BENEFITS OF MEMBERSHIP

The American Association for Cancer Research (AACR) is a scientific society consisting of laboratory and clinical cancer researchers. It was founded in 1907 "to bring together active investigators of the cancer problem for presentation and discussion of new or significant observations; and to foster research in cancer and other phenomena of growth." Members of the AACR enjoy the following benefits:

1. subscriptions to the journals Cancer Research, Cell Growth & Differentiation, and Cancer Epidemiology, Biomarkers & Prevention at the reduced member rate;
2. the privilege of sponsoring an abstract for presentation at the AACR annual meeting;
3. an advance copy of the Program and Proceedings pertaining to each annual meeting;
4. a reduced registration rate at all scientific meetings;
5. early notification of events in the AACR’s series of special conferences;
6. subscriptions to any future AACR journals at reduced member rates;
7. reduced rates for the AACR Employment Register;
8. the benefit of AACR’s public education activities;
9. the receipt of AACR newsletters, meeting announcements, and an up-to-date membership directory.

QUALIFICATIONS FOR MEMBERSHIP

Active membership in the AACR is open to investigators who live in the Americas, and who have conducted two years of meritorious research that has resulted in publications relevant to cancer. If a candidate is working in a research area not directly related to the cancer field but has conducted research of exceptional scientific merit, he or she may also qualify for membership.

Corresponding membership is open to qualified persons who are not residents of the Americas. The requirements for corresponding membership are the same as those for active membership. Visiting scientists from outside the Americas who intend to return to their countries of origin soon after submitting their applications should apply for corresponding membership. All other individuals should apply for active membership and transfer to corresponding status at a later date if they should leave the Americas.

PROCEDURES FOR APPLICATION

There are three deadlines for receipt of a membership application: January 1, May 1, and September 1 of each year. The Membership Committee will review all complete applications for active membership that have been received by these deadlines and will submit recommendations on each candidate to the Board of Directors which formally elects all members. The same procedure is followed by the Special Memberships Committee which receives applications for corresponding membership. Candidates will be notified according to the following schedule:

<table>
<thead>
<tr>
<th>Receipt of Application</th>
<th>Notification of Candidate</th>
</tr>
</thead>
<tbody>
<tr>
<td>January 1</td>
<td>March</td>
</tr>
<tr>
<td>May 1</td>
<td>July</td>
</tr>
<tr>
<td>September 1</td>
<td>November</td>
</tr>
</tbody>
</table>

A complete application consists of the following material:

1. 6 copies of the form on the opposite side of this page, with all requested information provided.
2. 5 copies of the candidate’s most current curriculum vitae and bibliography.
3. 5 copies of a letter of recommendation from a nominator who is an active, emeritus, or honorary member of the AACR (at least one copy must be a signed, original letter). This letter should describe the candidate’s achievements in laboratory research, clinical investigations, or epidemiological research, and it should affirm that this research adheres to accepted ethical standards.—OR—The nominator may supply the responses requested at the bottom of the application form in the section entitled “STATEMENT OF SUPPORT” (at least one copy of the form must be the signed original).
4. 5 copies of a letter of recommendation as described in Item 3 above from a seconder who is an active, emeritus, or honorary member of the AACR (at least one copy must be a signed, original letter).—OR—The seconder may supply the responses requested at the bottom of the application form in the section entitled “STATEMENT OF SUPPORT” (at least one copy of the form must be the signed original).
5. 5 reprints of each of two publications on which the candidate appears as author.

All material should be collated into five complete sets with the original application form as a covering document and sent to the address given below. Questions regarding procedures for membership application may also be directed to the following address:

American Association for Cancer Research
Public Ledger Building
620 Chestnut St.
Suite 816
Philadelphia, PA 19106-3483
215/440-9300

RESPONSIBILITIES OF MEMBERSHIP

Candidates should be aware of the following responsibilities of membership in the AACR. Active members must pay annual dues, a major portion of which is designated for a subscription to at least one of the AACR’s publications. Newly elected members of the AACR who have already purchased subscriptions to Cancer Research, Cell Growth & Differentiation, or Cancer Epidemiology, Biomarkers & Prevention at the higher, nonmember rate will receive reimbursement of the unused portion of those subscriptions once their first year’s membership dues are paid in full.

All corresponding members elected after May 23, 1985, are required to pay an annual assessment in lieu of dues. This assessment, which is equivalent to that portion of the regular dues that pertains to support of activities other than publications, is imposed to defray the cost of sending AACR publications to members outside the Americas. Corresponding members may, if they wish, subscribe to Cancer Research, Cell Growth & Differentiation, or Cancer Epidemiology, Biomarkers & Prevention at the reduced member rate.

Applicants elected in March will be responsible for payment of that year’s dues; applicants elected in July and November will pay dues in the following year. Applicants elected in March and July will be eligible to sponsor an abstract for the next annual meeting. Every effort will be made to afford the same opportunity to applicants elected in November.

Margaret Foti
Executive Director
APPLICATION FOR MEMBERSHIP

CATEGORY OF MEMBERSHIP:  □ Active  □ Corresponding

NAME OF CANDIDATE: ___________________________________________ DATE OF BIRTH: ___________________________

(Please type or print) (Please type or print)

STATEMENT OF SUPPORT (in place of letters of recommendation)
Instead of submitting letters of recommendation, either the nominator or the seconder or both may complete the following section:

How long has the candidate worked in the field of cancer research? ______ years
Will the candidate make a long-term contribution to cancer research? ______ Yes ______ No
Does the candidate’s research adhere to accepted ethical standards? ______ Yes ______ No
I therefore recommend this candidate for membership in the American Association for Cancer Research.

Signature of nominator* ___________________________ Date ________________ Signature of seconder* ___________________________ Date ________________

See Guidelines for Application on the reverse side of this form for further instructions.

* Both nominator and seconder must be active, emeritus, or honorary members of the AACR.
QUALIFICATIONS FOR MEMBERSHIP

Associate membership is open to graduate students, medical students, postdoctoral fellows, and physicians in training who live in the Americas and who are following a course of study or who are working in a research program relevant to cancer.

BENEFITS OF MEMBERSHIP

The American Association for Cancer Research (AACR), a scientific society consisting of laboratory and clinical cancer researchers, was founded in 1907 “to bring together active investigators of the cancer problem for presentation and discussion of new or significant observations; and to foster research in cancer and other phenomena of growth.” Associate members of the AACR enjoy the following benefits:

1. the privilege of sponsoring an abstract for presentation at the AACR annual meeting provided that (a) the associate member is the presenter of the abstract and (b) an active member in good standing of the AACR also signs the abstract in support of the work (In this instance, the active member who cosigns the abstract does not lose his or her own sponsorship privilege.);
2. an advance copy of the Program and (if one has been purchased by the associate member) the Proceedings of the American Association for Cancer Research which contains abstracts of all papers being presented at each annual meeting;
3. the privilege of registering for the annual meeting at the low student rate (This rate is otherwise available only to predoctoral students.);
4. preferred access to the AACR Employment Register;
5. optional subscriptions to the journals Cancer Research, Cell Growth & Differentiation, and Cancer Epidemiology, Biomarkers & Prevention at the reduced member rate;
6. subscriptions to any future AACR journals at reduced member rates;
7. early notification of events in the AACR’s new series of small scientific meetings on timely scientific topics;
8. the receipt of AACR newsletters, meeting announcements, and an up-to-date membership directory; and
9. the facilitation of informal scientific exchange with leading researchers in the cancer field.

PROCEDURES FOR APPLICATION

Persons wishing to apply for associate membership must use the official application form on the reverse side of these instructions. Each candidate for associate membership must be nominated by an active member in good standing of the AACR. Three completed copies of the form should be submitted; at least one of these copies must carry the original signatures of both the candidate and the active member nominator. The application form may be submitted to the Association Office at any time.

After review of applications for associate membership, the Executive Director will notify candidates of their election or deferral within one month of the receipt of the application form. A check in the amount of $30, which represents one year’s dues payment, must accompany the application. This fee will be refunded to any candidate deemed to be ineligible for associate membership. Checks should be in U.S. currency, made payable to AACR, Inc., and drawn on a U.S. bank. Send the three copies of the application form and the $30 dues payment to:

American Association for Cancer Research
Public Ledger Building
620 Chestnut St.
Suite 816
Philadelphia, PA 19106-3483
215/440-9300

RESPONSIBILITIES OF MEMBERSHIP

Associate members must pay annual dues in an amount to be determined by the AACR Board of Directors. Dues for 1993 have been set at $30 per year. If an application is submitted by August 31, the accompanying dues payment will be credited to the current year. Candidates submitting applications between September 1 and December 31 may indicate whether they wish their dues payments credited to the current or forthcoming year. Candidates should be aware, however, that associate members may sponsor an abstract for the annual meeting only if their dues for the current year are paid. For example, an associate member submitting an abstract in December 1993 for the forthcoming annual meeting must have paid dues for 1993. Any newly elected associate members of the AACR who have already purchased subscriptions to Cancer Research, Cell Growth & Differentiation, or Cancer Epidemiology, Biomarkers & Prevention at the higher, nonmember rate will receive a refund for the unused portion of that subscription upon receipt of their payment for a member's subscription.

Each Fall the AACR will send to current associate members an invoice for dues for the forthcoming year. Payment of this invoice must be accompanied by a statement signed by the associate member's current registrar, dean, or department head, verifying the member's current academic status. The Association's By-Laws state that dues are payable for each year in advance on or before January 1 of the year to which they should be applied. An individual may be an associate member for a maximum of five years. Each year in which an individual pays dues will count as one full year of associate membership. Thus, an associate member who pays dues for 1993 may retain associate membership until December 31, 1997. The Board of Directors may terminate the membership of an associate member whose dues are in arrears for two years.

Margaret Foti,
Executive Director

SIGNATURES

I hereby apply for associate membership in the American Association for Cancer Research. I have read the instructions on the reverse side of this form, and I understand the privileges and responsibilities of this class of membership. I certify that the statements on this application are true.

Signature of Candidate: ________________________________ Date: ________________________________

I recommend this candidate for associate membership in the American Association for Cancer Research. To the best of my knowledge, the candidate is qualified for this class of membership, and the statements on this application are true.

Signature of Nominator: ________________________________ Date: ________________________________

Submit three copies of this form. At least one copy must contain the original signatures of the candidate and the nominator. Enclose a check for $30 in U.S. funds made payable to AACR, Inc. and drawn on a U.S. bank. Check one of the following boxes only if this form is being submitted between September 1 and December 31:

☐ current ☐ forthcoming calendar year.

(NOTE: If dues are applied to the forthcoming year, membership will take effect on January 1, but the candidate will not be eligible to sponsor an abstract for presentation at the annual meeting in May of that year. See Guidelines for Application on the reverse side of this form for further instructions.

* Nominator must be active, emeritus, or honorary member of the AACR.

(This form may be reproduced.)
Guidelines for Submitting Disks
to
American Association for Cancer Research Publications

The word processing packages that we prefer are as follows:

- XyWrite III Plus (for the IBM)
- WordPerfect 4.2, 5.0, 5.1 (for the IBM)
- WordPerfect (for the Mac)
- Wordstar (for the IBM)
- Microsoft Word (for the IBM)
- WordPerfect 4.2, 5.0, 5.1 (for the IBM)
- Microsoft Word Macintosh (Versions 1–4) 400/800K
- Wang OIS (WPS)

Also acceptable:

- Apple II DOS 3.3
- Apple with Appleworks Software
- Apple III Plus DOS 3.3
- Apple Macintosh 400K Disc/ MacWrite 2.2 (text)
- Apple Macintosh Plus 800K Disc/ MacWrite 4.5 (text)
- CPT 8000
- DEC WPS-8
- DEC Deamate II
- DEC Deamate III
- Display Write 3
- IBM Displaywriter Word Processor 6580
- Lanier Business One Step
- Lanier No Problem
- Lanier Super No Problem
- MASS-11 PC
- Multimate
- PC Write
- PFS Professional Write
- Volkswriter 4.0

New releases of word processing software are not always immediately available for conversion. In addition, because of the file structures and internal coding, we cannot accept disks created on desktop publishing systems or those created on proprietary typesetting systems. We also cannot guarantee that all special characters can be translated. Tabular and mathematical material, such as equations, will not be captured from the disk but will be rekeyed.

To expedite work and for your own security, we do require that you submit a hard copy printout of the disk file. The tables and equations will be keyed from this hard copy. We also need to know the name of the file to be converted, the type of hardware (e.g., IBM PC) on which the files were created, the operating system (e.g., DOS 3.3), and the version of the software (e.g., WordPerfect 5.1) used to create the file.

PLEASE FILL OUT ALL INFORMATION ON REVERSE SIDE AND SUBMIT THIS FORM WITH YOUR DISK. DISKS WILL NOT BE PROCESSED WITHOUT THIS INFORMATION.
DISK SUBMISSION FORM

AACR journals are now using personal computers to copyedit manuscripts accepted for publication. When submitting a revised manuscript, authors are encouraged to submit an electronic disk of the paper along with the required four hard copy printouts. Disks will ultimately be returned to the authors.

See reverse for the word processing packages that can be accepted.

File preparation

Please be sure that the file you send is the most recent version of the manuscript and that it matches the most recently submitted printed copy. The file should contain all the parts of the manuscript in one file. Mathematical and tabular material, however, will be processed in the traditional manner and may be excluded from the disk file.

Note: AACR does not assume responsibility for errors in conversion of customized software, newly released software, or special characters.

Please label the outside of the disk with the journal name, the first author’s name, a partial title of the manuscript, and the name of the computer file used to access the manuscript on disk. To process your disk efficiently, we need the following information. Please be sure to provide ALL the information.

Name used to access paper on disk: ________________________________
Name of computer used (e.g., IBM/PS2): ________________________________
Operating system and version (e.g., DOS 3.3): ________________________________
Word processing program and version (e.g., WordPerfect 5.0): ________________________________
[See reverse for acceptable programs.]

Manuscript number: ________________________________
First author: ________________________________
Corresponding author (if different from first author): ________________________________
Telephone/FAX numbers: ________________________________

The American Association for Cancer Research Presents

Molecular Biology in Clinical Oncology: A Workshop

An intensive, one-week summer workshop on molecular biology designed for clinical oncologists in training or in their early academic careers.

July 2-8, 1993
The Given Institute
Aspen, Colorado

ORGANIZERS

STEPHEN H. FRIEND
Massachusetts General Hospital
Charlestown, MA

L. MICHAEL GLODÉ
University of Colorado School of Medicine
Denver, CO

- Lectures by leading experts on molecular biology concepts and the latest developments in molecular oncology such as gene therapy, oncogenes and growth factors, tumor suppressor genes, fusion proteins, genetic mutations, antisense, metastasis, and drug resistance.

- Small group laboratory sessions to demonstrate the important experimental techniques utilized in molecular biology.

- A workshop syllabus containing relevant published papers, references to key articles in the literature, and details on important laboratory procedures.

- Financial support for participants who are physicians in training or oncology fellows.

- Category I CME credits through the University of Colorado School of Medicine.

Faculty

Lectures

OWEN N. WITTE/ Los Angeles, CA
KENNETH W. CULVER/ Bethesda, MD
ANDRÉ BERNARDS/ Charlestown, MA
HAROLD L. MOSES/ Nashville, TN
ADI F. GAZDAR/ Dallas, TX
CORI GORMAN/ San Francisco, CA

DAVID E. PETTIJOHN/ Denver, CO
CRAIG TUERK/ Boulder, CO
EMMETT SCHMIDT/ Charlestown, MA
STEPHEN H. FRIEND/ Charlestown, MA
ERIC R. FEARON/ Baltimore, MD
L. MICHAEL GLODÉ/Denver, CO

PATRICIA S. STEEG/ Bethesda, MD
MARCE. LIPPMAN/ Washington, DC
MASAAKI TERADA/ Tokyo, Japan
WILLIAM S. DALTON/ Tucson, AZ
JOHN R. MURPHY/ Boston, MA
JACKIE LEES/ Charlestown, MA

Additional Speakers to be Announced

Laboratory Rotations

ANNE KALLIONIEMI and OLLI-P. KALLIONIEMI/ San Francisco, CA. "Practical Molecular Cytogenetics."
MARK S. BOGUSKI/ Bethesda, MD. "Computer Searching in Molecular Biology."
IAN H. MAXWELL and L. MICHAEL GLODÉ/ Denver, CO. "Polymerase Chain Reaction Technology."
CORI M. GORMAN/ San Francisco, CA.

### AMERICAN CANCER SOCIETY CLINICAL AWARDS

The American Cancer Society is proud to announce its Clinical Awards for 1994 funding: the Clinical Oncology Fellowship (COF), the Clinical Oncology Career Development Award (CDA), and the Cancer Control Career Development Award for Primary Care Physicians (CCCDPA).

The COF is a one-year institutional award intended to support a multidisciplinary training experience for physicians and dentists preparing for a leadership career in academic oncology. The Fellowship is expected to provide unique training in addition to that which is normally provided in postgraduate training programs designed to fulfill requirements of specialty boards. The COF stipend is $10,000 per year.

The CDA is a three-year award given to promising junior faculty who will pursue academic careers in clinical oncology. A successful application must describe in detail a supervised program that will develop the candidate's clinical expertise and his/her capacity to perform independent clinical/laboratory research. The annual stipend for the CDA is $25,000 for the first year, and $30,000 and $35,000 for the second and third years, respectively.

In order to encourage and support activities in cancer control, the Society offers a limited number of CCCDA's to physicians specializing in primary care. It is anticipated that physicians trained under these two-year grants will improve cancer control through involvement in primary care practice, education, and research activities related to cancer control. These awards are intended to develop academic leaders in primary care specialties emphasizing cancer control.

Please note that candidates for these awards must be citizens or permanent residents of the United States. The application deadlines for each of these awards are as follows:

- **Clinical Oncology Fellowship:** July 1, 1993
- **Clinical Oncology Career Development Award:** August 1, 1993
- **Cancer Control Career Development Award:** August 15, 1993

To request additional information or application materials for these programs, contact the office of:

### AMERICAN CANCER SOCIETY

### CLINICAL ONCOLOGY CAREER DEVELOPMENT AWARDS

The American Cancer Society is pleased to announce the 1994 Clinical Oncology Career Development Award (CDA). This award is intended to encourage and develop promising candidates who will pursue academic careers in clinical oncology. Through the CDA, the Society seeks to support individuals in supervised programs that will develop the candidate's clinical expertise and his/her capacity to perform independent clinical and/or laboratory research.

These awards are intended to support the early development of careers in academic clinical oncology; thus physicians who already have well established careers with substantial research funding should not apply. In addition, candidates for these awards must be citizens or permanent residents of the United States.

This is a three-year award. The stipend for the award is $25,000 for the first year, $30,000 for the second, and $35,000 for the third. The application deadline is August 1, 1993 for awards to begin July 1, 1994.

To request further information or application materials, please contact the office of:

### AMERICAN CANCER SOCIETY

### CANCER CONTROL CAREER DEVELOPMENT AWARD FOR PRIMARY CARE PHYSICIANS

The American Cancer Society is pleased to announce the 1994 Cancer Control Career Development Award for Primary Care Physicians (CCCDPA). This award is intended to develop academic leaders in primary care specialties emphasizing cancer control: family practice, general internal medicine, obstetrics and gynecology, and pediatrics. Through the CCCDA, the Society seeks to support individuals in supervised programs that will develop the candidate’s clinical and teaching expertise and his/her capacity to perform independent clinical research in cancer control. It is anticipated that physicians trained under these awards will improve cancer control through involvement in primary care practice, education, and research activities related to cancer control.

Candidates for first year Cancer Control Career Development Awards for Primary Care Physicians may not have an academic rank above that of Assistant Professor and must not be tenured or be the section head (or equivalent) in his/her discipline. These awards are intended to support the early development of academic careers which place emphasis on cancer control; physicians with well established careers and substantial research funding should not apply. In addition, candidates for these awards must be citizens or permanent residents of the United States.

This is a two-year award. The stipend for the award is $25,000 for the first year and $30,000 for the second. The application deadline is August 15, 1993 for awards to begin July 1, 1994.

AACR SPECIAL CONFERENCE IN CANCER RESEARCH

Molecular Approaches to Cancer Immunotherapy

November 7-11, 1993
The Grove Park Inn, Asheville, North Carolina

CONFERENCE CHAIRPERSON
Ralph A. Reisfeld / La Jolla, CA

SCIENTIFIC PROGRAM

Monoclonal Antibodies for Tumor Therapy
Alan N. Houghton / New York, NY
Albert F. LoBuglio / Birmingham, AL
Ira Pastan / Bethesda, MD
David A. Scheinberg / New York, NY

Genetically Engineered Antibodies
Stephen D. Gillies / Cambridge, MA
Jeffrey Schlom / Bethesda, MD
Richard P. Junghans / Boston, MA
Sherie L. Morrison / Los Angeles, CA
Clive Woodhouse / Mountain View, CA

Gene Therapy of Cancer
James J. Mulé / Palo Alto, CA
Drew M. Pardoll / Baltimore, MD
David T. Curiel / Chapel Hill, NC
Patrick Hwu / Bethesda, MD
Elizabeth Jaffee / Baltimore, MD

Cytokines in Tumor Therapy
Steven Gillia / Seattle, WA
Roland Mertelsmann / Freiburg, Germany
Ronald Levy / Stanford, CA
Terry Strom / Boston, MA

Tumor Antigens Recognized by T-Cells
Olivera J. Finn / Pittsburgh, PA
Per A. Peterson / La Jolla, CA
Martin A. Cheever / Seattle, WA
Michael T. Lotze / Pittsburgh, PA

Antibodies as Immunogens
Soldano Ferrone / Valhalla, NY
Dorothée Herlyn / Philadelphia, PA
Kenneth Foon / Lexington, KY
Alan N. Houghton / New York, NY
Alfred Nisonoff / Waltham, MA

Future of Cancer Immunotherapy
Isaiah J. Fidler / Houston, TX
Paul M. Sondel / Madison, WI
Irwin D. Bernstein / Seattle, WA
Eugenie S. Kleinerman / Houston, TX

Applicants are encouraged to submit abstracts for poster presentation.

Application Deadline: August 2, 1993
At the Sandoz Cytokine Development Unit (CDU), we are exploring new paths of research and development and studying more options in disease treatment than were ever thought possible. Using the latest technology, the CDU is working to develop these treatments rapidly, with the same high-quality standards we have always upheld.

At the CDU, our commitment to research and development is unsurpassed. Sandoz created the CDU as an independent unit, fueled by the dedication of specialized personnel. These highly skilled individuals have been brought together for a common goal—to explore new paths of therapy.
