

Cancer Research

OFFICIAL JOURNAL OF THE AMERICAN ASSOCIATION FOR CANCER RESEARCH

January 1, 1993
Volume 53 • Number 1
PP. 1-207
ISSN 0008-5472 • CNREA 8

**THE NATIONAL
NEUROFIBROMATOSIS FOUNDATION**

announces the availability of

YOUNG INVESTIGATOR AWARDS

which will provide salary support not to exceed
\$35,000 annually for period up to two years

and

RESEARCH GRANTS

which will provide up to \$50,000 for up to two years
for research on the cause and treatment of
neurofibromatosis 1 and 2

The deadline for filing applications
for funding beginning July 1, 1993,
is April 1, 1993.

For information on applications please contact:

The National Neurofibromatosis Foundation
141 Fifth Avenue, Suite 7-S
New York, NY 10010
(212) 460-8980
1-800-323-7938
Fax # (212) 529-6094

**CHIEF
HEMATOLOGY-ONCOLOGY DIVISION**

A position is now available as Chief, Hematology-Oncology Section, San Francisco VA Medical Center, with appointment at the Associate Professor or Professor of Medicine level at the University of California, San Francisco. This is a leadership opportunity for an oncologist or hematologist with a national reputation as a biomedical investigator, credentials to lead a strong clinical program, and an interest in training. The San Francisco VA is a UCSF teaching hospital, and opportunities exist for participation in graduate programs in the basic sciences at UCSF. Send curriculum vitae to:

**Gordon J. Strewler, M.D.
Chair, Search Committee
DVA Medical Center (111N)
4150 Clement Street
San Francisco, CA 94121**

The University of California and the VA are Equal Opportunity/Affirmative Action Employers. Women and minorities are encouraged to apply.

**MEDICAL ONCOLOGISTS
Assistant/Associate Professor
Roswell Park Cancer Institute**

Applications are being accepted for the positions of Assistant/Associate Professor of Medicine in Roswell Park Cancer Institute's Divisions of Hematologic Oncology and Bone Marrow Transplantation. The incumbent's responsibilities include providing consultative and attending services in Hematologic Oncology and/or Bone Marrow Transplantation, teaching students and supervising residents and fellows. Assistant Professor candidates must show evidence of experience in clinical care and teaching, and demonstrate potential to develop an outstanding clinical or laboratory research program in Oncology. Associate Professor candidates must provide evidence of development of a strong research program as well as demonstrate skill in clinical care and teaching. Candidates must be Board Certified in Internal Medicine and Board Eligible or Certified in Medical Oncology, as well as be able to meet Medical Licensure requirements in New York State. Send Curriculum Vitae to:

**Clara D. Bloomfield, M.D.
Head, Department of Medicine**

or

**Geoffrey P. Herzig, M.D.
Chief, Hematologic Oncology and Bone Marrow Transplantation**

**Department of Medicine
Roswell Park Cancer Institute
Elm and Carlton Streets
Buffalo, NY 14263**

Roswell Park is a M/F/H/V Affirmative Action Employer

AACR SPECIAL CONFERENCE IN CANCER RESEARCH

Oncogenes and Antioncogenes in Differentiation, Development, and Human Cancer

February 1-6, 1993
Big Sky Resort, Big Sky, Montana

CONFERENCE CHAIRPERSON

Carlo M. Croce / Philadelphia, PA

PROGRAM COMMITTEE

Stuart A. Aaronson / Bethesda, MD
Mario R. Capecchi / Salt Lake City, UT
Douglas Hanahan / San Francisco, CA

SCIENTIFIC PROGRAM

Keynote Address

Raymond L. White / Salt Lake City, UT

Gene Knockouts by Homologous Recombination I

Mario R. Capecchi / Salt Lake City, UT
Allan Bradley / Houston, TX
Tyler Jacks / Cambridge, MA
Bruce M. Spiegelman / Boston, MA

Gene Knockouts by Homologous Recombination II

Erwin Wagner / Vienna, Austria
Harold E. Varmus / San Francisco, CA
Douglas Hanahan / San Francisco, CA

Signal Transduction and Cancer I

Stuart A. Aaronson / Bethesda, MD
Lewis C. Cantley / Boston, MA
John J. Cohen / Denver, CO
David V. Goeddel / S. San Francisco, CA

Signal Transduction and Cancer II

Michael H. Wigler / Cold Spring Harbor, NY
Edward B. Ziff / New York, NY
Michael J. Weber / Richmond, VA

Chromosomal Translocations and Cancer

Carlo M. Croce / Philadelphia, PA
Michael L. Cleary / Stanford, CA
Eli Canaani / Philadelphia, PA
Anne Dejean / Paris, France

Tumor Suppressor Genes

Eric J. Stanbridge / Irvine, CA
Wen-Hua Lee / San Antonio, TX
David E. Housman / Cambridge, MA
Lennart Philipson / Heidelberg, Germany
Karen Vousden / London, England

Expression of Activated Oncogenes in Transgenic Mice I

Allan Balmain / Glasgow, Scotland
Robert S. Coffey / Nashville, TN
Gilbert Jay / Rockville, MD
George F. Vande Woude / Frederick, MD

Expression of Activated Oncogenes in Transgenic Mice II

Terry Van Dyke / Pittsburgh, PA
Anton Berns / Amsterdam, The Netherlands
Additional Speaker to be Announced

83rd ANNUAL MEETING OF THE
AMERICAN ASSOCIATION FOR CANCER RESEARCH
MAY 20-23, 1992 • SAN DIEGO

Each cassette is \$11.50. • Programs consists of one to three cassettes.

- CAN 201 Sixteenth Richard and Hinda Rosenthal Foundation Award Lecture: How Cancers Evade Chemotherapy [Michael M. Gottesman] and General Motors Cancer Research Foundation Journalism Awards (One cassette) \$11.50
- CAN 202 JOINT AACR/ASCO PLENARY SESSION: Chemoprevention of Cancer (Two cassettes) \$23.00
- CAN 203 Minisymposium Immunology 1: Vaccine and Related Therapies (Two cassettes) \$23.00
- CAN 204 Minisymposium Preclinical Pharmacology/Experimental Therapeutics 1: New Methods for Predicting Drug Efficacy (Two cassettes) \$23.00
- CAN 205 Minisymposium Carcinogenesis 1: Perturbations of Cell Cycle Control and Apoptosis (Two cassettes) \$23.00
- CAN 206 Minisymposium Biochemistry 1: Cellular Responses to Genomic Insult (Two cassettes) \$23.00
- CAN 207 Presentation by the Director of The National Cancer Institute (One cassette) \$11.50
- CAN 208 Plenary Session 2: Novel Approaches to Tumor Immunology (Two cassettes) \$23.00
- CAN 209 Symposium 1: Hereditary Predisposition to Cancer (Two cassettes) \$23.00
- CAN 210 Symposium 2: Antitumor Activities of Cytokines (Two cassettes) \$23.00
- CAN 211 Minisymposium Biology 3: Metalloproteinases (Three cassettes) \$34.00
- CAN 212 Minisymposium Preclinical Pharmacology/Experimental Therapeutics 4: Protein Kinases: A Target for Therapy (Three cassettes) \$34.00
- CAN 213 Minisymposium Clinical Investigations 3: Molecular Markers of Risk and Prognosis (Three cassettes) \$34.00
- CAN 214 Minisymposium Molecular Biology/Virology 3: Oncogenes (Three cassettes) \$34.00
- CAN 215 Eleventh Bruce F. Cain Memorial Award Lecture: Taxol: Mechanisms of Action and Resistance [Susan Band Horwitz] (One cassette) \$11.50
- CAN 216 Minority Issues Committee Symposium: Careers and Opportunities in Cancer Research: Success and Survival in the 1990s (Two cassettes) \$23.00
- CAN 217 Meet the Expert Sunrise Session: Contemporary Cytogenetics (One cassette) \$11.50
- CAN 218 Meet the Expert Sunrise Session: Gene Therapy (One cassette) \$11.50
- CAN 219 Symposium 3: Molecular Genetics of Cancer (Three cassettes) \$34.50
- CAN 220 Plenary Session 3: The Role of Cell Adhesion in Invasion and Metastasis (Two cassettes) \$23.00
- CAN 221 Symposium 4: Multiple Genetic Alterations and Multiple Steps in Carcinogenesis (Two cassettes) \$23.00
- CAN 222 Minisymposium Immunology 4: Tumor Infiltrating Lymphocytes (Three cassettes) \$34.50
- CAN 223 Minisymposium Carcinogenesis 7: Molecular Alterations in Oncogenes and Tumor Suppressor Genes (Three cassettes) \$34.50
- CAN 224 Minisymposium Preclinical Pharmacology/Experimental Therapeutics 10: Reversal of Drug Resistance III (Three cassettes) \$34.50
- CAN 225 Minisymposium Clinical Investigations 7: Biologicals for Treatment (Three cassettes) \$34.50
- CAN 226 Thirty-Second G.H.A. Clowes Memorial Award Lecture: Drug Resistance: Genotype versus Phenotype [June L. Biedler] (One cassette) \$11.50
- CAN 227 Symposium 5: Genomic Fluidity (Two cassettes) \$23.00
- CAN 228 Symposium 6: Programmed Cell Death (Apoptosis) in the Etiology and Therapy of Cancer (Two cassettes) \$23.00
- CAN 229 Symposium 7: Receptor Signaling and Transduction (Two cassettes) \$23.00
- CAN 230 Minisymposium Epidemiology and Prevention 2: Epidemiology and Prevention (Two cassettes) \$23.00
- CAN 231 Minisymposium Clinical Investigations 10: Novel Therapies (Two cassettes) \$23.00
- CAN 232 Minisymposium Carcinogenesis 11: Cellular and Molecular Changes in Carcinogenesis (Two cassettes) \$23.00
- CAN 233 Minisymposium Preclinical Pharmacology/Experimental Therapeutics 16: New Mechanisms of Multidrug Resistance (Two cassettes) \$23.00
- CAN 234 Presidential Address: Transforming Growth Factors and Cancer: New Insights [Harold L. Moses] (One cassette) \$11.50
- CAN 235 Annual Business Meeting (One cassette) \$11.50
- CAN 236 Meet the Expert Sunrise Session: Proteoglycans and Cell Adhesion (One cassette) \$11.50
- CAN 237 Meet the Expert Sunrise Session: A New Therapeutic Approach for Cancer Treatment: Sequence-specific Antisense Nucleic Acid Analogs (One cassette) \$11.50
- CAN 238 Plenary Session 4: Cell Cycle Control (Two cassettes) \$23.00
- CAN 239 Symposium 8: HIV-associated Malignancies (Two cassettes) \$23.00
- CAN 240 Symposium 9: Anticancer Drug Design and Discovery (Two cassettes) \$23.00
- CAN 241 Minisymposium Endocrinology 5: Endocrine, Autocrine, and Paracrine Growth Factors (Two cassettes) \$23.00
- CAN 242 Minisymposium Biochemistry 5: Oncogenes (Two cassettes) \$23.00
- CAN 243 Minisymposium Carcinogenesis 15: Genetics of Cancer Susceptibility (Two cassettes) \$23.00
- CAN 244 Minisymposium Preclinical Pharmacology / Experimental Therapeutics 22: Antineoplastic Properties of Ether Lipids (Two cassettes) \$23.00
- CAN 245 First American Cancer Society Award Lecture: Human Gastric Carcinogenesis: A Multistep and Multifactorial Process [Pelayo Correa] (One cassette) \$11.50
- CAN 246 Eleventh Cornelius P. Rhoads Memorial Award Lecture: Analysis of Protein Function in Vivo by Targeted Gene Disruption [Elizabeth J. Robertson] (One cassette) \$11.50
- CAN 248 Symposium 10: The p53 Tumor Suppressor Gene (Two cassettes) \$23.00
- CAN 249 Symposium 11: Breast Cancer (Two cassettes) \$23.00
- CAN 250 Symposium 12: Gene Expression and Chromatin Structure (Three cassettes) \$34.50
- CAN 251 Minisymposium Biology 15: Angiogenesis (Three cassettes) \$34.50
- CAN 252 Minisymposium Preclinical Pharmacology/Experimental Therapeutics 33: Antisense (Three cassettes) \$34.50
- CAN 253 Minisymposium Molecular Biology/Virology 11: Tumor Suppressor Genes I (Two cassettes) \$23.00
- CAN 254 Minisymposium Clinical Investigations 19: Molecular Biology of Human Cancer II (Two cassettes) \$23.00
- CAN 255 Symposium 13: Molecular Mechanisms in Carcinogenesis (Two cassettes) \$23.00
- CAN 256 Symposium 14: Molecular Approaches to Diagnosis and Patient Evaluation \$23.00

CONTINUED....

- CAN 257 Minisymposium Immunology 13: Cytokine Modulation of Tumor Growth (Three cassettes) \$34.50
- CAN 258 Minisymposium Preclinical Pharmacology/Experimental Therapeutics 35: Liposomes in Drug Delivery (Three cassettes) \$34.50
- CAN 259 Minisymposium Carcinogenesis 22: Mutational Specificity (Three cassettes) \$34.50
- CAN 260 Minisymposium Biology 16: Signal Transduction (Three cassettes) \$34.50

28th ANNUAL MEETING OF THE AMERICAN SOCIETY OF CLINICAL ONCOLOGY

MAY 17-19, 1992

- CO 201 (S1) Pain Control in Patients With Cancer (One cassette) \$11.50
- CO 202 (S2) Ovarian Cancer (One cassette) \$11.50
- CO 203 (S3) Lung Cancer (One cassette) \$11.50
- CO 204 (S4) Molecular Biology (One cassette) \$11.50
- CO 205 (S5) Clinical Pharmacology for the Non-Pharmacologist (Two cassettes) \$23.00
- CO 206 (S6) Promising New Drugs (One cassette) \$11.50
- CO 207 (S7) Interpreting the Results of Clinical Trials: What do the Data Mean to Me? (One cassette) \$11.50
- CO 208 (S8) Futuristic Therapy of Breast Cancer (One cassette) \$11.50
- CO 209 (S9) Hodgkin's Disease: An Update (One cassette) \$11.50
- CO 210 (S10) Myelodysplasia Syndromes in Pediatric and Adult Patients (One cassette) \$11.50
- CO 211 (S11) Organ Preservation in Multimodality Solid Tumor Therapy (One cassette) \$11.50
- CO 212 (S12) New Aspects in Early Stage Prostate Cancer (One cassette) \$11.50
- CO 213 (SIT1) Pediatric Brain Tumors (One cassette) \$11.50
- CO 214 (SIT2) Breast Cancer Prevention With Diet and Tamoxifen (One cassette) \$11.50

- CO 215 (SIT3) Cancer in Older Persons (One cassette) \$11.50
- CO 216 (SIT4) Acceptance and Implementation of New Therapy (One cassette) \$11.50
- CO 217 Breast Cancer: Adjuvant Therapies (Three cassettes) \$34.50
- CO 218 Non-Small Cell Lung Cancer/Head and Neck Tumors (Three cassettes) \$34.50
- CO 219 Adult Leukemia (Three cassettes) \$34.50
- CO 220 Clinical Pharmacology (Three cassettes) \$34.50
- CO 221 Pediatric Solid Tumors (Three cassettes) \$34.50
- CO 222 Presidential Address and Awards Ceremony [Martin D. Abeloff, MD] (One Cassette) \$11.50
- CO 223 Twenty-Third Annual David A. Karnofsky Memorial Lecture: Ode to Methotrexate [Joseph Bertino, MD] (One Cassette) \$11.50
- CO 224 Plenary Session (Two Cassettes) \$23.00
- CO 225 Breast Cancer: Advanced (Three Cassettes) \$34.50
- CO 226 Gastrointestinal Tract Cancer (Three Cassettes) \$34.50
- CO 227 Genitourinary Tract Cancer (Three Cassettes) \$34.50
- CO 228 Tumor Immunology (Three Cassettes) \$34.50
- CO 229 Pediatric Leukemia and Lymphoma (Three Cassettes) \$34.50
- CO 230 Small Cell Lung Cancer/Central Nervous System Tumors (Three Cassettes) \$34.50
- CO 231 Adult Lymphoma (Three Cassettes) \$34.50
- CO 232 Melanoma/Sarcoma (Three Cassettes) \$34.50
- CO 233 Gynecological Tumors (Three Cassettes) \$34.50
- CO 234 Epidemiology/Cancer Prevention and Control (Three Cassettes) \$34.50
- CO 235 Cancer Biology and Molecular Genetics (Two Cassettes) \$23.00
- CO 236 Lung Cancer (Poster Discussion) (One Cassette) \$11.50
- CO 237 Psychosocial Aspects (One Cassette) \$11.50

COVER LEGEND

Cancer Research

1992
MEDAL OF HONOR
RECIPIENTS

Cancer Research is pleased to feature the 1992 recipients of the American Cancer Society's most prestigious award, the Medal of Honor. Each year, the Society honors leaders in basic research and in clinical research and recognizes the lay contributors to the fight against cancer as well.

Joseph Bertino (*upper left*) is Chairman of the Molecular Pharmacology and Therapeutics Program and Chief of the Developmental Chemotherapy Service at the Memorial Sloan-Kettering Cancer Center. He was honored for his many contributions in clinical research; his work has led to the introduction worldwide of effective new drugs and treatment protocols for lymphoma, mycosis fungoides, and lung cancer. The award also recognized his efforts to gain a better understanding of antimetabolite action. Dr. Bertino graduated from Cornell University, received the M.D. from the Downstate Medical Center in Brooklyn, and in 1961 joined the Yale University School of Medicine. He served as Professor of Pharmacology at Yale,

eventually becoming Director of its Comprehensive Cancer Center and that Center's Associate Director for Clinical Research. Dr. Bertino is an American Cancer Society Clinical Research Professor and holds many special cancer consultantships. He is a reviewer for *Cancer Research* and is currently on the editorial boards of the *International Journal of Cell Cloning* and *Cancer Investigation*.

Bert Vogelstein (*middle*) was recognized for his revolutionary studies advancing our understanding of the successive mutations responsible for the progression of colon cancer. Dr. Vogelstein graduated from the University of Pennsylvania in 1970 and received the M.D. from the Johns Hopkins School of Medicine in 1974. After two years at the National Cancer Institute (NCI), he returned to Johns Hopkins where he is currently Professor of Oncology. He has been an advisor to the NCI and presently serves the National Institutes of Health Scientific Review Groups in this capacity. Dr. Vogelstein is a member of the National Academy of Sciences and the American Academy of Arts and Sciences and has received many awards in recent years. He is on the review boards of *Cancer Research*; *Genes, Chromosomes & Cancer*; and *Science*. On the same day he received the Medal of Honor, Dr. Vogelstein was also named an American Cancer Society Research Professor.

The lay awardee is Robert Stempel (*lower right*), immediate past Chairman of the General Motors Cancer Research Foundation, which has contributed greatly to the fight against cancer by recognizing and rewarding the most accomplished and productive cancer researchers and by helping the public to better understand important advances in the diagnosis, treatment, and prevention of cancer. Mr. Stempel, former Chief Executive Officer and Chairman of the General Motors Corporation, is a distinguished leader in the business world. He was represented at the awards ceremony by Joseph G. Fortner, M.D., President of the General Motors Cancer Research Foundation.

Sidney Weinhouse
