indicate whether they wish their dues payments credited to the current or forthcoming year. Candidates should be aware, however, that associate members may sponsor an abstract for the annual meeting only if their dues for the current year are paid. For example, an associate member submitting an abstract in December 1989 for the forthcoming annual meeting must have paid dues for 1989. Any newly elected associate members of AACR who have already purchased subscriptions to Cancer Research at the higher, nonmember rate will receive a refund for the unused portion of that subscription upon receipt of their payment for a member's subscription.

Each Fall the AACR will send to current associate members an invoice for dues for the forthcoming year. Payment of this invoice must be accompanied by a statement signed by the associate member's registrar, dean, or department head, verifying the member's current academic status. The Association's By-Laws state that dues are payable for each year in advance on or before January 1 of that year. An individual may be an associate member for a maximum of five years. Each year in which an individual pays dues will count as one full year of associate membership. Thus, an associate member who pays dues for 1989 may retain associate membership until December 31, 1993. The board of Directors may terminate the membership of any associate member whose dues are in arrears for two years.

Margaret Foti,
Executive Director
AMERICAN ASSOCIATION FOR CANCER RESEARCH, INC.  
330 Market Street - 2nd Floor  
Philadelphia, PA 19106  

APPLICATION FOR ASSOCIATE MEMBERSHIP

CANDIDATE NOMINATED BY: ________________________________  
(Please type or print name of AARC active member in good standing.)

SIGNATURES

I hereby apply for associate membership in the American Association for Cancer Research. I have read the instructions on the reverse side of this form, and I understand the privileges and responsibilities of this class of membership. I certify that the statements on this application are true.

Signature of Candidate: ______________________________________  Date: ______________________________

I recommend this candidate for associate membership in the American Association for Cancer Research. To the best of my knowledge, the candidate is qualified for this class of membership, and the statements on this application are true.

Signature of Nominator: ______________________________________  Date: ______________________________

Submit three copies of this form. At least one copy must contain the original signatures of the candidate and the nominator. Enclose a check for $20 in U.S. funds made payable to AARC, Inc. and drawn on a U.S. bank. Check one of the following boxes only if this form is being submitted between September 1 and December 31:

The enclosed dues payment should be applied to the

☐ current  ☐ forthcoming  ☐ calendar year.

(NOTE: If dues are applied to the forthcoming year, membership will take effect on January 1.) See Guidelines for Application on the reverse side of this form for further instructions.

**THE DEADLINE FOR REGISTRATION BY MAIL IS MARCH 30, 1990**

*Students must enclose a statement, signed by the registrar, dean, or department head of their university or college on official letterhead, confirming their status. Special student rates are available only to predoctoral students. Postdoctoral fellows or physicians in training do not qualify for the student registration rate unless they are associate members of the ACR. An application for associate membership may accompany this form, but these should be submitted well before the advance registration deadline as review of the associate membership application may delay registration.*

†AACR members with paid-up subscriptions to Cancer Research receive the Proceedings automatically. Members who check this box and pay the $25 fee will receive an additional copy of the Proceedings.

‡Optional payment for registrants outside of the U.S. and Canada only. Registrants paying this surcharge will receive meeting publications via air mail — printed matter before the annual meeting.

Mail all advance registration forms with applicable fees to Annual Meeting Registration, American Association for Cancer Research, Inc., 330 Market Street - 2nd Floor, Philadelphia, PA 19106. Receipts will be sent to you in April. AACR members in good standing will receive copies of the Program and Proceedings prior to the meeting. Nonmember and student advance registrants residing in the U.S. and Canada will also receive the Program before the meeting and (if they have purchased it) the Proceedings. Please note that nonmember registrants receive a copy of the Proceedings automatically, but if students are to receive a copy of this document before the meeting, it must be purchased at the time of advance registration.

**REFUND POLICY**

Refunds on registration fees will be granted on written request received in the AACR Office by May 18, 1990. Requests received after this date will not be honored. Receipts and badges (if they have been mailed) must be returned to the AACR Office with the refund request. A cancellation fee of $25 will be deducted from all refunds to cover administrative costs. Proceedings are not returnable, and an additional $25 will be deducted from refunds to nonmembers and students if this document has already been mailed.

(This form may be reproduced.)
