Announcements

EIGHTY-SECOND ANNUAL MEETING OF THE
AMERICAN ASSOCIATION FOR CANCER
RESEARCH, INC.

The regular scientific sessions of the 82nd Annual Meeting of the American Association for Cancer Research, Inc. will be held at the George R. Brown Convention Center, Houston, TX, from 8:00 a.m., Wednesday, May 15, 1991, until 5:30 p.m. on Saturday, May 18, 1991. One methods workshop is tentatively scheduled for late afternoon on Tuesday, May 14, 1991. Please note that the AACR meeting will precede that of the American Society of Clinical Oncology to be held on May 19–21, 1991, in the Brown Center.

AACR members and interested nonmembers are encouraged to register in advance of the 1991 meeting. During the Fall of 1990, forms for this purpose will be mailed to AACR members and nonmembers who have attended previous AACR meetings. Forms will also be published in the December 1, 1990, through the March 15, 1991, issues of Cancer Research. Additional forms may be obtained by writing to the office of the American Association for Cancer Research. On-site registration will be conducted in Houston, beginning on the afternoon of Tuesday, May 14, 1991, and will continue throughout the meeting.

The deadline for submitting abstracts for presentation at the meeting will be November 30, 1990. Abstracts that are submitted in conformity with regulations and are accepted for presentation at the meeting will be published in the March 1991 Proceedings of the American Association for Cancer Research. All subscribers to the journal Cancer Research will receive a copy of the Proceedings as part of their subscriptions to the journal.

Forms for the Association's Employment Register will be mailed along with meeting registration forms in the Fall and will also appear in the December 1, December 15, and January 1 issues of Cancer Research. Registered employers and candidates will be able to place listings in the Proceedings and in two issues of Cancer Research. The Association will schedule appointments for employers and candidates during the annual meeting upon request. To ensure full participation in the Employment Register, forms for the Register should be submitted to the Association Office by January 25, 1991.

CALL FOR NOMINATIONS FOR THE SCIENTIFIC
AWARDS OF THE AMERICAN ASSOCIATION FOR
CANCER RESEARCH

The American Association for Cancer Research presents four awards to distinguished scientists at its annual meeting. The Awards Committee, consisting of four separate subsections, will recommend candidates for each award to the AACR Board of Directors. Below you will find a description of each award. Those wishing to make nominations should provide a description of the candidate's accomplishments and include a curriculum vitae. If necessary, the appropriate subcommittees will obtain further documentation on suitable candidates. Nominations may be directed to the Association Office for forwarding to the appropriate subcommittee, or they may be sent directly to the subcommittee chairperson. This material should be received no later than October 12, 1990.

Clowes Memorial Lecture. The Eli Lilly Company established the Clowes Memorial Lecture to honor Dr. G. H. A. Clowes, founding member of the AACR and a research director of Eli Lilly. The purpose of the award is to give "recognition of outstanding research accomplished in some recent period." The Clowes Award recognizes outstanding recent accomplishments in basic cancer research; this includes both laboratory research and epidemiological investigations.

Rhoads Memorial Award. In 1979 an anonymous donor established this award in memory of Dr. Cornelius P. Rhoads, a founder and the first Director of the Sloan-Kettering Institute for Cancer Research. This annual award gives recognition to an individual for meritorious achievement in cancer research. The awardee must be a young investigator; the recipient must not have reached his or her forty-first birthday by the time of the award.

Richard and Hinda Rosenthal Award. The Rosenthal Foundation established this award to "recognize research which has made or gives the promise of soon making a notable contribution to improved clinical care in the field of cancer." The award honors young investigators relatively early in their careers. The award is restricted to individuals who are engaged in the practice of medicine, who reside in the Americas, and who will not be more than fifty years of age at the time of the award.

Rhoads Subcommittee Chairperson
Dr. Frederick P. Li

Boston, MA 02115

Cain Memorial Award. The Warner-Lambert Company instituted this award to honor the memory of Dr. Bruce F. Cain of New Zealand for his work in the design, synthesis, and biological evaluation of potential anticancer drugs. The award gives recognition to an individual or research team for outstanding preclinical research that has implications for the improved care of cancer patients. Examples of such research include discovery of a significant new anticancer agent and major contributions to a compound's application as an antitumor agent. The award recognizes outstanding contributions in the fields of medicinal chemistry, biochemistry, or tumor biology as related to drug discovery. It encompasses anticanic, antiviral, or antifungal agents; has no age limit; and is international in scope.

AACR SPECIAL CONFERENCES IN CANCER RESEARCH

A number of meetings are now being organized in the AACR's new series of smaller scientific meetings. The topics, dates, locations, and program committees for these meetings are given below. When full details of each meeting are available, AACR members will be the first to receive complete brochures and application forms for participation in these important conferences. Nonmembers may receive this information by sending their names and addresses to Meetings Mailing List, AMERICAN ASSOCIATION FOR CANCER RESEARCH, Public Ledger Building, 6th & Chestnut Streets, Suite 816, Philadelphia, PA 19106.
ANNOUNCEMENTS

CHROMOSOMAL AND GROWTH FACTOR
ABNORMALITIES IN LEUKEMIA
October 14–18, 1990
Chatham Bars Inn, Chatham (Cape Cod), MA
Organizers
Janet D. Rowley, University of Chicago, Chicago, IL
Peter C. Nowell, University of Pennsylvania School of Medicine, Philadelphia, PA
Donald Metcalf, Walter & Eliza Hall Institute, Melbourne, Australia
Leo Sachs, The Weizmann Institute of Science, Rehovot, Israel

NEGATIVE CONTROLS ON CELL GROWTH AND THEIR BREAKDOWN DURING THE PATHOGENESIS OF CANCER
(tentative topic)
October 20–24, 1991
Chatham Bars Inn, Chatham (Cape Cod), MA
Organizers
Robert A. Weinberg, Whitehead Institute for Biomedical Research, Cambridge, MA (Chairperson)
Arnold J. Levine, Princeton University, Princeton, NJ
David M. Livingston, Dana Farber Cancer Institute, Boston, MA
Eric J. Stanbridge, University of California, Irvine, CA

MOLECULAR MECHANISMS AND CONCEPTS FOR MULTISTAGE CARCINOGENESIS
(Joint Meeting with European Association for Cancer Research)
November 7–9, 1991
Italy
Chairpersons
I. Bernard Weinstein, Columbia University College of Physicians & Surgeons, New York, NY
Peter Bannasch, German Cancer Research Center, Heidelberg, FRG

FUTURE ANNUAL MEETINGS OF THE AMERICAN ASSOCIATION FOR CANCER RESEARCH
1991 May 15–18 Houston, Texas
1992 May 20–23 San Diego, California
1993 May 19–22 Orlando, Florida
1994 May 11–14 Dallas, Texas

RECENT DEATH
We regret to report the death of Dr. Warren H. Cole of Asheville, North Carolina. Dr. Cole was an Emeritus Member of the American Association for Cancer Research.

CALENDAR OF EVENTS

Biotherapy of Cancer: A Symposium for Clinicians and Nurses, February 7–9, 1991, Marriott Resort Hotel, Newport Beach, California. Sponsored by Hoag Cancer Center and Memorial Hospital, Newport Beach, California. Registration Fees: $375—Physicians; $300—Nurses/Residents. Accreditation: 15 credit hours Category I. Contact: Meeting Management—Biotherapy of Cancer, 5665 Oberlin Drive, Suite 110, San Diego, CA 92121. Telephone: (619) 453-6222.
