**AMERICAN ASSOCIATION FOR CANCER RESEARCH**

**GUIDELINES FOR APPLICATION FOR ACTIVE AND CORRESPONDING MEMBERSHIP**

**BENEFITS OF MEMBERSHIP**

The American Association for Cancer Research (AACR), a scientific society of over 11,500 laboratory and clinical cancer researchers, was founded in 1907 to facilitate communication and dissemination of knowledge among scientists and others dedicated to the cancer problem; to foster research in cancer and related biomedical sciences; to encourage the presentation and discussion of new and important observations in the field; to foster public education, science education, and training; and to advance the understanding of cancer etiology, prevention, diagnosis, and treatment throughout the world.

Members of the AACR enjoy the following benefits:
1. the privilege of sponsoring a proffered paper (abstract) for consideration for presentation at the AACR annual meeting;
2. an advance copy of the Program and Proceedings of the American Association for Cancer Research that contains over 4,000 abstracts of proffered papers presented at the annual meeting;
3. reduced registration rates at annual meetings;
4. priority notice of small, focussed meetings in the AACR’s exciting series of Special Conferences in Cancer Research;
5. substantially reduced registration rates for Special Conferences;
6. opportunities for participation in AACR meetings in North America and abroad with other scientific societies around the world;
7. receipt of AACR Newsletters and other important announcements;
8. early notification of and reduced rates for participation in the AACR Employment Register;
9. an up-to-date Membership Directory of over 11,500 member researchers in the cancer field;
10. the professional benefits of the AACR’s public education activities concerning funding for cancer research and press coverage of the latest research findings;
11. the opportunity to participate in three Summer Workshops that foster knowledge in the cancer field for young investigators;
12. the facilitation of informal scientific exchange with leading researchers in the cancer field; and
13. many more ongoing benefits.

**QUALIFICATIONS FOR MEMBERSHIP**

Active membership in the AACR is open to investigators who live in the Americas. Individuals who have conducted two years of research resulting in peer-reviewed publications relevant to cancer, or who have made substantial contributions to cancer research in an administrative or educational capacity, are eligible. If a candidate has conducted research in an area of biomedical science related to cancer, he or she will qualify for membership. Evidence of patents relevant to cancer research may be submitted as qualifications for membership in lieu of peer-reviewed publications.

Corresponding membership is open to persons who are not residents of the Americas. The qualifications for corresponding membership are the same as those indicated above for active membership. Visiting scientists from outside the Americas who intend to return to their countries of origin by the anticipated time of election should apply for corresponding membership. All other visiting scientists should apply for active membership and register to corresponding status upon leaving the Americas.

Graduate and medical students, postdoctoral fellows, and physicians in training who do not yet meet the above qualifications for active or corresponding membership should apply for associate membership. Forms for associate membership are available from the AACR Office.

**PROCEDURES FOR APPLICATION**

There are three deadlines for the receipt of a membership application: January 1, May 1, and September 1 of each year. The Membership Committee will review all complete applications for active membership that have been received by these deadlines and will submit recommendations on each candidate to the Board of Directors which formally elects all members. The same procedure is followed by the Special Memberships Committee which receives applications for corresponding membership. Candidates will be notified according to the following schedule:

<table>
<thead>
<tr>
<th>Receipt of Application in AACR Office</th>
<th>Notification of Candidate</th>
</tr>
</thead>
<tbody>
<tr>
<td>January 1</td>
<td>March</td>
</tr>
<tr>
<td>May 1</td>
<td>July</td>
</tr>
<tr>
<td>September 1</td>
<td>November</td>
</tr>
</tbody>
</table>

A complete application consists of the following material:
1. 6 copies of the form on the opposite side of this page, with all requested information provided.
2. 5 copies of the candidate’s most current curriculum vitae and bibliography.
3. 5 copies of a letter of recommendation from a nominator who is an active, corresponding, emeritus, or honorary member of the AACR (at least one copy must be a signed, original letter). This letter should describe the candidate’s achievements in laboratory research, clinical investigations, or epidemiological research, and it should affirm that this research adheres to accepted ethical scientific standards. –OR– The nominator may supply the responses requested at the bottom of the application form in the section entitled “STATEMENT OF SUPPORT” (at least one copy of the form must be the signed original).
4. 5 copies of a letter of recommendation as described in Item 3 above from a secondor who is an active, corresponding, emeritus, or honorary member of the AACR (at least one copy must be a signed, original letter). –OR– The secondor may supply the responses requested at the bottom of the application form in the section entitled “STATEMENT OF SUPPORT” (at least one copy of the form must be the signed original).
5. 5 reprints of each of two publications on which the candidate appears as author. As noted above, evidence of patents developed by the candidate may be submitted in lieu of one or both of the publications. If submitting patents, supply patent number and year awarded.

All material should be collated into five complete sets with the original application form as a covering document and sent to the address given below. Questions regarding procedures for membership application may also be directed to the following address:

American Association for Cancer Research
Public Ledger Building, Suite 816
150 S. Independence Mall West
Philadelphia, PA 19106-3483
Phone: 215/440-9300
FAX: 215/440-9313
E-mail: aacr@aacr.org

**RESPONSIBILITIES OF MEMBERSHIP**

Candidates should be aware of the following responsibilities of membership in the AACR. Active members must pay annual dues. In 1997 annual dues for active members are $175, $100 of which is designated for AACR journal subscriptions. Newly elected members of the AACR who have already purchased subscriptions to *Cancer Research, Clinical Cancer Research, Cell Growth & Differentiation*, or *Cancer Epidemiology, Biomarkers & Prevention* at the higher, nonmember rates will receive reimbursement of the unused portion of those subscriptions once their first year’s membership dues are paid in full.

Corresponding members are required to pay dues ($90 in 1997) and may, if they wish, subscribe to *Cancer Research, Clinical Cancer Research, Cell Growth & Differentiation*, or *Cancer Epidemiology, Biomarkers & Prevention* at reduced member rates.

Applicants elected in March will be responsible for payment of that year’s dues; applicants elected in July and November will pay dues for the following year. Applicants elected in March and July will be eligible to sponsor an abstract for the next annual meeting. Every effort will be made to afford the same opportunity to applicants elected in November.

Margaret Foti, Ph.D.
Executive Director

GUIDELINES FOR APPLICATION FOR ASSOCIATE MEMBERSHIP

QUALIFICATIONS FOR MEMBERSHIP

Associate membership is open to graduate students, medical students, postdoctoral fellows, and physicians in training who are following a course of study or who are working in a research program relevant to cancer. Scientists in training who already have a substantial record of publications may wish to apply for active or corresponding membership which confers full benefits of membership.

BENEFITS OF MEMBERSHIP

The American Association for Cancer Research (AACR), a scientific society consisting of laboratory and clinical cancer researchers, was founded in 1907 to facilitate communication and dissemination of knowledge among scientists and others dedicated to the cancer problem; to foster research in cancer and related biomedical sciences; to encourage presentation and discussion of new and important observations in the field; to foster public education, science education, and training; and to advance the understanding of cancer etiology, prevention, diagnosis, and treatment throughout the world. Associate members of the AACR enjoy the following benefits:

1. the privilege of sponsoring a proffered paper (abstract) for consideration at the AACR annual meeting provided that (a) the associate member is the presenter of the paper and (b) an active, corresponding, emeritus, or honorary member in good standing of the AACR also signs the abstract of the paper in support of the work. (In this instance, the member who cosigns the abstract does not lose his or her own sponsorship privilege);
2. an advance copy of the scientific Program and (if one has been purchased by the associate member) the Proceedings of the American Association for Cancer Research that contains over 4,000 abstracts of proffered papers presented at the annual meeting;
3. the privilege of registering for the annual meeting at the low associate member rate;
4. preferred access to the AACR Employment Register;
5. optional subscriptions to the Association’s high-quality journals Cancer Research, Clinical Cancer Research, Cell Growth & Differentiation, and Cancer Epidemiology, Biomarkers & Prevention at reduced member rates;
6. priority notification of events in the AACR’s series of special conferences on timely subjects in the field;
7. substantially reduced registration rates at special conferences;
8. the receipt of AACR newsletters, meeting announcements, and an up-to-date Membership Directory;
9. the opportunity to participate in three Summer Workshops that foster knowledge in the cancer field for young investigators; and
10. the facilitation of informal scientific exchange with leading researchers in the cancer field.

PROCEDURES FOR APPLICATION

Persons wishing to apply for associate membership must use the official application form on the reverse side of these instructions. Each candidate for associate membership must be nominated by an active, corresponding, emeritus, or honorary member in good standing of the AACR. Three completed copies of the form should be submitted; at least one of these copies must carry the original signatures of both the candidate and the nominator. In addition, the candidate should submit one copy of his or her curriculum vitae. The application form may be submitted to the Association Office at any time.

After review of applications for associate membership, the Executive Director will notify candidates of their election or deferral within one month of the receipt of the application form. A check for one year’s dues must accompany the application. Dues for 1996 are $35 for associate members residing in the Americas and $45 for residents of other countries. For 1997 these rates are $45 and $55, respectively. This fee will be refunded to any candidate deemed to be ineligible for associate membership. Checks should be in U.S. currency, made payable to AACR, Inc., and drawn on a U.S. bank. Send the three copies of the application form and the appropriate dues payment to:

American Association for Cancer Research
Public Ledger Building, Suite 816
150 S. Independence Mall West
Philadelphia, PA 19106-3483
Phone: 215/440-9300
FAX: 215/440-9313
E-mail: aacr@aacr.org

RESPONSIBILITIES OF MEMBERSHIP

Associate members must pay annual dues in an amount to be determined by the AACR Board of Directors. Dues for 1996 have been set at $35 per year for residents of the Americas and $45 for residents of other countries. For 1997 these rates are $45 and $55, respectively. If an application is submitted by August 31, the accompanying dues payment will be credited to the current year. Candidates submitting applications between September 1 and December 31 may indicate whether they wish their dues payments credited to the current or forthcoming year. Candidates should be aware, however, that associate members may sponsor an abstract for the annual meeting only if their dues for the current year are paid. For example, an associate member submitting an abstract in November 1996 for the forthcoming annual meeting must have paid dues for 1996. Any newly elected associate members of the AACR who have already purchased subscriptions to Cancer Research, Clinical Cancer Research, Cell Growth & Differentiation, or Cancer Epidemiology, Biomarkers & Prevention at the higher, nonmember rate will receive a refund for the unused portion of that subscription upon receipt of their payment for a member’s subscription.

Each Fall the AACR will send to current associate members an invoice for dues for the forthcoming year. Payment of this invoice must be accompanied by a statement signed by the associate member’s current registrar, dean, or department head, verifying the member’s current academic status. The Association’s By-Laws state that dues are payable for each year in advance by January 1 of the year to which they should be applied. An individual may be an associate member for a maximum of five years. Each year in which an individual pays dues will count as one full year of associate membership. Thus, an associate member who pays dues for 1996 may retain associate membership until December 31, 2000. The Board of Directors may terminate the membership of an associate member whose dues are in arrears for two years.

(Please print)

SIGNATURES

I hereby apply for associate membership in the American Association for Cancer Research. I have read the instructions on the reverse side of this form, and I understand the privileges and responsibilities of this class of membership. I certify that the statements on this application are true.

Signature of Candidate: ____________________________ Date: ____________________________

I recommend this candidate for associate membership in the American Association for Cancer Research. To the best of my knowledge, the candidate is qualified for this class of membership, and the statements on this application are true.

Signature of Nominator*: ____________________________ Date: ____________________________

Submit three copies of this form. At least one copy must contain the original signatures of the candidate and the nominator. In addition, submit one copy of your curriculum vitae. Enclose a check in U.S. funds, made payable to AACR, Inc., and drawn on a U.S. bank for one year’s dues. For 1996, dues are $35 for associate members residing in the Americas and $45 for residents of other countries. For 1997, these rates will be $45 and $55, respectively.

Check one of the following boxes only if this form is being submitted between September 1 and December 31:
The enclosed dues payment should be applied to the  □ current  □ forthcoming calendar year.

(NOTE: If dues are applied to the forthcoming year, membership will take effect on January 1, but the candidate will not be eligible to sponsor an abstract for presentation at the annual meeting in March or April of that year.) See Guidelines for Application on the reverse side of this form for further instructions.

*Nominator must be active, corresponding, emeritus, or honorary member of the AACR.

(This form may be reproduced.)

Software packages that we are unable to translate:

- FrameMaker
- PageMaker
- Ready, Set, Go
- Scientific Writer

Disks produced on IBM or IBM-compatible computers are preferred, but those produced on some Apple or Wang computers can also be converted. Because of the file structures and internal coding, we cannot accept disks created on desktop publishing systems or those created on proprietary typesetting systems. We also cannot guarantee that all special characters can be translated. Tabular and mathematical material, such as equations, will not be captured from the disk but will be rekeyed.

To expedite work and for your own security, we do require that you submit a hard copy printout of the disk file. The tables and equations will be keyed from this hard copy. We also need to know the name of the file to be converted, the type of hardware (e.g., IBM PC) on which the files were created, the operating system (e.g., DOS 3.3), and the version of the software (e.g., WordPerfect 5.1) used to create the file.

**PLEASE FILL OUT ALL INFORMATION ON REVERSE SIDE AND SUBMIT THIS FORM WITH YOUR DISK. DISKS WILL NOT BE PROCESSED WITHOUT THIS INFORMATION.**
DISK SUBMISSION FORM

AACR journals are now using personal computers to copyedit manuscripts accepted for publication. When submitting a revised manuscript, authors are encouraged to submit an electronic disk of the paper along with the required four hard copy printouts. Disks will ultimately be returned to the authors.

See reverse for the word processing packages that can be accepted.

File preparation

Please be sure that the file you send is the most recent version of the manuscript and that it matches the most recently submitted printed copy. The file should contain all the parts of the manuscript in one file. Mathematical and tabular material, however, will be processed in the traditional manner and may be excluded from the disk file.

Note: AACR does not assume responsibility for errors in conversion of customized software, newly released software, or special characters.

Please label the outside of the disk with the journal name, the first author's name, a partial title of the manuscript, and the name of the computer file used to access the manuscript on disk. To process your disk efficiently, we need the following information. Please be sure to provide ALL the information.

Name used to access paper on disk: ________________________________________
Name of computer used (e.g., IBM/PS2): ______________________________________
Operating system and version (e.g., DOS 3.3): _________________________________
Word processing program and version (e.g., WordPerfect 5.0): _________________
[See reverse for acceptable programs.]

Manuscript number: _________________________________________________________
First author: _______________________________________________________________
Corresponding author (if different from first author): ____________________________
Telephone/FAX numbers: ____________________________________________________

City __________________________ State or Province __________________________ Zip/Postal Code __________________________ Country (if not U.S.) __________________________

TELEPHONE NO.: __________________________ FAX NO.: __________________________ E-Mail: __________________________

☐ Check this box if you have a physical disability and have special requirements for transportation, hotel accommodations, or other facilities in connection with the meeting. A member of the Association Staff will contact you.

WHAT IS YOUR PRIMARY FIELD OF RESEARCH? (Please check only one):
☐ □ Biochemistry/Biophysics □ Carcinogenesis □ Cellular Biology and Genetics □ Clinical Investigations
☐ □ Endocrinology/Signal Transduction □ Epidemiology □ Experimental Therapeutics □ Immunology □ Molecular Biology and Genetics
☐ □ Prevention □ Radiobiology/Radiation Oncology □ Virology □ Other (please specify): __________________________

ARE YOU THE PRESENTER OF AN ABSTRACT SUBMITTED FOR THE 1997 AACR MEETING? ☐ Yes ☐ No

ON WHICH DAYS WILL YOU ATTEND THE 1997 AACR ANNUAL MEETING? (Check all that apply)☐ Saturday, April 12  ☐ Sunday, April 13  ☐ Monday, April 14  ☐ Tuesday, April 15  ☐ Wednesday, April 16

☐ Check this box if you are a high school or undergraduate student. This information will be used for the organization of a special educational event during the annual meeting for students interested in pursuing careers in science. The program, to be organized by the AACR Science Education Committee, will include presentations as well as a panel discussion by cancer experts. Further information will be sent to you under separate cover.

PAYMENT OF REGISTRATION

Fees may be paid by check or with a VISA, MasterCard, or American Express account. All payments must be made in U.S. currency, and all checks must be drawn on a U.S. bank. Payment must accompany this form; purchase orders will not be accepted as payment.

METHOD OF PAYMENT

☐ Check payable to AACR, Inc. in U.S. currency, drawn on a U.S. bank

☐ VISA ☐ MasterCard ☐ American Express

Person/Institution Issuing Check __________________________ Check No. __________________________

Card Number __________________________ Expiration Date __________________________

Signature __________________________

*An application for Associate Membership may accompany this form, but these should be submitted well before the February 14, 1997 deadline, as review of the Associate Membership application may delay registration. Students must enclose a statement, signed by the registrar, dean, or department head of their university or college on official letterhead, confirming their status. Postdoctoral fellows or physicians in training do not qualify for the student registration rate.

*AACR members with paid-up subscriptions to an AACR journal and registrants who pay the nonmember fee receive the Proceedings automatically. If these members or nonmembers check this box and pay the fee, they will receive an additional copy of the Proceedings.

*Optional payment for registrants outside of the U.S. and Canada only. Registrants paying this surcharge will receive meeting publications via airmail–printed matter before the annual meeting. This service will not be available after February 14, 1997.

AACR members in good standing will receive copies of the Program and Proceedings prior to the meeting. Nonmember and student registrants who meet the February 14 deadline will also receive the Program and (if they have purchased it) the Proceedings prior to the meeting. Nonmembers and students who do not meet the deadline must pick up publications at the meeting site.

REFUND POLICY

Refunds on registration fees will be granted on written request received at the AACR Office by April 9, 1997. Requests received after this date will not be honored. Receipts and badges (if they have been mailed) must be returned to the AACR Office with the refund request. A cancellation fee of $35 will be deducted from all refunds to cover administrative costs.
1997 RESEARCH FELLOWSHIPS

For Young Scientists at the Postdoctoral or Clinical Fellow Level

- **1997 Research Fellowship in Clinical/Translational Research:** This Fellowship, sponsored by Amgen, Inc., will provide a one-year grant of $30,000 to a young scientist in the U.S. or Canada engaged in meritorious clinical or translational cancer research.

- **1997 Research Fellowship in Clinical Research:** This Fellowship, sponsored by Bristol-Myers Squibb Oncology, will provide a one-year grant of $30,000 to a young scientist in the U.S. or Canada engaged in meritorious clinical cancer research.

- **1997 Research Fellowship in Prevention Research:** This Fellowship, sponsored by the Cancer Research Foundation of America, will provide a one-year grant of $30,000 to a young scientist in the U.S. or Canada engaged in meritorious cancer prevention research.

- **1997 Research Fellowships in Basic Research:** Three Fellowships, sponsored by The Sidney Kimmel Foundation for Cancer Research, Hoechst Marion Roussel, and the AACR, will each provide a one-year grant of $30,000 to a young scientist in the U.S. or Canada engaged in meritorious basic cancer research.

- The winners of the Research Fellowships will be announced at the AACR Annual Meeting in San Diego, CA, in April 1997.

**Eligibility**

Candidates must have completed the M.D., Ph.D., or other doctoral degree. Candidates must currently be a postdoctoral or clinical research fellow and must have been a fellow for at least two years but not more than five years prior to the year of the award. Academic faculty holding the rank of assistant professor or higher, graduate or medical students, government employees, and employees of private industry are not eligible. A candidate need not be a member of the AACR at the time of application, but he or she must be nominated by an AACR Member. Associate Members may not be nominators.

**Selection Process**

Applications will receive careful scientific evaluation by a prestigious, multidisciplinary Committee consisting of AACR Members who are experts in basic, clinical, and translational cancer research. Applications must be submitted in complete form by **February 14, 1997**.
Cancer of the Central Nervous System

June 7-11, 1997
Loews Coronado Bay Resort
San Diego, CA

CONFERENCE CO-CHAIRPERSONS

Webster K. Cavenee / La Jolla, CA  Peter McL. Black / Boston, MA

PROGRAM COMMITTEE

William F. Chandler / Ann Arbor, MI  Mark D. Noble / Salt Lake City, UT
Joseph Plepmeier / New Haven, CT  Bernd R. Seizinger / Boston, MA
Jean Y. J. Wang / La Jolla, CA

CONFERENCE PROGRAM

Keynote Address
Charles B. Wilson / San Francisco, CA

Triumphs and Challenges of Present Diagnosis and Management
Catherine Dumas-Dupont / Paris, France
Peter McL. Black / Boston, MA
Jay S. Loeffler / Boston, MA
Victor A. Levin / Houston, TX

Neurobiology and Developmental Biology
Fred H. Gage / La Jolla, CA
Mark D. Noble / Salt Lake City, UT

Genetic Predispositions to CNS Tumors
Jean Y. J. Wang / La Jolla, CA
Lawrence A. Donehower / Houston, TX
Eric C. Holland / Bethesda, MD

Molecular Genetics
David N. Louis / Boston, MA
Huei-Jen Su Huang / La Jolla, CA
Otmar D. Wiestler / Bonn, Germany

New Targets for Therapy
Mark L. Rosenblum / Detroit, MI
David Hockenberry / Seattle, WA
Jerry W. Shay / Dallas, TX

Receptor Mediated Growth Control
Charles D. Stiles / Boston, MA
Webster K. Cavenee / La Jolla, CA
Lewis T. Williams / San Francisco, CA

Novel Therapies
Xandra O. Brakefield / Boston, MA
Jackson B. Gibbs / West Point, PA
Judah Folkman / Boston, MA
Frank McCormick / San Francisco, CA

ADDITIONAL SPEAKERS TO BE ANNOUNCED

Application Deadline: March 14, 1997

AMERICAN ASSOCIATION FOR CANCER RESEARCH

BENEFITS OF MEMBERSHIP

The American Association for Cancer Research (AACR) is a scientific society consisting of over 11,000 laboratory and clinical cancer researchers. It was founded in 1907 "to facilitate communication and dissemination of knowledge among scientists and others dedicated to the cancer problem; to foster research in cancer and related biomedical sciences; to encourage presentation and discussion of new and important observations in the field; to foster public education, science education, and training; and to advance the understanding of cancer etiology, prevention, diagnosis, and treatment throughout the world." Members of the AACR enjoy the following benefits:

- the opportunity to subscribe to AACR's four prestigious journals: *Cancer Research, Clinical Cancer Research, Cell Growth & Differentiation, and Cancer Epidemiology, Biomarkers & Prevention*, at reduced member rates.
  
  * *Cancer Research* publishes about 6,300 pages per year of timely and significant research in the broad subfields of cancer research. With over 69,000 citations to its articles per year, it is the most highly cited journal in the cancer field and now ranks 16th among 10,000 scientific journals worldwide.  
  
  * *Clinical Cancer Research*, a new AACR journal which was launched last year, already has about 4,500 subscribers, and encompasses both clinical and translational research. It publishes exciting clinical trials evaluating new treatments for cancer as well as preclinical studies that will lead to clinical trials.  
  
  * *Cell Growth & Differentiation*, the Association's journal covering the molecular biology of cancer, is dedicated to bringing cutting-edge molecular cancer research rapidly to print. With over 2,000 subscribers, this monthly journal has established itself as an important source of significant new data in molecular oncology.  
  
  * *Cancer Epidemiology, Biomarkers & Prevention*, which features new findings in cancer epidemiology, risk assessment and carcinogenesis, cancer prevention and control, and biomarkers for cancer detection, became a monthly publication in January 1996.  
  
- the privilege of sponsoring a proffered paper (abstract) for consideration for presentation at the AACR annual meeting; (The AACR annual meeting is attended by more than 6,500 scientists from around the world and is the meeting you can't afford to miss. Scientists consider our annual meeting the most important multidisciplinary cancer meeting which encompasses basic research, clinical cancer research, and the exciting interface area of translational research.)  
  
- an advance copy of the Program and *Proceedings of the American Association for Cancer Research* that contains over 4,000 abstracts of proffered papers presented at the annual meeting;  
  
- reduced registration rates at annual meetings;  
  
- priority notice of small, focussed meetings in the AACR's exciting series of *Special Conferences in Cancer Research*;  
  
- substantially reduced registration rates for Special Conferences;  
  
- opportunities for participation in AACR meetings in North America and abroad with other scientific societies around the world;  
  
- receipt of *AACR Newsletters* and other important announcements;  
  
- early notification of and reduced rates for participation in the *AACR Employment Register*;  
  
- an up-to-date *Directory of Members* containing names and addresses of over 11,000 member researchers in the cancer field;  
  
- the professional benefits of AACR's public education activities concerning funding for cancer research and press coverage of the latest research findings;  
  
- the opportunity to participate in three *Summer Workshops* that foster knowledge in the cancer field for young investigators;  
  
- the facilitation of informal scientific exchange with leading researchers in the cancer field; and  
  
- many more ongoing benefits.
PLENARY SESSION
Genetic Predisposition to Cancer (Louise C. Strong)

SYMPOSIA
Genes, Cell Proliferation, and Antineoplastic Drugs (George F. Vande Woude)
Diagnostic, Prognostic, and Therapeutic Aspects of Tumor Suppressor Genes (David Sidransky)
Cell Cycle Regulation (Peggy J. Farnham)
Breast Cancer Genes (Barbara L. Weber)
Metastasis, Invasion, and Angiogenesis: Mechanisms and Therapeutic Strategies (Marilyn M. Cornwell and Elise C. Kohn)
Novel Clinical Trials Based on Genetics and Molecular Therapeutics (Stephen H. Friend)
Apoptosis and Cancer Therapy (Michael B. Kastan)
Identification and Management of Genetic-High-Risk Individuals (Albert de la Chapelle)
Demystifying the Role of Cytokines in Tumor Immunobiology: Status and Future Utility (Michael A. Caligiuri)
Telomerase and Clinical Applications (Titia de Lange)
Acute Myelocytic Leukemia (Clara Derber Bloomfield)
Prostate Cancer (Donald S. Coffey)
Colon Cancer (Margaret A. Tempero)
Signaling Pathways for Novel Therapeutics (Anthony J. Pawson)
Animal Models for Functional Analysis of Tumor Suppressor Genes (Terry A. Van Dyke)
New Techniques for Molecular Diagnostics (Eric S. Lander)
Mechanisms of Cellular Senescence (J. Carl Barrett)
Damage Response Pathways (Philip C. Hanawalt)
Gene Interactions with the Environment/Carcinogenesis (Allan Balmain)
Epidemiology and Pathogenesis of Secondary Cancers (Frederick P. Li)

CONTROVERSY SESSIONS
What Are the Appropriate Therapeutic Uses of Hematopoietic Growth Factors? (Peter J. Quesenberry)
Estrogen Replacement Therapy: Beneficial or Harmful? (Larry Norton)
What is the Value of Mammography in Young and Genetically Susceptible Women? (Edward Bresnick)
Is the Time Right for Cancer Chemoprevention? (Edward Bresnick)
Gene Patents: Help or Hindrance to Conquering Cancer? (Samuel A. Wells, Jr.)
What is the Role of Prophylactic Surgery in Breast and Ovarian Cancer? (Samuel A. Wells, Jr.)
What Are the Appropriate Guidelines for the Use of Archived Human Tissue?
How Robust Are Antisense/Third Strand Techniques for Gene Disruption?

"MEET-THE-EXPERT" SUNRISE SESSIONS
Angiogenesis
Gene Therapy (Jack A. Roth)
Strategies for Drug Development (Daniel D. Von Hoff)
Advances in Our Molecular Understanding of Lymphoproliferative Disease (A. Thomas Look)
FHIT Gene Alterations in Cancer (Kay Huebner)
Cancer Vaccines (David P. Carbone)
Lung Cancer
Costimulatory Molecules in Tumor Immunity
New Approaches to Overcoming Multidrug Resistance (Alan F. List)
Advances in Oncologic Imaging (Michael J. Welch)
Retinoids and Cancer Chemoprevention (Waun Ki Hong)
Mechanisms of Regulation of p53 Function (Guillermina Lozano)
p53 and Genetic Instability (Geoffrey Wahl)
Farnesyl Transferase Inhibitors (Allen I. Oliff)
Human Cancer Genetics Travels to Cyberspace (Kenneth H. Buetow)
DNA Methylation in Cancer (Stephen B. Baylin)
Chemoprevention in Transgenic Animals (James M. Phang)
Advances in Stem Cell Transplantation
Psychosocial Issues in Cancer
Advances in the Management of AIDS-related Malignancies (Ellen G. Feigal)
Recent Developments in Our Understanding of Minimal Residual Disease (John G. Gribben)
Ovarian Cancer Update (Robert C. Bast, Jr.)
The Biological Basis of the New International Classification of Lymphoma (Elaine S. Jaffe)
Recent Developments in Radiotherapy (Ralph R. Weichselbaum)
Colon Cancer Genes (Stanley R. Hamilton)
Extracellular Connections (Mina J. Bissell)
Barrett’s Esophageal Cancer and Tumor Progression Models (Brian J. Reid)
H. Pylori and Gastric Carcinogenesis (Pelayo Correa)
Transcriptional Models and Drug Discovery (William G. Kaelin)

METHODS WORKSHOPS AND EDUCATIONAL SESSIONS
To be announced

A major resource on the molecular biology of cancer

CELL GROWTH & DIFFERENTIATION

Vol. 8, 1997 (12 issues)
ISSN 1044-9523

Editor-in-Chief:
Joseph R. Nevins, Ph.D.

An up-to-the-minute journal spanning three vital fields

CANCER EPIDEMIOLOGY, BIOMARKERS & PREVENTION

Vol. 6, 1997 (12 issues)
ISSN 1055-9965

Editor-in-Chief:
Pelayo Correa, M.D.

An exciting new forum for clinical and translational cancer research

CLINICAL CANCER RESEARCH

Vol. 3, 1997 (12 issues)
ISSN 1078-0432

Editor-in-Chief:
John Mendelsohn, M.D.

ORDER TODAY!

Members, American Association for Cancer Research:

To place your order, contact the AACR at (215) 440-9300; FAX (215) 440-9313.

Members subscribing to any AACR journal automatically receive the Proceedings of the AACR.

Nonmembers, contact:
FULCO, Inc.
P.O. Box 3000, Denville, NJ 07834
1-800-873-2997 or (201) 627-2427
FAX (201) 627-5872

A state-of-the-art laboratory and clinical investigations

• Advances in Brief
• Selected review articles

A major resource on the molecular biology of cancer

Original in vitro and in vivo studies of the molecular biology of cancer, including normal and abnormal cellular processes

• Research Capsules
• Viewpoints

An up-to-the-minute journal spanning three vital fields

Original research on causes and prevention of cancer in humans

• Invited editorials
• Selected review articles
• Short communications
• Meeting reports

An exciting new forum for clinical and translational cancer research

Research articles

• Advances in Brief
• Minireviews
• Controversies in Clinical Cancer Research

ORDER TODAY!

Priority reading for over 50 years - cited more than any other journal in its field

CANCER RESEARCH

Vol. 57, 1997 (24 issues)
ISSN 0008-5472

Editor-in-Chief:
Carlo M. Croce, M.D.

• State-of-the-art laboratory and clinical investigations
• Advances in Brief
• Selected review articles

Members subscribing to any AACR journal automatically receive the Proceedings of the AACR.

Institutions: Purchase all four journals and save 15% off the total subscription price, excluding postage outside U.S. Canada: Add 7% GST to all orders. MD: Add state sales tax.
