AMERICAN ASSOCIATION FOR CANCER RESEARCH

1991 EMPLOYMENT REGISTER FORMS AND INSTRUCTIONS

INTRODUCTION

The AACR’s Employment Register is intended to attract young scientists to the Association, increase interest in AACR programs, and provide a valuable service to all cancer researchers, both senior and junior investigators.

The AACR had operated a limited Employment Register since 1983 with a fee structure that permitted only the listing of positions and candidates. The annual meeting. Beginning in 1988, AACR staff scheduled interviews at the annual meeting, and brief advertisements describing available candidates and positions were published in the Proceedings of the American Association for Cancer Research and in two issues of Cancer Research. These services will continue in 1991. Registration forms for the 1991 Employment Register can be found on the following pages. Fees have been set at the following levels:

- **Each candidate registration**
  - by an AACR member $10
  - by a nonmember $25

- **Each position listing**
  - by an AACR member from a nonprofit or governmental organization $75
  - by a nonmember from a nonprofit or governmental organization $125
  - from a commercial organization $250

INSTRUCTIONS FOR CANDIDATES

1. Supply all information requested on the attached candidate registration form.
2. Type a short description of your background and the position you are seeking in the 5" X 1½" box provided. Do not include your name; the AACR will assign identification numbers to all candidate listings. Please type carefully; this description will be reproduced as described in the section below entitled PUBLICATION OF LISTINGS.
3. Enclose the original form plus 1 copy.
4. Enclose appropriate payment:
   a. $75 from AACR members in nonprofit or governmental organizations.
   b. $125 from nonmembers in nonprofit or governmental organizations.
   c. $250 from commercial firms.
5. Checks should be issued in U.S. dollars, drawn on a U.S. bank, and made payable to AACR, Inc.
6. **Forms should be submitted by January 25, 1991.** to ensure publication of listings in the Proceedings. However, candidate registration forms will continue to be accepted in the Association Office until April 22, 1991. After that date forms should be submitted at the annual meeting.
7. Mail all candidate registration forms to:
   - Employment Register
   - American Association for Cancer Research, Inc.
   - Public Ledger Building, Suite 816
   - 6th & Chestnut Streets
   - Philadelphia, PA 19106

INSTRUCTIONS FOR EMPLOYERS

1. Supply all information requested on the position listing form for each position available.
2. Type a short description of the position available in the 5" X 1½" box provided. Please type carefully; this description will be reproduced as described in the section below entitled PUBLICATION OF LISTINGS.
3. Enclose the original form plus 1 copy.
4. Enclose appropriate payment:
   a. $75 from AACR members in nonprofit or governmental organizations.
   b. $125 from nonmembers in nonprofit or governmental organizations.
   c. $250 from commercial firms.
5. Checks should be issued in U.S. dollars, drawn on a U.S. bank, and made payable to AACR, Inc.
6. **Forms should be submitted by January 25, 1991.** to ensure publication of listings in the Proceedings. However, position listing forms will continue to be accepted in the Association Office until April 22, 1991. After that date forms should be submitted at the annual meeting.
7. Mail all position listing forms to:
   - Employment Register
   - American Association for Cancer Research, Inc.
   - Public Ledger Building, Suite 816
   - 6th & Chestnut Streets
   - Philadelphia, PA 19106

SCHEDULING OF INTERVIEWS

The AACR will set aside space at the annual meeting for interviews which will be scheduled at mutually agreeable times during the following hours: Wednesday, Thursday, and Friday, May 15-17, from 8:00 a.m. to 5:00 p.m., and Saturday, May 18, from 9:00 a.m. to 3:00 p.m. Each candidate and employer will receive an identification number. Registrants who submit their forms and fees by April 22, 1991, will receive an acknowledgment card which contains their identification number.

PUBLICATION OF LISTINGS

Short advertisements describing each candidate and position listing will be published in Volume 32 (1991) of the Proceedings of the American Association for Cancer Research and in the September 1, and December 1, 1991, issues of Cancer Research. The attached forms contain space for copy for these advertisements. Please type carefully to ensure accurate reproduction of your advertisement. Your copy must not exceed the limits of the box because space for these advertisements is limited. Advertisements for available positions should contain the name and address of the person conducting the job search, and candidates will be able to communicate with that person directly. Candidate advertisements will be anonymous. The AACR will send the candidate’s complete form via first-class mail to any registered employer who requests it. The employer must bear the cost of receiving candidate forms in any manner other than first-class mail.

As noted above, because of the early publication date of the Proceedings, forms must be received by January 25, 1991, to ensure publication in that document. However, all advertisements submitted before or during the meeting will be published in the two issues of Cancer Research. Registrants wishing to withdraw their advertisements must submit written requests to that effect to the Association Office by July 1, 1991, for the September issue, and by October 1, 1991, for the December issue. All participants in the Employment Register are urged to notify the Association immediately of any change in their status so that all listings will remain current.

FURTHER INFORMATION

Questions about the Employment Register may be directed to the Association Office at 215-440-9300.
### Description of Position

**Title:**

**Nature of Work and Responsibilities (research, teaching, administration, etc.):**

### Education and Experience Required

**Date Position Available:** _______________________________

**Annual Salary Range:** _______________________________

**Location of Position:**

**Areas of Specialization**

(Indicate a maximum of three in order of greatest activity)

- Biochemistry & Biophysics
- Biostatistics
- Carcinogenesis
- Cellular Biology & Genetics
- Clinical Investigations
- Endocrinology
- Epidemiology
- Immunology
- Molecular Biology & Genetics
- Preclinical Pharmacology & Experimental Therapeutics
- Virology
- Other: ____________________________ (please specify)

AMERICAN ASSOCIATION FOR CANCER RESEARCH

INFORMATION ON APPLICATION FOR ACTIVE
AND CORRESPONDING MEMBERSHIP

BENEFITS OF MEMBERSHIP

The American Association for Cancer Research (AACR) is a scientific society consisting of laboratory and clinical cancer researchers. It was founded in 1907 "to bring together active investigators of the cancer problem for presentation and discussion of new or significant observations; and to foster research in cancer and other phenomena of growth." Members of the AACR enjoy the following benefits:

1. subscriptions to the journals Cancer Research and Cell Growth & Differentiation at the reduced member rate;
2. the privilege of sponsoring an abstract for presentation at the AACR annual meeting;
3. an advance copy of the Program and Proceedings pertaining to each annual meeting;
4. a reduced registration rate at all scientific meetings;
5. early notification of events in the AACR's series of special conferences;
6. subscriptions to any future AACR journals at reduced member rates;
7. reduced rates for the AACR Employment Register;
8. the benefit of AACR's public education activities;
9. the receipt of AACR newsletters, meeting announcements, and an up-to-date membership directory.

QUALIFICATIONS FOR MEMBERSHIP

Active membership in the AACR is open to investigators who live in the Americas, and who have conducted two years of meritorious research that has resulted in publications relevant to cancer. If a candidate is working in a research area not directly related to the cancer field but has conducted research of exceptional scientific merit, he or she may also qualify for membership.

Corresponding membership is open to qualified persons who are not residents of the Americas. The requirements for corresponding membership are the same as those for active membership. Visiting scientists from outside the Americas who intend to return to their countries of origin soon after submitting their applications should apply for corresponding membership. All other individuals should apply for active membership and transfer to corresponding status at a later date if they should leave the Americas.

PROCEDURES FOR APPLICATION

There are three deadlines for receipt of a membership application: March 1, July 1, and October 1 of each year. The Membership Committee will review all complete applications for active membership that have been received by these deadlines and will submit recommendations on each candidate to the Board of Directors which formally elects all members. The same procedure is followed by the Special Memberships Committee which receives applications for corresponding membership. Candidates will be notified according to the following schedule:

<table>
<thead>
<tr>
<th>Receipt of Application in AACR Office</th>
<th>Notification of Candidate</th>
</tr>
</thead>
<tbody>
<tr>
<td>March 1</td>
<td>May</td>
</tr>
<tr>
<td>July 1</td>
<td>September</td>
</tr>
<tr>
<td>October 1</td>
<td>December</td>
</tr>
</tbody>
</table>

A complete application consists of the following material:

1. 6 copies of the form on the opposite side of this page, with all requested information provided.

2. 5 copies of the candidate's most current curriculum vitae and bibliography.

3. 5 copies of a letter of recommendation from a nominator who is an active, emeritus, or honorary member of the AACR (at least one copy must be a signed, original letter). This letter should describe the candidate's achievements in laboratory research, clinical investigations, or epidemiological research, and it should affirm that this research adheres to accepted ethical standards.—OR—The nominator may supply the responses requested at the bottom of the application form in the section entitled "STATEMENT OF SUPPORT" (at least one copy of the form must be the signed original).

4. 5 copies of a letter of recommendation as described in item 3. above from a seconder who is an active, emeritus, or honorary member of the AACR (at least one copy must be a signed, original letter).—OR—The seconder may supply the responses requested at the bottom of the application form in the section entitled "STATEMENT OF SUPPORT" (at least one copy of the form must be the signed original).

5. 5 reprints of each of two publications on which the candidate appears as author.

All material should be collated into five complete sets with the original application form as a covering document and sent to the address given below. Questions regarding procedures for membership application may also be directed to the following address:

American Association for Cancer Research
Public Ledger Building
Suite 816
6th & Chestnut Streets
Philadelphia, PA 19106
215/440-9300

RESPONSIBILITIES OF MEMBERSHIP

Candidates should be aware of the following responsibilities of membership in the AACR. Active members must pay annual dues, a major portion of which is designated for a subscription to at least one of the AACR's publications. Newly elected members of the AACR who have already purchased subscriptions to Cancer Research or Cell Growth & Differentiation at the higher, nonmember rate will receive reimbursement of the unused portion of those subscriptions once their first year's membership dues are paid in full.

All corresponding members elected after May 23, 1985, are required to pay an annual assessment in lieu of dues. This assessment, which is equivalent to that portion of the regular dues that pertains to support of activities other than publications, is imposed to defray the cost of sending AACR publications to members outside the Americas. Corresponding members may, if they wish, subscribe to Cancer Research or Cell Growth & Differentiation at the reduced member rate.

Applicants elected in May will be responsible for payment of that year's dues; applicants elected in September and December will pay dues in the following year. Applicants elected in May and September will be eligible to sponsor an abstract for the next annual meeting. Every effort will be made to afford the same opportunity to applicants elected in December.

* Nominators must be active, emeritus, or honorary members of the AACR.
AMERICAN ASSOCIATION FOR CANCER RESEARCH

GUIDELINES FOR APPLICATION FOR ASSOCIATE MEMBERSHIP

QUALIFICATIONS FOR MEMBERSHIP

Associate membership is open to graduate students, medical students, postdoctoral fellows, and physicians in training who live in the Americas and who are following a course of study or who are working in a research program relevant to cancer.

BENEFITS OF MEMBERSHIP

The American Association for Cancer Research (AACR), a scientific society consisting of laboratory and clinical cancer researchers, was founded in 1907 “to bring together active investigators of the cancer problem for presentation and discussion of new or significant observations; and to foster research in cancer and other phenomena of growth.” Associate members of the AACR enjoy the following benefits:

1. the privilege of sponsoring an abstract for presentation at the AACR annual meeting provided that (a) the associate member is the presenter of the abstract and (b) an active member in good standing of the AACR also signs the abstract in support of the work (In this instance, the active member who co-signs the abstract does not lose his or her own sponsorship privilege);
2. an advance copy of the Program and (if one has been purchased by the associate member) the Proceedings of the American Association for Cancer Research which contains abstracts of all papers being presented at each annual meeting;
3. the privilege of registering for the annual meeting at the low student rate (This rate is otherwise available only to predoctoral students);
4. preferred access to the AACR Employment Register;
5. an optional subscription to the journal Cancer Research at the reduced member rate;
6. subscriptions to any future AACR journals at reduced member rates;
7. early notification of events in the AACR’s new series of small scientific meetings on timely scientific topics;
8. the receipt of AACR newsletters, meeting announcements, and an up-to-date membership directory; and
9. the facilitation of informal scientific exchange with leading researchers in the cancer field.

PROCEDURES FOR APPLICATION

Persons wishing to apply for associate membership must use the official application form on the reverse side of these instructions. Each candidate for associate membership must be nominated by an active member in good standing of the AACR. Three completed copies of the form should be submitted; at least one of these copies must carry the original signatures of both the candidate and the active member nominator. The application form may be submitted to the Association Office at any time. After review of applications for associate membership, the Executive Director will notify candidates of their election or deferral within one month of the receipt of the application form. A check in the amount of $20, which represents one year’s dues payment, must accompany the application. This fee will be refunded to any candidate deemed to be ineligible for associate membership. Checks should be made payable to AACR, Inc., and drawn on a U.S. bank. Send the three copies of the application form and the $20 dues payment to:

American Association for Cancer Research
Public Ledger Building
Suite 816
6th & Chestnut Streets
Philadelphia, PA 19106
215/440-9300

RESPONSIBILITIES OF MEMBERSHIP

Associate members must pay annual dues in an amount to be determined by the AACR Board of Directors. Dues for 1991 have been set at $20 per year. If an application is submitted by August 31, the accompanying dues payment will be credited to the current year. Candidates submitting applications between September 1 and December 31 may indicate whether they wish their dues payments credited to the current or forthcoming year. Candidates should be aware, however, that associate members may sponsor an abstract for the annual meeting only if their dues for the current year are paid. For example, an associate member submitting an abstract in December 1990 for the forthcoming annual meeting must have paid dues for 1990. Any newly elected associate members of AACR who have already purchased subscriptions to Cancer Research at the higher, nonmember rate will receive a refund for the unused portion of that subscription upon receipt of their payment for a member’s subscription.

Each Fall the AACR will send to current associate members an invoice for dues for the forthcoming year. Payment of this invoice must be accompanied by a statement signed by the associate member’s current registrar, dean, or department head verifying the member’s current academic status. The Association’s By-Laws state that dues are payable for each year in advance on or before January 1 of that year. An individual may be an associate member for a maximum of five years. Each year in which an individual pays dues will count as one full year of associate membership. Thus, an associate member who pays dues for 1990 may retain associate membership until December 31, 1994. The Board of Directors may terminate the membership of an associate member whose dues are in arrears for two years.

Margaret Foti,
Executive Director

Signature ___________________________

THE DEADLINE FOR ADVANCE REGISTRATION IS MARCH 22, 1991

*Students must enclose a statement, signed by the registrar, dean, or department head of their university or college on official letterhead, confirming their status. Postdoctoral fellows or physicians in training do not qualify for the student registration rate unless they are associate members of the AACR. An application for associate membership may accompany this form, but these should be submitted well before the advance registration deadline as review of the associate membership application may delay registration.

AACR members with paid-up subscriptions to an AACR journal receive the Proceedings automatically. Members who check this box and pay the $25 fee will receive an additional copy of the Proceedings.

Optional payment for registrants outside of the U.S. and Canada only. Registrants paying this surcharge will receive meeting publications via air mail—printed matter before the annual meeting.

Mail all advance registration forms with applicable fees to Annual Meeting Registration, American Association for Cancer Research, Inc., Public Ledger Bldg., Suite 816, 6th & Chestnut Streets, Philadelphia, PA 19106. Receipts will be sent to you in April. AACR members in good standing will receive copies of the Program and Proceedings prior to the meeting. Nonmember and student advance registrants residing in the U.S. and Canada also receive the Program before the meeting and (if they have purchased it) the Proceedings. Please note that nonmember registrants receive a copy of the Proceedings automatically, but if students are to receive a copy of this document before the meeting, it must be purchased at the time of advance registration.

REFUND POLICY

Refunds on registration fees will be granted on written request received in the AACR Office by May 8, 1991. Requests received after this date will not be honored. Receipts and badges (if they have been mailed) must be returned to the AACR Office with the refund request. A cancellation fee of $25 will be deducted from all refunds to cover administrative costs. Proceedings are not returnable, and an additional $25 will be deducted from refunds to nonmembers and students if this document has already been mailed.

**CANCER RESEARCH**

81st Annual Meeting

| CAN 001 | Meet the Expert Sunrise Session: New Technology, Your Pathologist, and You. [Samuel M. Cohen] (One cassette) | $11.50 |
| CAN 002 | Joint AACR/ASCO Plenary Session: Molecular Approaches to Clinical Cancer (Two cassettes) | $23.00 |
| CAN 003 | Minisymposium Carcinogenesis I: Oxidative DNA Damage (Two cassettes) | $23.00 |
| CAN 004 | Minisymposium Endocrinology I: Growth Regulation of the Prostate (Two cassettes) | $23.00 |
| CAN 005 | Minisymposium Preclinical Pharmacology/Experimental Therapeutics 1: Photodynamic Therapy, Hyperthermia, and Radiation Sensitizers (Two cassettes) | $23.00 |
| CAN 006 | The Fourteenth Richard and Hinda Rosenthal Foundation Award Lecture: Role of Chromosome Translocations in Human Cancer [Carlo M. Croce] (One cassette) | $11.50 |
| CAN 007 | Legislative Update [Ernest F. Hollings] (One cassette) | $11.50 |
| CAN 008 | Plenary Session II: Endogenous Hormones and Cancer (Two cassettes) | $23.00 |
| CAN 009 | Minisymposium Biology IV: Cell Adhesion Proteins in Metastasis (Three cassettes) | $34.50 |
| CAN 010 | Minisymposium Clinical Investigations III: Identification of Cancer Susceptibility (Three cassettes) | $34.50 |
| CAN 011 | Minisymposium Immunology IV: Effects of Tumor Products on Immune Functions (Three cassettes) (Two cassettes) | $34.50 |
| CAN 012 | Receptors in Malignancy (Two cassettes) | $34.50 |
| CAN 013 | Ninth Cain Memorial Award Lecture: The Chemical and Biological Route from Podophyllotoxin Glucoside to Etoposide [Albert von Warburg and Hartmann Stähelin] (One cassette) | $34.50 |

### DISCOUNTS:

- 1-5 tapes: $11.50 Each
- 6-11 tapes: 5% Discount
- 12-24 tapes: 10% Discount
- 25-48 tapes: 15% Discount
- 49 or more tapes: 20% Discount

| CAN 014 | Meet the Expert Sunrise Session: PP Post-labeling for Detection of DNA Adducts [Kurt Randerath] (One cassette) | $11.50 |
| CAN 015 | Symposium I: Cancer Chemoprevention: Present and Future (Two cassettes) | $23.00 |
| CAN 016 | Symposium II: Recent Developments in Breast Cancer Research (Two cassettes) | $23.00 |
| CAN 017 | Symposium III: Human Tumor-associated Antigens: Molecular Profile and Clinical Applications (Two cassettes) | $23.00 |
| CAN 018 | Minisymposium Biology VII: Regulation and Function of Transforming Growth Factor-beta (Two cassettes) | $23.00 |
| CAN 019 | Minisymposium Clinical Investigations VII: Experimental Therapeutics III: Biologicals and Cytoxins (Two cassettes) | $23.00 |
| CAN 020 | Minisymposium Preclinical Pharmacology/Experimental Therapeutics X: Topoisoenzymes II and Their Inhibitors (Two cassettes) | $23.00 |
| CAN 021 | Thirtieth G.H.A. Clowes Memorial Award Lecture: Extracellular Matrix and Malignancy [Erkki Ruoslahti] (One cassette) | $11.50 |
| CAN 022 | Presidential Address: The Final Common Pathway of Cancer [Harris Busch] (One cassette) | $11.50 |
| CAN 023 | Symposium IV: Novel Molecular Events in the Cell Cycle (Two cassettes) | $23.00 |
| CAN 024 | Symposium V: New Developments in Experimental and Human Pancreatic Cancer (Two cassettes) | $23.00 |
| CAN 025 | Symposium VI: Antisense Oligonucleotides as Regulators of Gene Expression (Two cassettes) | $23.00 |
| CAN 026 | Minisymposium Carcinogenesis X: Detection of DNA Adducts (Two cassettes) | $23.00 |
| CAN 027 | Minisymposium Epidemiology I: Cancer Epidemiology I (Two cassettes) | $23.00 |
| CAN 028 | Minisymposium Preclinical Pharmacology/Experimental Therapeutics XV: Novel Antitumor Agents II (Two cassettes) | $23.00 |
| CAN 029 | Career Opportunities in Basic and Clinical Cancer Research (Two cassettes) | $23.00 |
| CAN 030 | Annual Business Meeting (One cassette) | $11.50 |
| CAN 031 | Meet the Expert Sunrise Session: Techniques for Site-directed Mutagenesis [John M. Essigmann] (One cassette) | $11.50 |
| CAN 032 | Symposium VII: Papillomaviruses and Human Cancer (Two cassettes) | $23.00 |
| CAN 033 | Symposium VIII: Extracellular Matrix Regulation of Growth and Gene Expression (Three cassettes) | $34.50 |
| CAN 034 | Symposium IX: Cytokines: Their Biology and Potential Regulation (Two cassettes) | $23.00 |
| CAN 035 | Minisymposium Biochemistry IV: Role of Gene Expression in DNA Damage Processing (Three cassettes) | $34.50 |
| CAN 036 | Minisymposium Molecular Biology/Virology V: Tumor Suppressor Genes II (Two cassettes) | $23.00 |
| CAN 037 | Minisymposium Preclinical Pharmacology/Experimental Therapeutics XX: Biochemical Pharmacology of Purine and Pyrimidine Analogues (Three cassettes) | $34.50 |
| CAN 038 | Ninth Rhodes Memorial Award Lecture: Molecular Genetics of Steroid and Thyroid Hormone Receptors [Ronald M. Evans] (One cassette) | $11.50 |
| CAN 039 | Symposium X: Effects of Glucocorticoid Receptors on Cell Growth and Gene Expression (Two cassettes) | $23.00 |
| CAN 040 | Symposium XI: Metastasis: Genetic Mechanisms and Cytokine Signal Transduction (Two cassettes) | $23.00 |
| CAN 041 | Symposium XII: c-fos, c-jun, and Other Nuclear Binding Factors (Two cassettes) | $23.00 |
| CAN 042 | Minisymposium Carcinogenesis XIX: Chemoprevention: Results and Mechanisms (Three cassettes) | $34.50 |
| CAN 043 | Minisymposium Immunology XVI: Immunity to Melanomas (Three cassettes) | $34.50 |
| CAN 044 | Minisymposium Preclinical Pharmacology/Experimental Therapeutics XXII: Drug Resistance VIII: Modulation of Resistance (Three cassettes) | $34.50 |
| CAN 045 | Symposium XIII: Endogenous versus Exogenous Factors as Major Cancer Risk Determinants (Three cassettes) | $34.50 |
| CAN 046 | Symposium XIV: Multidrug Resistance in the Laboratory and the Clinic (Two cassettes) | $23.00 |
| CAN 047 | Minisymposium Molecular Biology/Virology VII: Oncogenes and Transcriptional Regulation II (Two cassettes) | $23.00 |
| CAN 048 | Minisymposium Biology XVII: Epidermal Growth Factor Family: Regulation and Tumor Growth (Three cassettes) | $34.50 |
| CAN 049 | Minisymposium Carcinogenesis XX: ras Oncogenes (Three cassettes) | $34.50 |
| CAN 050 | Minisymposium Immunology XVIII: Anti-idiotypic and Chimeric Antibodies (Three cassettes) | $34.50 |
| CAN 051 | Address by Secretary of DHHS [Louis Sullivan] (One cassette) | $11.50 |

Cancer Cells: A Monthly Review surveys new ideas and experimental advances that shed light on the genesis and growth of neoplastic cells and the application of these insights to the prevention, diagnosis and treatment of cancer. Published in monthly issues of approximately 36 pages, the journal offers a blend of concise reviews, commentaries, meeting reviews and features of general interest prepared by leading scientists and clinicians worldwide. Cancer Cells commenced publication in September 1989.

VOL. 2 1990: Personal Subscription (12 monthly issues) $75. Institutional Subscription (12 monthly issues) $250. Institutional Subscription cost includes airlift delivery. Additional $50 for airlift delivery for Personal Subscriptions.

Oncogenes and the Molecular Origins of Cancer
Monograph 18
Edited by Robert A. Weinberg, Massachusetts Institute of Technology and Member, Whitehead Institute for Biomedical Research

The field of oncogene research has exploded over the past decade. Previously discovered in retrovirus genomes and the genomes of DNA tumor viruses, oncogenes are now known to be present in cellular genomes, where they play a critical role in human tumor pathogenesis. Study of oncogene-encoded proteins promises to provide insight into other areas of biology besides carcinogenesis, including developmental biology and neuronal signaling.

The present volume provides an introduction to this rich and rapidly growing field. Each chapter is written by a leader in the field and designed to explain the concepts that fuel current work. Included in the chapters are discussions of cytoplasmic and nuclear oncoproteins, signal transducing mechanisms, growth factors and their receptors, oncogenes and multistep carcinogenesis, tumor-suppressor genes and the implications of oncogenes for clinical oncology. The level of discussion is suitable for graduate students and researchers in a variety of biomedical fields and clinicians.

Recessive Oncogenes and Tumor Suppression
Current Communications in Molecular Biology
Edited by Webster Cavenee, Ludwig Institute for Cancer Research; Nicholas Hastie, MRC Human Genetics Unit; Eric J. Stanbridge, University of California, Irvine

The last ten years have seen unprecedented advances in knowledge of the neoplastic process, not least in research on oncogenes and so-called anti-oncogenes. A very timely and exciting meeting was held at the Banbury Center in March 1989 to discuss the latest findings on recessive oncogenes and tumor suppression. The meeting brought together the world's leading authorities to review mapping and cloning of cancer genes, retinoblastoma, new putative tumor suppressor genes, and the ways in which interactions between viral transforming proteins and cell proteins may lead to loss of growth control. An outstanding feature of the meeting was the contributions made by experts on transcription and cell cycle control. It is clear from the proceedings of this meeting that the complementary ideas of tumor progression and suppression encompass many genetic, molecular, and biochemical aspects of biology. Continuing analysis of the oncogenic process is going to lead to increasing awareness of how cell cycle and growth control in different organisms and systems are related.
