THE NATIONAL NEUROFIBROMATOSIS FOUNDATION

announces the availability of

YOUNG INVESTIGATOR AWARDS

which will provide salary support not to exceed $35,000 annually for period up to two years and

RESEARCH GRANTS

which will provide up to $50,000 for up to two years for research on the cause and treatment of neurofibromatosis 1 and 2.

The deadline for filing applications for funding beginning July 1, 1993, is April 1, 1993.

For information on applications please contact:
The National Neurofibromatosis Foundation
141 Fifth Avenue, Suite 7-S
New York, NY 10010

1-800-323-7938
Fax # (212) 529-6094

CHIEF HEMATOLOGY-ONCOLOGY DIVISION

A position is now available as Chief, Hematology-Oncology Section, San Francisco VA Medical Center, with appointment at the Associate Professor or Professor of Medicine level at the University of California, San Francisco. This is a leadership opportunity for an oncologist or hematologist with a national reputation as a biomedical investigator, credentials to lead a strong clinical program, and an interest in training. The San Francisco VA is a UCSF teaching hospital, and opportunities exist for participation in graduate programs in the basic sciences at UCSF. Send curriculum vitae to:

Gordon J. Strewler, M.D.
Chair, Search Committee
DVA Medical Center (111N)
4150 Clement Street
San Francisco, CA 94121

The University of California and the VA are Equal Opportunity/Affirmative Action Employers. Women and minorities are encouraged to apply.

MEDICAL ONCOLOGISTS
Assistant/Associate Professor
Roswell Park Cancer Institute

Applications are being accepted for the positions of Assistant/Associate Professor of Medicine in Roswell Park Cancer Institute’s Divisions of Hematologic Oncology and Bone Marrow Transplantation. The incumbent’s responsibilities include providing consultative and attending services in Hematologic Oncology and/or Bone Marrow Transplantation, teaching students and supervising residents and fellows. Assistant Professor candidates must show evidence of experience in clinical care and teaching, and demonstrate potential to develop an outstanding clinical or laboratory research program in Oncology. Associate Professor candidates must provide evidence of development of a strong research program as well as demonstrate skill in clinical care and teaching. Candidates must be Board Certified in Internal Medicine and Board Eligible or Certified in Medical Oncology, as well as be able to meet Medical Licensure requirements in New York State. Send Curriculum Vitae to:

Clara D. Bloomfield, M.D.
Head, Department of Medicine
or
Geoffrey P. Herzig, M.D.
Chief, Hematologic Oncology and Bone Marrow Transplantation

Department of Medicine
Roswell Park Cancer Institute
Elm and Carlton Streets
Buffalo, NY 14263

Roswell Park is a M/F/H/V Affirmative Action Employer
Oncogenes and Antioncogenes in Differentiation, Development, and Human Cancer

February 1-6, 1993
Big Sky Resort, Big Sky, Montana

CONFERENCE CHAIRPERSON
Carlo M. Croce / Philadelphia, PA

PROGRAM COMMITTEE
Stuart A. Aaronson / Bethesda, MD
Mario R. Capecchi / Salt Lake City, UT
Douglas Hanahan / San Francisco, CA

SCIENTIFIC PROGRAM

Keynote Address
Raymond L. White / Salt Lake City, UT

Gene Knockouts by Homologous Recombination I
Mario R. Capecchi / Salt Lake City, UT
Allan Bradley / Houston, TX
Tyler Jacks / Cambridge, MA
Bruce M. Speigelman / Boston, MA

Gene Knockouts by Homologous Recombination II
Erwin Wagner / Vienna, Austria
Harold E. Varmus / San Francisco, CA
Douglas Hanahan / San Francisco, CA

Signal Transduction and Cancer I
Stuart A. Aaronson / Bethesda, MD
Lewis C. Cantley / Boston, MA
John J. Cohen / Denver, CO
David V. Goeddel / S. San Francisco, CA

Signal Transduction and Cancer II
Michael H. Wigler / Cold Spring Harbor, NY
Edward B. Ziff / New York, NY
Michael J. Weber / Richmond, VA

Chromosomal Translocations and Cancer
Carlo M. Croce / Philadelphia, PA
Michael L. Cleary / Stanford, CA
Eli Canaani / Philadelphia, PA
Anne Dejean / Paris, France

Tumor Suppressor Genes
Eric J. Stanbridge / Irvine, CA
Wen-Hua Lee / San Antonio, TX
David E. Housman / Cambridge, MA
Lennart Phillipsen / Heidelberg, Germany
Karen Vousden / London, England

Expression of Activated Oncogenes in Transgenic Mice I
Allan Balmain / Glasgow, Scotland
Robert S. Coffey / Nashville, TN
Gilbert Jay / Rockville, MD
George F. Vande Woude / Frederick, MD

Expression of Activated Oncogenes in Transgenic Mice II
Terry Van Dyke / Pittsburgh, PA
Anton Berna / Amsterdam, The Netherlands
Additional Speaker to be Announced

Information and Application Forms
American Association for Cancer Research
Public Ledger Building
620 Chestnut Street, Suite 816
Philadelphia, PA 19106-3483
215-440-9300 215-440-9313 (FAX)
Each cassette is $11.50. Programs consists of one to three cassettes.

- CAN 201 Sixteenth Richard and Hinda Rosenthal Foundation Award Lecture: How Caners Evade Chemotherapy [Michael G. Gotteman] and General Motors Cancer Research Foundation Journalism Awards (One cassette)
- CAN 202 JOINT AACR/ASCO PLENARY SESSION: $23.00 Chemoprevention of Cancer (Two cassettes)
- CAN 203 Minisymposium Immunology 1: Vaccine $23.00 and Related Therapies (Two cassettes)
- CAN 204 Minisymposium Preclinical $23.00 Pharmacology/Experimental Therapeutics 1: New Methods for Predicting Drug Efficacy (Two cassettes)
- CAN 205 Minisymposium Carcinogenesis 1: $23.00 Perturbations of Cell Cycle Control and Apoptosis (Two cassettes)
- CAN 206 Minisymposium Biochemistry 1: Cellular $23.00 Responses to Genomic Insult (Two cassettes)
- CAN 207 Presentation by the Director of The National Cancer Institute (One cassette)
- CAN 208 Plenary Session 2: Novel Approaches to $23.00 Tumor Immunology (Two cassettes)
- CAN 209 Plenary Session 1: Hereditary Predisposition $23.00 to Cancer (Two cassettes)
- CAN 210 Symposium 2: Antitumor Activities of $23.00 Cytokines (Two cassettes)
- CAN 211 Minisymposium Biology 3: $34.00 Metalloproteinases (Three cassettes)
- CAN 212 Minisymposium Preclinical $34.00 Pharmacology/Experimental Therapeutics 4: Protein Kinases: A Target for Therapy (Three cassettes)
- CAN 213 Minisymposium Clinical Investigations 3: $34.00 Molecular Markers of Risk and Prognosis (Three cassettes)
- CAN 214 Minisymposium Molecular Biology/ $34.00 Virology 3: Oncogenes (Three cassettes)
- CAN 215 Plenary Session 2: Antisense $11.50 Therapy (One cassette)
- CAN 216 Minority Issues the Committee Symposium: $23.00 Careers and Opportunities In Cancer Research: Success and Survival in the 1990s (Two cassettes)
- CAN 217 Meet the Expert Sunrise Session: $11.50 Contemporary Cytogenetics (One cassette)
- CAN 218 Meet the Expert Sunrise Session: $11.50 Gene Therapy (One cassette)
- CAN 219 Symposium 3: Molecular Genetics of Cancer $34.50 (Three cassettes)
- CAN 220 Plenary Session 3: The Role of Cell $23.00 Adhesion in Invasion and Metastasis (Two cassettes)
- CAN 221 Symposium 4: Multiple Genetic Alterations $23.00 and Multiple Steps in Carcinogenesis (Two cassettes)
- CAN 222 Minisymposium Immunology 4: Tumor $34.50 Infiltrating Lymphocytes (Three cassettes)
- CAN 223 Minisymposium Carcinogenesis 7: $34.50 Molecular Alterations In Oncogenes and Tumor Suppressor Genes (Three cassettes)
- CAN 224 Minisymposium Preclinical Pharmacology/ $34.50 Experimental Therapeutics 10: Reversal of Drug Resistance III (Three cassettes)
- CAN 225 Minisymposium Clinical Investigations 7: $34.50 Biologicals for Treatment (Three cassettes)
- CAN 226 Thirty-Sixth G.L. Nett Memorial $11.50 Award Lecture: Drug Resistance: Genotype versus Phenotype [June L. Biedler] (One cassette)
- CAN 227 Symposium 5: Genomic Fluidity $23.00 (Two cassettes)
- CAN 228 Symposium 6: Programmed Cell Death $23.00 (Two cassettes)
- CAN 229 Symposium 7: Receptor Signaling and $23.00 Transduction (Two cassettes)
- CAN 230 Minisymposium Epidemiology and $23.00 Prevention 2: Epidemiology and Prevention (Two cassettes)
- CAN 231 Minisymposium Clinical Investigations 10: $23.00 Novel Therapies (Two cassettes)
- CAN 232 Minisymposium Carcinogenesis 11: $23.00 Cellular and Molecular Changes in Carcinogenesis (Two cassettes)
- CAN 233 Minisymposium Preclinical $23.00 Pharmacology/Experimental Therapeutics 16: New Mechanisms of Multidrug Resistance (Two cassettes)
- CAN 234 Presidential Address: Transforming Growth $11.50 Factors and Cancer: New Insights (Harold L. Moses) (One cassette)
- CAN 235 Annual Business Meeting $11.50 (One cassette)
- CAN 236 Meet the Expert Sunrise Session: $23.00 of Cancer Susceptibility (Two cassettes)
- CAN 237 Meet the Expert Sunrise Session: A New $11.50 Therapeutic Approach for Cancer Treatment: Sequence-specific Antisense Nucleic Acid (Two cassettes)
- CAN 238 Plenary Session 4: Cell Cycle Control $23.00 (Two cassettes)
- CAN 239 Symposium 8: HIV-associated Malignancies $23.00 (Two cassettes)
- CAN 240 Symposium 9: Anticancer Drug Design and $23.00 Discovery (Two cassettes)
- CAN 241 Minisymposium Endocrinology 5: $23.00 Endocrine, Autocrine, and Paracrine Growth Factors (Two cassettes)
- CAN 242 Minisymposium Biochemistry 5: Oncogenes $23.00 (Two cassettes)
- CAN 243 Minisymposium Carcinogenesis 15: Genetics $23.00 of Cancer Susceptibility (Two cassettes)
- CAN 244 Minisymposium Preclinical Pharmacology/ $23.00 Experimental Therapeutics 22: Antineoplastic Properties of Ether Lipids (Two cassettes)
- CAN 245 First American Cancer Society Award $11.50: Lecture: Human Gastric Carcinogenesis: A Multistep and Multifactorial Process [Pelayo Correa] (One cassette)
- CAN 246 Eleventh Cornelius P. Rhodes Memorial $11.50: Award Lecture: Analysis of Protein Function in Vivo by Targeted Gene Disruption [Elizabeth J. Robertson] (One cassette)
- CAN 248 Symposium 10: The p53 Tumor Suppressor $23.00 Gene (Two cassettes)
- CAN 249 Symposium 11: Breast Cancer $23.00 (Two cassettes)
- CAN 250 Symposium 12: Gene Expression and $34.50 Chromatin Structure (Three cassettes)
- CAN 251 Minisymposium Biology 15: Angiogenesis $34.50 (Three cassettes)
- CAN 252 Minisymposium Preclinical $34.50 Pharmacology/Experimental Therapeutics 33: Antisense (Three cassettes)
- CAN 253 Minisymposium Molecular Biology/Virology $23.00 11: Tumor Suppressor Genes I (Two cassettes)
- CAN 254 Minisymposium Clinical Investigations 19: $23.00 Molecular Biology of Human Cancer II (Two cassettes)
- CAN 255 Minisymposium 13: Molecular Mechanisms in $23.00 Carcinogenesis (Two cassettes)
- CAN 256 Symposium 14: Molecular Approaches to $23.00 Diagnosis and Patient Evaluation

**NOTE:** Defective tapes will be replaced, but tapes are nonrefundable.
Cancer Research is pleased to feature the 1992 recipients of the American Cancer Society's most prestigious award, the Medal of Honor. Each year, the Society honors leaders in basic research and in clinical research and recognizes the lay contributors to the fight against cancer as well.

Joseph Bertino (upper left) is Chairman of the Molecular Pharmacology and Therapeutics Program and Chief of the Developmental Chemotherapy Service at the Memorial Sloan-Kettering Cancer Center. He was honored for his many contributions in clinical research; his work has led to the introduction worldwide of effective new drugs and treatment protocols for lymphoma, mycosis fungoides, and lung cancer. The award also recognized his efforts to gain a better understanding of antimitabolite action. Dr. Bertino graduated from Cornell University, received the M.D. from the Downstate Medical Center in Brooklyn, and in 1961 joined the Yale University School of Medicine. He served as Professor of Pharmacology at Yale, eventually becoming Director of its Comprehensive Cancer Center and that Center's Associate Director for Clinical Research. Dr. Bertino is an American Cancer Society Clinical Research Professor and holds many special cancer consultanship. He is a reviewer for Cancer Research and is currently on the editorial boards of the International Journal of Cell Cloning and Cancer Investigation.

Bert Vogelstein (middle) was recognized for his revolutionary studies advancing our understanding of the successive mutations responsible for the progression of colon cancer. Dr. Vogelstein graduated from the University of Pennsylvania in 1970 and received the M.D. from the Johns Hopkins School of Medicine in 1974. After two years at the National Cancer Institute (NCI), he returned to Johns Hopkins where he is currently Professor of Oncology. He has been an advisor to the NCI and presently serves the National Institutes of Health Scientific Review Groups in this capacity. Dr. Vogelstein is a member of the National Academy of Sciences and the American Academy of Arts and Sciences and has received many awards in recent years. He is on the review boards of Cancer Research; Genes, Chromosomes & Cancer; and Science. On the same day he received the Medal of Honor, Dr. Vogelstein was also named an American Cancer Society Research Professor.

The lay awardee is Robert Stempel (lower right), immediate past Chairman of the General Motors Cancer Research Foundation, which has contributed greatly to the fight against cancer by recognizing and rewarding the most accomplished and productive cancer researchers and by helping the public to better understand important advances in the diagnosis, treatment, and prevention of cancer. Mr. Stempel, former Chief Executive Officer and Chairman of the General Motors Corporation, is a distinguished leader in the business world. He was represented at the awards ceremony by Joseph G. Fortner, M.D., President of the General Motors Cancer Research Foundation.

Sidney Weinhouse
