BENEFITS OF MEMBERSHIP

The American Association for Cancer Research (AACR), a scientific society of over 13,500 laboratory and clinical cancer researchers, was founded in 1907 to facilitate communication and dissemination of knowledge among scientists and others dedicated to the cancer problem; to foster research in cancer and related biomedical sciences; to encourage the presentation and discussion of new and important observations in the field; to foster public education, science education, and training; and to advance the understanding of cancer etiology, prevention, diagnosis, and treatment throughout the world.

Members of the AACR enjoy the following benefits:
1. the privilege of sponsoring a proffered paper (abstract) for consideration at presentation at the AACR annual meeting;
2. subscriptions to the Association’s high-quality journals Cancer Research, Clinical Cancer Research, Cell Growth & Differentiation, and Cancer Epidemiology, Biomarkers & Prevention at reduced member rates;
3. an advance copy of the Program and Proceedings of the American Association for Cancer Research that contains over 4,000 abstracts of proffered papers presented at the annual meeting;
4. reduced registration rates at annual meetings;
5. priority notice of small, focussed meetings in the AACR’s exciting series of Special Conferences in Cancer Research;
6. substantially reduced registration rates for Special Conferences;
7. opportunities for participation in AACR meetings in North America and abroad with other scientific societies around the world;
8. receipt of AACR Newsletters and other important announcements;
9. early notification of and reduced rates for participation in the AACR Employment Register;
10. an up-to-date Membership Directory of over 13,500 member researchers in the cancer field;
11. the professional benefits of the AACR’s public education activities concerning funding for cancer research and press coverage of the latest research findings;
12. the opportunity to participate in three Summer Workshops that foster knowledge in the cancer field for young investigators;
13. the facilitation of informal scientific exchange with leading researchers in the cancer field; and
14. many more ongoing benefits.

QUALIFICATIONS FOR MEMBERSHIP

Active membership in the AACR is open to investigators who live in the Americas. Individuals who have conducted two years of research resulting in peer-reviewed publications relevant to cancer, or who have made substantial contributions to cancer research in an administrative or educational capacity, are eligible. If a candidate has conducted research in an area of biomedical science related to cancer, he or she will qualify for membership. Evidence of patents relevant to cancer research may be submitted as qualifications for membership in lieu of peer-reviewed publications.

Corresponding membership is open to persons who are not residents of the Americas. The qualifications for corresponding membership are the same as those indicated above for active membership. Visiting scientists from outside the Americas who intend to return to their countries of origin by the anticipated time of election should apply for corresponding membership. All other visiting scientists should apply for active membership and transfer to corresponding status upon leaving the Americas.

Graduate and medical students, postdoctoral fellows, and physicians in training who do not yet meet the above qualifications for active or corresponding membership should apply for associate membership. Forms for associate membership are available from the AACR Office.

PROCEDURES FOR APPLICATION

There are three deadlines for the receipt of a membership application: January 1, May 1, and September 1 of each year. The Membership Committee will review all complete applications for active membership that have been received by these deadlines and will submit recommendations on each candidate to the Board of Directors which formally elects all members. The same procedure is followed by the Special Memberships Committee which receives applications for corresponding membership. Candidates will be notified according to the following schedule:

<table>
<thead>
<tr>
<th>Receipt of Application</th>
<th>Notification of Candidate</th>
</tr>
</thead>
<tbody>
<tr>
<td>in AACR Office</td>
<td></td>
</tr>
<tr>
<td>January 1</td>
<td>March</td>
</tr>
<tr>
<td>May 1</td>
<td>July</td>
</tr>
<tr>
<td>September 1</td>
<td>November</td>
</tr>
</tbody>
</table>

A complete application consists of the following material:
1. 6 copies of the form on the opposite side of this page, with all requested information provided.
2. 5 copies of the candidate’s most current curriculum vitae and bibliography.
3. 5 copies of a letter of recommendation from a nominator who is an active, corresponding, emeritus, or honorary member of the AACR (at least one copy must be a signed, original letter). This letter should describe the candidate’s achievements in laboratory research, clinical investigations, or epidemiological research, and it should affirm that this research adheres to accepted ethical scientific standards. OR The nominator may supply the responses requested at the bottom of the application form in the section entitled “STATEMENT OF SUPPORT” (at least one copy of the form must be the signed original).
4. 5 copies of a letter of recommendation as described in Item 3 above from a seconder who is an active, corresponding, emeritus, or honorary member of the AACR (at least one copy must be a signed, original letter). OR The seconder may supply the responses requested at the bottom of the application form in the section entitled “STATEMENT OF SUPPORT” (at least one copy of the form must be the signed original).
5. 5 reprints of each of two publications on which the candidate appears as author. As noted above, evidence of patents developed by the candidate may be submitted in lieu of one or both of the publications. If submitting patents, supply patent number and year awarded.

All material should be collated into five complete sets with the original application form as a covering document and sent to the address given below. Questions regarding procedures for membership application may also be directed to the following address:

Membership Services Department
American Association for Cancer Research
Public Ledger Building, Suite 826
150 S. Independence Mall West
Philadelphia, PA 19106-3483
Phone: 215/440-9300
FAX: 215/440-9412
E-mail: aacr@aacr.org

RESPONSIBILITIES OF MEMBERSHIP

Candidates should be aware of the following responsibilities of membership in the AACR. Active members must pay annual dues. In 1998 annual dues for active members are $175, $100 of which is designated for AACR journal subscriptions. Newly elected members of the AACR who have already purchased subscriptions to Cancer Research, Clinical Cancer Research, Cell Growth & Differentiation, or Cancer Epidemiology, Biomarkers & Prevention at the higher, nonmember rates will receive reimbursement of the unused portion of those subscriptions once their first year’s membership dues are paid in full.

Corresponding members are required to pay dues ($100 in 1998) and may, if they wish, subscribe to Cancer Research, Clinical Cancer Research, Cell Growth & Differentiation, or Cancer Epidemiology, Biomarkers & Prevention at reduced member rates.

Applicants elected in March will be responsible for payment of that year’s dues; applicants elected in July and November will pay dues for the following year. Applicants elected in March and July will be eligible to sponsor an abstract for the next annual meeting. Every effort will be made to afford the same opportunity to applicants elected in November.

Margaret Foti, Ph.D.
Executive Director

Signature of Nominator*  Date  Signature of Seconder*  Date

See Guidelines for Application on the reverse side of this form for further instructions.

*Both nominator and seconder must be active, corresponding, emeritus, or honorary members of the AACR in good standing.

(This form may be reproduced.) 1998
QUALIFICATIONS FOR MEMBERSHIP

Associate membership is open to graduate students, medical students, postdoctoral fellows, and physicians in training who are following a course of study or who are working in a research program relevant to cancer. Scientists in training who already have a substantial record of publications may wish to apply for active or corresponding membership which confers full benefits of membership.

BENEFITS OF MEMBERSHIP

The American Association for Cancer Research (AACR), a scientific society consisting of laboratory and clinical cancer researchers, was founded in 1907 to facilitate communication and dissemination of knowledge among scientists and others dedicated to the cancer problem; to foster research in cancer and related biomedical sciences; to encourage presentation and discussion of new and important observations in the field; to foster public education, science education, and training; and to advance the understanding of cancer etiology, prevention, diagnosis, and treatment throughout the world. Associate members of the AACR enjoy the following benefits:

1. the privilege of sponsoring a proffered paper (abstract) for consideration for presentation at the AACR annual meeting provided that (a) the associate member is the presenter of the paper and (b) an active, corresponding, emeritus, or honorary member in good standing of the AACR also signs the abstract of the paper in support of the work. (In this instance, the member who cosigns the abstract does not lose his or her own sponsorship privilege.);
2. optional subscriptions to the Association’s high-quality journals: Cancer Research, Clinical Cancer Research, Cell Growth & Differentiation, and Cancer Epidemiology, Biomarkers & Prevention at reduced member rates; beginning in 1998 associate members will be able to purchase AACR journals for half the price of a regular member subscription;
3. the privilege of registering for the annual meeting at the low associate member rate;
4. the privilege of electing an Associate Member Council that organizes programs benefiting associate members and that presents their concerns to the AACR Board of Directors;
5. the opportunity to stand for election to the Associate Member Council;
6. preferred access to the AACR Employment Register;
7. priority notification of events in the AACR’s series of special conferences on timely subjects in the field;
8. substantially reduced registration rates at special conferences;
9. the receipt of AACR newsletters, meeting announcements, and an up-to-date Membership Directory;
10. the opportunity to participate in three Summer Workshops that foster knowledge in the cancer field for young investigators; and
11. the facilitation of informal scientific exchange with leading researchers in the cancer field.

PROCEDURES FOR APPLICATION

Persons wishing to apply for associate membership must use the official application form on the reverse side of these instructions. Each candidate for associate membership must be nominated by an active, corresponding, emeritus, or honorary member in good standing of the AACR. Three completed copies of the form should be submitted; at least one of these copies must carry the original signatures of both the candidate and the nominator. In addition, the candidate should submit one copy of his or her curriculum vitae. The application form may be submitted to the Association Office at any time.

After review of applications for associate membership, the Executive Director will notify candidates of their election or deferral within one month of the receipt of the application form. A check for one year’s dues payment must accompany the application. Dues for 1998 are $55 for associate members residing in the Americas and $65 for residents of other countries. This fee will be refunded to any candidate deemed to be ineligible for associate membership. Checks should be in U.S. currency, made payable to AACR, Inc., and drawn on a U.S. bank. Send the three copies of the application form and the appropriate dues payment to:

Membership Services Department
American Association for Cancer Research
Public Ledger Building, Suite 826
150 S. Independence Mall West
Philadelphia, PA 19106-3483
Phone: 215/440-9300
Fax: 215/440-9412
E-mail: aacr@aacr.org

RESPONSIBILITIES OF MEMBERSHIP

Associate members must pay annual dues in an amount to be determined by the AACR Board of Directors. Dues for 1998 have been set at $55 per year for residents of the Americas and $65 for residents of other countries. If an application is submitted by August 31, the accompanying dues payment will be credited to the current year. Candidates submitting applications between September 1 and December 31 may indicate whether they wish their dues payments credited to the current or forthcoming year. Candidates should be aware, however, that associate members may sponsor an abstract for the annual meeting only if their dues for the current year are paid. For example, an associate member submitting an abstract in November 1998 for the forthcoming annual meeting must have paid dues for 1998. Any newly elected associate members of the AACR who have already purchased subscriptions to Cancer Research, Clinical Cancer Research, Cell Growth & Differentiation, or Cancer Epidemiology, Biomarkers & Prevention at the higher, nonmember rate will receive a refund for the unused portion of that subscription upon receipt of their payment for a member’s subscription.

Each Fall the AACR will send to current associate members an invoice for dues for the forthcoming year. Payment of this invoice must be accompanied by a statement signed by the associate member’s current registrar, dean, or department head, verifying the member’s current academic status. The Association’s By-Laws state that dues are payable for each year in advance by January 1 of the year to which they should be applied. An individual may be an associate member for a maximum of five years. Each year in which an individual pays dues will count as one full year of associate membership. Thus, an associate member who pays dues for 1998 may retain associate membership until December 31, 2002. The Board of Directors may terminate the membership of an associate member whose dues are in arrears for two years.

SIGNATURES

I hereby apply for associate membership in the American Association for Cancer Research. I have read the instructions on the reverse side of this form, and I understand the privileges and responsibilities of this class of membership. I certify that the statements on this application are true.

Signature of Candidate: ____________________________________________________________ Date: ____________________________

I recommend this candidate for associate membership in the American Association for Cancer Research. To the best of my knowledge, the candidate is qualified for this class of membership, and the statements on this application are true.

Signature of Nominator*: __________________________________________________________ Date: ____________________________

Submit three copies of this form. At least one copy must contain the original signatures of the candidate and the nominator. In addition, submit one copy of your curriculum vitae. Enclose a check in U.S. funds, made payable to AACR, Inc., and drawn on a U.S. bank for one year’s dues. For 1998, dues are $55 for associate members residing in the Americas and $65 for residents of other countries.

Check one of the following boxes only if this form is being submitted between September 1 and December 31: The enclosed dues payment should be applied to the □ current □ forthcoming calendar year.

(NO: If dues are applied to the forthcoming year, membership will take effect on January 1, but the candidate will not be eligible to sponsor an abstract for presentation at the annual meeting in March or April of that year.) See Guidelines for Application on the reverse side of this form for further instructions.

*Nominator must be active, corresponding, emeritus, or honorary member of the AACR in good standing.

Software packages that we are unable to translate:

FrameMaker
PageMaker

Ready, Set, Go
Scientific Writer

Disks produced on IBM or IBM-compatible computers are preferred, but those produced on some Apple or Wang computers can also be converted. Because of the file structures and internal coding, we cannot accept disks created on desktop publishing systems or those created on proprietary typesetting systems. We also cannot guarantee that all special characters can be translated. Tabular and mathematical material, such as equations, will not be captured from the disk but will be rekeyed.

To expedite work and for your own security, we do require that you submit a hard copy printout of the disk file. The tables and equations will be keyed from this hard copy. We also need to know the name of the file to be converted, the type of hardware (e.g., IBM PC) on which the files were created, the operating system (e.g., DOS 3.3), and the version of the software (e.g., WordPerfect 5.1) used to create the file.

PLEASE FILL OUT ALL INFORMATION ON REVERSE SIDE AND SUBMIT THIS FORM WITH YOUR DISK. DISKS WILL NOT BE PROCESSED WITHOUT THIS INFORMATION.
DISK SUBMISSION FORM

AACR journals are now using personal computers to copyedit manuscripts accepted for publication. When submitting a revised manuscript, authors are encouraged to submit an electronic disk of the paper along with the required four hard copy printouts. Disks will ultimately be returned to the authors.

See reverse for the word processing packages that can be accepted.

File preparation

Please be sure that the file you send is the most recent version of the manuscript and that it matches the most recently submitted printed copy. The file should contain all the parts of the manuscript in one file. Mathematical and tabular material, however, will be processed in the traditional manner and may be excluded from the disk file.

Note: AACR does not assume responsibility for errors in conversion of customized software, newly released software, or special characters.

Please label the outside of the disk with the journal name, the first author's name, a partial title of the manuscript, and the name of the computer file used to access the manuscript on disk. To process your disk efficiently, we need the following information. Please be sure to provide ALL the information.

Name used to access paper on disk: ____________________________
Name of computer used (e.g., IBM/PS2): ____________________________
Operating system and version (e.g., DOS 3.3): ____________________________
Word processing program and version (e.g., WordPerfect 5.0): ____________________________
[See reverse for acceptable programs.]

Regular _______  Trainee _______

Annual Dues are $35 for regular members, $15 for predoctoral students, postdoctoral fellows and physicians in training. Please make checks payable to WICR in U.S. dollars and drawn on a U.S. Bank. Mail this form and your check to:

WICR

c/o Dr. Amy M. Fulton • Dept. of Pathology
Univ. of Maryland School of Medicine • 10 S. Pine St. • Baltimore, MD 21201
410/706-6479 • 410/706-8414 (FAX)

(This form may be reproduced)
Women in Cancer Research

sponsored by the AMERICAN ASSOCIATION FOR CANCER RESEARCH, INC.

Benefits of Membership

The Purposes of WICR

Women in Cancer Research grew out of an informal lunch held during the annual meeting of the American Association for Cancer Research (AACR) in 1988. Since that humble beginning, we have grown into an organization of over 1000 members that is sponsored by the American Association for Cancer Research. Our objectives include:

1. promoting interactions on topics that impact the professional lives of women engaged in cancer research;
2. assisting our members in obtaining information relevant to professional advancement;
3. “mentoring” or sharing professional-personal experiences with younger members; and
4. increasing the representation of women as speakers at national meetings and as members of various editorial and review boards.

Networking and Electronic Communication

One of the main functions of WICR is to provide a forum for informal networking among members at different stages of their careers and in different disciplines. Through our programs at the AACR annual meeting, electronic communication (E-mail), our Newsletter, and our Directory of Members, we work to increase opportunities for productive interaction among our members. As a young but rapidly growing organization, we are large enough to be effective, yet not so large that any voice goes unheard. If there is a program that you would like to see offered, simply contact the program committee, or volunteer to serve!

Mentorship and Professional Advancement

The Mentorship and Professional Advancement Committee maintains a WICR database to facilitate the professional growth of our members. This committee serves as resources for women who wish to be invited as conference speakers and for conference organizers who wish to locate appropriate speakers. In addition, this Committee has developed a set of mentoring guidelines which are available to all members. They are charged with issues related to the career advancement of our members. This committee assists members who are looking for positions, and members who are looking to fill positions. Information about positions is disseminated to our members through our E-mail listserve.

WICR Brigid G. Leventhal Scholar Awards

These awards are given in honor of Dr. Brigid G. Leventhal and include travel funds to predoctoral and postdoctoral trainees presenting exceptionally meritorious scientific papers at the AACR annual meeting. Details are available in AACR annual meeting announcements and WICR newsletters.
Gene Regulation and Cancer
10th Anniversary of the AACR Special Conferences

October 14-18, 1998
The Homestead
Hot Springs, VA

Supported by a Major Educational Grant from Janssen Pharmaceutica and Janssen Research Foundation

CONFERENCE CO-CHAIRPERSONS
Phillip A. Sharp / Cambridge, MA
Jacqueline A. Lees / Cambridge, MA
Steven L. McKnight / Dallas, TX

CONFERENCE PROGRAM

Keynote Address
Leland H. Hartwell / Seattle, WA

Control of Cell Division and Gene Expression
Jacqueline A. Lees / Cambridge, MA
Scott W. Lowe / Cold Spring Harbor, NY
Nikola P. Pavletich / New York, NY

Mechanisms of Transcriptional Regulation
Jerry L. Workman / University Park, PA
Marian Carlson / New York, NY
David H. Price / Iowa City, IA

Growth Control and Chromatin Acetylation
C. David Allis / Rochester, NY
Kevin Struhl / Boston, MA
Robert N. Eisenman / Seattle, WA
Michael Grunstein / Los Angeles, CA

Regulation of Cell Death
Albert S. Baldwin / Chapel Hill, NC
Craig B. Thompson / Chicago, IL

Developmental Biology and Gene Regulation
Beverly M. Emerson / La Jolla, CA
Katie Georgopoulos / Cambridge, MA
Frank G. Grosveld / Rotterdam, The Netherlands

Signal to Transcription
Steven L. McKnight / Dallas, TX
David J. Mangelsdorf / Dallas, TX
Gregg L. Semenza / Baltimore, MD

Gene Expression Technology
Stephen H. Friend / Seattle, WA

Additional Speakers to be Announced

Application Deadline: July 31, 1998

Information and Application Forms:
American Association for Cancer Research
Public Ledger Building, Suite 826
150 South Independence Mall West
Philadelphia, PA 19106-3483
215-440-9300 215-440-9313 (FAX)
E-mail: meetings@aacr.org

1999 RESEARCH FELLOWSHIPS

For Young Scientists at the Postdoctoral or Clinical Fellow Level

- Research Fellowships in Basic, Clinical, Translational, and Prevention Research will each provide salary support to a young scientist engaged in meritorious cancer research.
- Generous sponsorship of the AACR Research Fellowships is currently provided by organizations including: Amgen, Inc., the American Association for Cancer Research, Bristol-Myers Squibb Oncology, the Cancer Research Foundation of America, and the Sidney Kimmel Foundation for Cancer Research. Additional fellowships may be approved for 1999.

Eligibility

Candidates must have completed the M.D., Ph.D., or other doctoral degree. Candidates must currently be a postdoctoral or clinical research fellow and must have been a fellow for at least two years but not more than five years prior to the year of the award. Academic faculty, graduate or medical students, medical residents, permanent government employees, employees of private industry, and individuals who will receive fellowships from similar programs during the award year are not eligible. A candidate need not be a member of the AACR at the time of application, but must submit an application for membership at that time. He or she must be nominated by an Active or Corresponding Member. Associate Members may not be nominators. Applications are evaluated by a Committee consisting of AACR Members who are experts in basic, clinical, translational, and prevention research.

Selection Process

Applications will receive careful scientific evaluation by a prestigious, multidisciplinary committee consisting of AACR Members who are experts in the basic, clinical, translational, and prevention cancer research. The application deadline is January 15, 1999. To request information and application forms, contact:

AMERICAN ASSOCIATION FOR CANCER RESEARCH
Public Ledger Building, Suite 826
150 South Independence Mall West
Philadelphia, PA 19106-3483
Phone: (215) 440-9300; FAX: (215) 440-9372
e-mail: aacr@aacr.org
ATTN.: Jenny Anne Horst-Martz
JUNE 14-18, 1998

Proteases and Protease Inhibitors in Cancer
Co-Sponsored by Acta Pathologica Microbiologica
Immunologica Scandinavia
Chairpersons: Keld Dano, Copenhagen, Denmark; and
Lynn M. Matrisian, Nashville, TN
Nyborg Strand Conference Center, Nyborg, Denmark

SEPTEMBER 24-28, 1998

Cellular Targets of Viral Carcinogenesis
Chairpersons: Thea D. Tlsty, San Francisco, CA; Peter M. Howley, Boston, MA, and Eileen P. White, Piscataway, NJ
Marriott's Laguna Cliffs Resort, Dana Point, CA

OCTOBER 14-18, 1998

Gene Regulation and Cancer (10th Anniversary of the AACR Special Conferences)
Chairpersons: Phillip A. Sharp, Cambridge, MA; Jacqueline A. Lees, Cambridge, MA, and Steven L. McKnight, Dallas, TX
The Homestead, Hot Springs, VA

NOVEMBER 11-15, 1998

Endogenous Sources of Mutations
Chairpersons: Lawrence J. Marnett, Nashville, TN; James A. Swenberg, Chapel Hill, NC; Tomas A. Lindahl, Herts, England
Sanibel Harbour Resort and Spa, Ft. Myers, FL

DECEMBER 2-6, 1998

New Research Approaches to the Prevention and Cure of Prostate Cancer
Chairpersons: Jonathan W. Simons, Baltimore, MD, and Kenneth J. Pienta, Ann Arbor, MI
Hyatt Grand Champions Resort, Indian Wells (Palm Springs), CA

JANUARY 8-12, 1999

The Steroid Receptor Superfamily
Chairpersons: M. Geoffrey Rosenfeld, La Jolla, CA; Additional Chairperson to be Announced
Renaissance Esmeralda Resort, Indian Wells (Palm Springs), CA

JANUARY 31-FEBRUARY 5, 1999

Cancer Biology and the Mutant Mouse: New Methods, New Models, New Insights
Chairpersons: Tyler Jacks, Cambridge, MA; Ronald A. DePinho, New York, NY
Keystone Resort, Keystone, CO

APRIL 10-14, 1999

90th Annual Meeting
Chairperson: Waun Ki Hong, Houston, TX; Co-Chairpersons: Carol W. Greider, Cold Spring Harbor, NY, Leroy F. Liu, Piscataway, NJ, and Joseph F. Fraumeni, Jr., Bethesda, MD
Pennsylvania Convention Center, Philadelphia, PA
Abstract Deadline: November 6, 1998

AACR members will receive brochures on the above conferences as soon as they are available. Nonmembers should call or write:

American Association for Cancer Research
Public Ledger Building, Suite 826
150 South Independence Mall West
Philadelphia, PA 19106-3483
215-440-9300 • 215-440-9313 (FAX)
E-Mail: meetings@aacr.org

InvivoGen
Tools for Gene Therapy

Innovative solutions for gene therapy (with an initial focus in cancer) to accelerate the rate of gene therapy research by providing ready to use novel multigenic vectors and optimized kit accessories.

Optimized Vectors
- single selection in bacteria and mammalian cells
- native proteins expressed in mammalian cells
- optimized transcription units, e.g. 5'& 3' UTR
- transcriptional pause for decreased interference
- forced expression of gene using IRES
- full CMV promoter including intron IA
- bifunctional fused protein products

Gene Families
- tumor suppressors, e.g. p53
- suicide genes, e.g. HSV1tk
- gap junctions, e.g. Connexins
- apoptosis, e.g. Bik
- cell cycle regulation, e.g. p27
- immune enhancers, e.g. IL-2
- bound reporter genes, e.g. PLAP
- cellular matrix proteins, e.g. Decorin

Complete Kit Solutions
- ready-to-use multigenic vectors
- control vectors
- ready-to-use prodrugs
- microwavable media with antibiotic
- transformed E. coli
- mycoplasma curing kit
- reporter assay kit

Vector Development Partnership
- place your gene of interest in our optimized vectors with your choice of associated gene(s)
- 2 weeks for new constructions
- complete kit from your cDNA
- guaranteed undetectable endotoxins (LPS)
- expression in bacteria and mammalian cells
- transfected mammalian cells, e.g. B16

www.invivogen.com
Full documentation of genes and backbones (references, sequences, maps and results)
More than 50 multigenic vector gene combinations with more being created weekly
