BENEFITS OF MEMBERSHIP

The American Association for Cancer Research (AACR), a scientific society of over 13,000 laboratory and clinical cancer researchers, was founded in 1907 to facilitate communication and dissemination of knowledge among scientists and others dedicated to the cancer problem; to foster research in cancer and related biomedical sciences; to encourage the presentation and discussion of new and important observations in the field; to foster public education, science education, and training; and to advance the understanding of cancer etiology, prevention, diagnosis, and treatment throughout the world.

Members of the AACR enjoy the following benefits:
1. the privilege of sponsoring a proffered paper (abstract) for consideration at presentation at the AACR annual meeting;
2. subscriptions to the Association’s high-quality journals Cancer Research, Clinical Cancer Research, Cell Growth & Differentiation, and Cancer Epidemiology, Biomarkers & Prevention at reduced member rates;
3. an advance copy of the Program and Proceedings of the American Association for Cancer Research that contains over 4,000 abstracts of proffered papers presented at the annual meeting;
4. reduced registration rates at annual meetings;
5. priority notice of small, focussed meetings in the AACR’s exciting series of Special Conferences in Cancer Research;
6. substantially reduced registration rates for Special Conferences;
7. opportunities for participation in AACR meetings in North America and abroad with other scientific societies around the world;
8. receipt of AACR Newsletters and other important announcements;
9. early notification of and reduced rates for participation in the AACR Employment Register;
10. an up-to-date Membership Directory of over 13,000 member researchers in the cancer field;
11. the professional benefits of the AACR’s public education activities concerning funding for cancer research and press coverage of the latest research findings;
12. the opportunity to participate in three Summer Workshops that foster knowledge in the cancer field for young investigators;
13. the facilitation of informal scientific exchange with leading researchers in the cancer field; and
14. many more ongoing benefits.

QUALIFICATIONS FOR MEMBERSHIP

Active membership in the AACR is open to investigators who live in the Americas. Individuals who have conducted two years of research resulting in peer-reviewed publications relevant to cancer, or who have made substantial contributions to cancer research in an administrative or educational capacity, are eligible. If a candidate has conducted research in an area of biomedical science related to cancer, he or she will qualify for membership. Evidence of patents relevant to cancer research may be submitted as qualifications for membership in lieu of peer-reviewed publications.

Corresponding membership is open to persons who are not residents of the Americas. The qualifications for corresponding membership are the same as those indicated above for active membership. Visiting scientists from outside the Americas who intend to return to their countries of origin by the anticipated time of election should apply for corresponding membership. All other visiting scientists should apply for active membership and transfer to corresponding status upon leaving the Americas.

Graduate and medical students, postdoctoral fellows, and physicians in training who do not yet meet the above qualifications for active or corresponding membership should apply for associate membership. Forms for associate membership are available from the AACR Office.

PROCEDURES FOR APPLICATION

There are three deadlines for the receipt of a membership application: January 1, May 1, and September 1 of each year. The Membership Committee will review all complete applications for active membership that have been received by these deadlines and will submit recommendations on each candidate to the Board of Directors which formally elects all members. The same procedure is followed by the Special Memberships Committee which receives applications for corresponding membership. Candidates will be notified according to the following schedule:

<table>
<thead>
<tr>
<th>Receipt of Application</th>
<th>Notification of Candidate</th>
</tr>
</thead>
<tbody>
<tr>
<td>in AACR Office</td>
<td></td>
</tr>
<tr>
<td>January 1</td>
<td>March</td>
</tr>
<tr>
<td>May 1</td>
<td>July</td>
</tr>
<tr>
<td>September 1</td>
<td>November</td>
</tr>
</tbody>
</table>

A complete application consists of the following material:
1. 6 copies of the form on the opposite side of this page, with all requested information provided.
2. 5 copies of the candidate’s most current curriculum vitae and bibliography.
3. 5 copies of a letter of recommendation from a nominator who is an active, corresponding, emeritus, or honorary member of the AACR (at least one copy must be a signed, original letter). This letter should describe the candidate’s achievements in laboratory research, clinical investigations, or epidemiological research, and it should affirm that this research adheres to accepted ethical scientific standards. ~OR~ The nominator may supply the responses requested at the bottom of the application form in the section entitled “STATEMENT OF SUPPORT” (at least one copy of the form must be the signed original).
4. 5 copies of a letter of recommendation as described in Item 3 above from a seconder who is an active, corresponding, emeritus, or honorary member of the AACR (at least one copy must be a signed, original letter). ~OR~ The seconder may supply the responses requested at the bottom of the application form in the section entitled “STATEMENT OF SUPPORT” (at least one copy of the form must be the signed original).
5. 5 reprints of each of two publications on which the candidate appears as author. As noted above, evidence of patents developed by the candidate may be submitted in lieu of one or both of the publications. If submitting patents, supply patent number and year awarded.

All material should be collated into five complete sets with the original application form as a covering document and sent to the address given below. Questions regarding procedures for membership application may also be directed to the following address:

Membership Services Department  
American Association for Cancer Research  
Public Ledger Building, Suite 826  
150 S. Independence Mall West  
Philadelphia, PA 19106-3483  
Phone: 215/440-9300  
FAX: 215/440-9412  
E-mail: aacr@aacr.org

RESPONSIBILITIES OF MEMBERSHIP

Candidates should be aware of the following responsibilities of membership in the AACR. Active members must pay annual dues. In 1998 annual dues for active members are $175, $100 of which is designated for AACR journal subscriptions. Newly elected members of the AACR who have already purchased subscriptions to Cancer Research, Clinical Cancer Research, Cell Growth & Differentiation, or Cancer Epidemiology, Biomarkers & Prevention at the higher, nonmember rates will receive reimbursement of the unused portion of those subscriptions once their first year’s membership dues are paid in full.

Corresponding members are required to pay dues ($90 in 1998) and may, if they wish, subscribe to Cancer Research, Clinical Cancer Research, Cell Growth & Differentiation, or Cancer Epidemiology, Biomarkers & Prevention at reduced member rates.

Applicants elected in March will be responsible for payment of that year’s dues; applicants elected in July and November will pay dues for the following year. Applicants elected in March and July will be eligible to sponsor an abstract for the next annual meeting. Every effort will be made to afford the same opportunity to applicants elected in November.

Margaret Foti, Ph.D.  
Executive Director

Instead of submitting letters of recommendation, either the nominator or the seconder or both may complete the following section:

I acknowledge by signing this statement of support that this candidate adheres to accepted ethical scientific standards and has or will make a long-term contribution to cancer research.

Signature of Nominator*  Date  Signature of Seconder*  Date

See Guidelines for Application on the reverse side of this form for further instructions.

*Both nominator and seconder must be active, corresponding, emeritus, or honorary members of the AACR in good standing.

(This form may be reproduced.)
QUALIFICATIONS FOR MEMBERSHIP

Associate membership is open to graduate students, medical students, postdoctoral fellows, and physicians in training who are following a course of study or who are working in a research program relevant to cancer. Scientists in training who already have a substantial record of publications may wish to apply for active or corresponding membership which confers full benefits of membership.

BENEFITS OF MEMBERSHIP

The American Association for Cancer Research (AACR), a scientific society consisting of laboratory and clinical cancer researchers, was founded in 1907 to facilitate communication and dissemination of knowledge among scientists and others dedicated to the cancer problem; to foster research in cancer and related biomedical sciences; to encourage presentation and discussion of new and important observations in the field; to promote public education, science education, and training; and to advance the understanding of cancer etiology, prevention, diagnosis, and treatment throughout the world. Associate members of the AACR enjoy the following benefits:

1. the privilege of sponsoring a proffered paper (abstract) for consideration for presentation at the AACR annual meeting provided that (a) the associate member is the presenter of the paper and (b) an active, corresponding, emeritus, or honorary member in good standing of the AACR also signs the abstract of the paper in support of the work. (In this instance, the member who cosigns the abstract does not lose his or her own sponsorship privilege.);
2. optional subscriptions to the Association’s high-quality journals: Cancer Research, Clinical Cancer Research, Cell Growth & Differentiation, and Cancer Epidemiology, Biomarkers & Prevention at reduced member rates; beginning in 1998 associate members will be able to purchase AACR journals for half the price of a regular member subscription;
3. an advance copy of the scientific Program and (if one has been purchased by the associate member) the Proceedings of the American Association for Cancer Research that contains over 4,000 abstracts of proffered papers presented at the annual meeting;
4. the privilege of registering for the annual meeting at the low associate member rate;
5. the privilege of electing an Associate Member Council that organizes programs benefiting associate members and that presents their concerns to the AACR Board of Directors;
6. the opportunity to stand for election to the Associate Member Council;
7. preferred access to the AACR Employment Register;
8. priority notification of events in the AACR’s series of special conferences on timely subjects in the field;
9. substantially reduced registration rates at special conferences;
10. the receipt of AACR newsletters, meeting announcements, and an up-to-date Membership Directory;
11. the opportunity to participate in three Summer Workshops that foster knowledge in the cancer field for young investigators; and
12. the facilitation of informal scientific exchange with leading researchers in the cancer field.

PROCEDURES FOR APPLICATION

Persons wishing to apply for associate membership must use the official application form on the reverse side of these instructions. Each candidate for associate membership must be nominated by an active, corresponding, emeritus, or honorary member in good standing of the AACR. Three completed copies of the form should be submitted; at least one of these copies must carry the original signatures of both the candidate and the nominator. In addition, the candidate should submit one copy of his or her curriculum vitae. The application form may be submitted to the Association Office at any time.

After review of applications for associate membership, the Executive Director will notify candidates of their election or deferral within one month of the receipt of the application form. A check for one year’s dues payment must accompany the application. Dues for 1998 are $45 for associate members residing in the Americas and $55 for residents of other countries. This fee will be refunded to any candidate deemed to be ineligible for associate membership. Checks should be in U.S. currency, made payable to AACR, Inc., and drawn on a U.S. bank. Send the three copies of the application form and the appropriate dues payment to: Membership Services Department American Association for Cancer Research Public Ledger Building, Suite 826 150 S. Independence Mall West Philadelphia, PA 19106-3483 Phone: 215/440-9300 Fax: 215/440-9412 E-mail: aacr@aacr.org

RESPONSIBILITIES OF MEMBERSHIP

Associate members must pay annual dues in an amount to be determined by the AACR Board of Directors. Dues for 1998 have been set at $45 per year for residents of the Americas and $55 for residents of other countries. If an application is submitted by August 31, the accompanying dues payment will be credited to the current year. Candidates submitting applications between September 1 and December 31 may indicate whether they wish their dues payments credited to the current or forthcoming year. Candidates should be aware, however, that associate members may sponsor an abstract for the annual meeting only if their dues for the current year are paid. For example, an associate member submitting an abstract in October 1997 for the forthcoming annual meeting must have paid dues for 1997. Any newly elected associate members of the AACR who have already purchased subscriptions to Cancer Research, Clinical Cancer Research, Cell Growth & Differentiation, or Cancer Epidemiology, Biomarkers & Prevention at the higher, nonmember rate will receive a refund for the unused portion of that subscription upon receipt of their payment for a member’s subscription.

Each Fall the AACR will send to current associate members an invoice for dues for the forthcoming year. Payment of this invoice must be accompanied by a statement signed by the associate member’s current registrar, dean, or department head, verifying the member’s current academic status. The Association’s By-Laws state that dues are payable for each year in advance by January 1 of the year to which they should be applied. An individual may be an associate member for a maximum of five years. Each year in which an individual pays dues will count as one full year of associate membership. Thus, an associate member who pays dues for 1998 may retain associate membership until December 31, 2002. The Board of Directors may terminate the membership of an associate member whose dues are in arrears for two years.

**SIGNATURES**

I hereby apply for associate membership in the American Association for Cancer Research. I have read the instructions on the reverse side of this form, and I understand the privileges and responsibilities of this class of membership. I certify that the statements on this application are true.

Signature of Candidate: ______________________________________

Date: ______________________

I recommend this candidate for associate membership in the American Association for Cancer Research. To the best of my knowledge, the candidate is qualified for this class of membership, and the statements on this application are true.

Signature of Nominator*: ______________________________________

Date: ______________________

Submit three copies of this form. At least one copy must contain the original signatures of the candidate and the nominator. In addition, submit one copy of your curriculum vitae. Enclose a check in U.S. funds, made payable to AACR, Inc., and drawn on a U.S. bank for one year’s dues. For 1998, dues are $45 for associate members residing in the Americas and $55 for residents of other countries.

Check one of the following boxes only if this form is being submitted between September 1 and December 31:

- [ ] The enclosed dues payment should be applied to the current calendar year.
- [x] The enclosed dues payment should be applied to the forthcoming calendar year.

(NO: If dues are applied to the forthcoming year, membership will take effect on January 1, but the candidate will not be eligible to sponsor an abstract for presentation at the annual meeting in March or April of that year.) See Guidelines for Application on the reverse side of this form for further instructions.

*Nominator must be active, corresponding, emeritus, or honorary member of the AACR in good standing.

Software packages that we are unable to translate:

FrameMaker
PageMaker

Ready, Set, Go
Scientific Writer

Disks produced on IBM or IBM-compatible computers are preferred, but those produced on some Apple or Wang computers can also be converted. Because of the file structures and internal coding, we cannot accept disks created on desktop publishing systems or those created on proprietary typesetting systems. We also cannot guarantee that all special characters can be translated. Tabular and mathematical material, such as equations, will not be captured from the disk but will be rekeyed.

To expedite work and for your own security, we do require that you submit a hard copy printout of the disk file. The tables and equations will be keyed from this hard copy. We also need to know the name of the file to be converted, the type of hardware (e.g., IBM PC) on which the files were created, the operating system (e.g., DOS 3.3), and the version of the software (e.g., WordPerfect 5.1) used to create the file.

PLEASE FILL OUT ALL INFORMATION ON REVERSE SIDE AND SUBMIT THIS FORM WITH YOUR DISK. DISKS WILL NOT BE PROCESSED WITHOUT THIS INFORMATION.
DISK SUBMISSION FORM

AACR journals are now using personal computers to copyedit manuscripts accepted for publication. When submitting a revised manuscript, authors are encouraged to submit an electronic disk of the paper along with the required four hard copy printouts. Disks will ultimately be returned to the authors.

See reverse for the word processing packages that can be accepted.

File preparation

Please be sure that the file you send is the most recent version of the manuscript and that it matches the most recently submitted printed copy. The file should contain all the parts of the manuscript in one file. Mathematical and tabular material, however, will be processed in the traditional manner and may be excluded from the disk file.

Note: AACR does not assume responsibility for errors in conversion of customized software, newly released software, or special characters.

Please label the outside of the disk with the journal name, the first author's name, a partial title of the manuscript, and the name of the computer file used to access the manuscript on disk. To process your disk efficiently, we need the following information. Please be sure to provide ALL the information.

Name used to access paper on disk: __________________________________________
Name of computer used (e.g., IBM/PS2): ______________________________________
Operating system and version (e.g., DOS 3.3): __________________________________
Word processing program and version (e.g., WordPerfect 5.0): ____________________
[See reverse for acceptable programs.]

Manuscript number: __________________________________________________________
First author: __________________________________________________________________
Corresponding author (if different from first author): ________________________________
Telephone/FAX numbers: ________________________________________________________

This form (both sides) may be reproduced.

HOTEL DESCRIPTIONS
(Descriptions Provided by Individual Hotels)

1. NEW ORLEANS HILTON RIVERSIDE (Headquarters)
Located at the foot of the busy Poydras Street corridor, right on the river, the New Orleans Hilton Riverside is a step from the fabled French Quarter and only two blocks from the Central Business District. The Hilton is an easy two block walk to the Ernest N. Morial Convention Center and just one block from the Aquarium of the Americas. All rooms have direct dial phones and video messages, as well as numerous other amenities. The Hilton boasts nine restaurants, plenty of nearby parking, two outdoor swimming pools, and the Rivercenter racquet and health club. Just steps away is the Riverwalk Festival Marketplace where you will find plenty of shopping and dining.

Poydras at the Mississippi River • ☎️ (504) 561-0500

Rates: Single $145 Double $165

6. CROWNE PLAZA
The Crowne Plaza New Orleans features 439 beautifully furnished guest rooms and suites, and Creole flavored restaurants and lounges - all within the sights, the sounds, and tastes that make the city so distinctive in the fabric of America. Ideally located alongside the French Quarter, within a short walk are the Ernest N. Morial Convention Center, Mississippi Riverwalk, Canal Place, the Superdome and a host of places to see and things to do.

333 Poydras Street • ☎️ (504) 525-9444
Rates: Single $147 Double $162

7. DOUBLETREE HOTEL NEW ORLEANS
Located on Canal Street overlooking the Mississippi River and the city’s major business and entertainment districts. Across the street from the world famous French Quarter and within walking distance to hundreds of shops and restaurants. The Ernest N. Morial Convention Center is within walking distance. All rooms provide a spacious, comfortable setting to spread out and work or just relax. Each room is equipped with color TV, in-room movies, phones with dataports, coffee makers, iron and ironing boards. The Chicory Rotisserie and Grill adds a new turn to fine dining while the Chicory Lounge provides an intimate meeting place for New Orleans style refreshments. The Sweet Dreams Café is a great alternative for those on the run. All guests receive complimentary chocolate chip cookies upon check-in.

300 Canal Street • ☎️ (504) 581-1300
Rates: Single $149 Double $159

8. EMBASSY SUITES HOTEL NEW ORLEANS
Embassy Suites has a distinctive flair for making conventioneers feel welcome in more than 90 cities in over 34 states, but especially in one of America’s favorite cities...New Orleans! Located in the heart of the Arts and Warehouse District, only two short blocks away from the Ernest N. Morial Convention Center and a short distance from the French Quarter, the Embassy Suites blends the old with the new. In addition to having all suite accommodations, Embassy Suites offers complimentary cooked-to-order breakfast and a two-hour Manager’s reception daily to all guests. It’s the Embassy Way.

*An application for Associate Membership may accompany this form, but these should be submitted by February 16, 1998, as review of the Associate Membership application may delay registration. Students must enclose a statement, signed by the registrar, dean, or department head of their university or college on official letterhead, confirming their status. Postdoctoral fellows or physicians in training do not qualify for the student registration rate. Persons wishing to register at the associate member rate in New Orleans must submit applications no later than March 6, 1998, to ensure time for review of their applications.

*Active, corresponding, and associate members of the AACR who have paid dues for 1998 and registrants who pay the nonmember fee receive the *Proceedings* automatically. If these members or nonmembers check this box and pay the fee, they will receive an additional copy of the *Proceedings*.

- Optional payment for registrants outside of the U.S. and Canada only. Registrants paying this surcharge will receive meeting publications via airmail before the annual meeting. This service will not be available after February 2, 1998.

**REFUND POLICY**

Refunds on registration fees will be granted on written request received in the AACR Office by March 20, 1998. Requests received after this date will not be honored. Receipts and badges (if they have been mailed) must be returned to the AACR Office with the refund request. A cancellation fee of $35 will be deducted from all refunds to cover administrative costs.
LATE-BREAKING RESEARCH SESSION
AT THE AACR ANNUAL MEETING
Tuesday, March 31, 1998

Time has been set aside for the presentation of a few definitive reports of highly significant and timely findings in the field. Criteria for the selection of these presentations and instructions for submission of abstracts are as follows:

INSTRUCTIONS FOR SUBMISSION OF LATE-BREAKING ABSTRACTS

1. The work to be presented must be of major novelty and significance, e.g., the characterization of a new gene in familial cancer or the discovery of a new diagnostic marker, and should not have been previously published in a peer-reviewed scientific journal or presented at a national meeting.

2. The abstract must be sponsored by an AACR member in good standing (dues paid for 1998).

3. Each member in good standing may sponsor only one abstract for this session whether or not he or she sponsored an abstract last October for the regular annual meeting program. If an associate member is the sponsor, the abstract must also be endorsed by an active or corresponding member in good standing. In this case, the endorser does not forfeit the opportunity to sponsor a late-breaking abstract.

4. Abstracts must be typed on one side of one sheet of white paper.

5. All text on the page must fit within an area 6 1/2" wide and 9" high (16.5 cm X 22.9 cm) with margins of at least 1" (2.5 cm) on the top, bottom, and sides of the page.

6. Each abstract must be accompanied by a covering letter from the sponsor explaining why the work is novel and significant enough to be considered for this late-breaking research session and certifying that the findings became available after the annual meeting abstract deadline of October 28, 1997. This letter must contain the sponsor’s complete mailing address, FAX number, and E-mail address (if available) so that we can communicate the scheduling decision of the Program Committee.

7. Abstracts and covering letters must be received in the AACR Office by 5:00 p.m. Eastern Time on February 27, 1998. FAX transmissions are not acceptable. Carrying envelopes should be clearly marked "Late-Breaking Abstract," and should be addressed to American Association for Cancer Research, Public Ledger Building, Suite 826, 150 South Independence Mall West, Philadelphia, PA 19106-3483. If you wish to receive acknowledgment of receipt of your abstract, enclose a self-addressed post card with appropriate postage affixed. Accepted abstracts will not be published since they will be received after the Proceedings of the American Association for Cancer Research has been printed; however, they will be distributed at the session in New Orleans.

8. A special subcommittee of the Program Committee appointed by President Donald S. Coffey will select the papers to be presented. Presenters of accepted papers will be notified via FAX no later than March 16, 1998.
The American Association for Cancer Research (AARC) is a scientific society consisting of over 13,500 laboratory and clinical cancer researchers. It was founded in 1907 "to facilitate communication and dissemination of knowledge among scientists and others dedicated to the cancer problem; to foster research in cancer and related biomedical sciences; to encourage presentation and discussion of new and important observations in the field; to foster public education, science education, and training; and to advance the understanding of cancer etiology, prevention, diagnosis, and treatment throughout the world." Members of the AARC enjoy the following benefits:

- the opportunity to subscribe to AARC's four prestigious journals: Cancer Research, Clinical Cancer Research, Cell Growth & Differentiation, and Cancer Epidemiology, Biomarkers & Prevention, at reduced member rates.

  * Cancer Research publishes about 6,300 pages per year of timely and significant research in the broad subfields of cancer research. With over 69,000 citations to its articles per year, it is the most highly cited journal in the cancer field and is 16th among 4,500 top journals in all scientific fields worldwide.

  * Clinical Cancer Research, our monthly clinical journal, already has more than 4,500 subscribers, and encompasses high-quality clinical and translational cancer research. In addition to preclinical research that bears on human disease, it publishes clinical trials evaluating new treatments for cancer preclinical studies that lead to clinical trials.

  * Cell Growth & Differentiation, the Association's journal covering the molecular biology of cancer, is dedicated to bringing cutting-edge molecular cancer research rapidly to print. With more than 1,800 subscribers, this monthly journal has established itself as an important source of significant new data in molecular oncology. In 1997 Dr. Joseph R. Nevins became the new Editor-in-Chief of this journal.

  * Cancer Epidemiology, Biomarkers & Prevention, features new findings in cancer epidemiology, risk assessment and carcinogenesis, cancer prevention and control, and biomarkers for cancer detection. In 1997 Dr. Frederick P. Li became the new Editor-in-Chief of this monthly publication.

- the privilege of sponsoring a proffered paper (abstract) for consideration for presentation at the AARC annual meeting: (The AARC annual meeting is attended by more than 6,500 scientists from around the world and is the meeting you can't afford to miss. Scientists consider our annual meeting the most important multidisciplinary cancer meeting which encompasses basic research, clinical cancer research, and the exciting interface area of translational research.)

- an advance copy of the Program and Proceedings of the American Association for Cancer Research that contains over 4,000 abstracts of proffered papers presented at the annual meeting;

- reduced registration rates at annual meetings;

- priority notice of small, focussed meetings in the AARC's exciting series of Special Conferences in Cancer Research;

- substantially reduced registration rates for Special Conferences;

- opportunities for participation in AARC meetings in North America and abroad with other scientific societies around the world;

- receipt of AARC Newsletters and other important announcements;

- early notification of and reduced rates for participation in the AARC Employment Register;

- an up-to-date Directory of Members containing names and addresses of over 13,500 member researchers in the cancer field;

- the professional benefits of AARC's public education activities concerning funding for cancer research and press coverage of the latest research findings;

- the opportunity to participate in three Summer Workshops that foster knowledge in the cancer field for young investigators;

- the facilitation of informal scientific exchange with leading researchers in the cancer field; and

- many more fringe benefits and services for members.
FEBRUARY 16-21, 1998

Innovative Molecular Biology Approaches to the Prevention, Diagnosis, and Therapy of Cancer

Joint Meeting with the Japanese Cancer Association

Chairpersons: Edward Bresnick, Worcester, MA; Kaoru Abe, Tokyo, Japan

Maui Marriott Resort, Maui, HI

MARCH 28-APRIL 1, 1998

89th Annual Meeting

Chairperson: Frank J. Rauscher III, Philadelphia, PA

Morial Convention Center, New Orleans, LA

JUNE 14-18, 1998

Proteases and Protease Inhibitors in Cancer

Co-Sponsored by Acta Pathologica Microbiologica

Immunologica Scandinavia

Chairpersons: Keld Daño, Copenhagen, Denmark; and Lynn M. Matrisian, Nashville, TN

Nyborg Strand Conference Center, Nyborg, Denmark

SEPTEMBER 24-28, 1998

Cellular Targets of Viral Carcinogenesis

Chairperson: Thea D. Tlsty, San Francisco, CA

Co-Chairpersons: Don Ganem, San Francisco, CA; Peter M. Howley, Boston, MA; Carol L. Prives, New York, NY; and Eileen P. White, Piscataway, NJ

Marriott’s Laguna Cliffs Resort, Dana Point, CA

OCTOBER 14-18, 1998

Gene Regulation and Cancer (10th Anniversary of the AACR Special Conferences)

Chairpersons: Phillip A. Sharp, Cambridge, MA; Jacqueline A. Lees, Cambridge, MA, and Steven L. McKnight, Dallas, TX

The Homestead, Hot Springs, VA

NOVEMBER 11-15, 1998

Endogenous Sources of Mutations

Chairpersons: Lawrence J. Marnett, Nashville, TN; James A. Sweeney, Chapel Hill, NC; Tomas A. Lindahl, Herts, England

Sanibel Harbour Resort and Spa, Ft. Myers, FL

DECEMBER 2-6, 1998

New Approaches to Controlling Prostate Cancer

Moderator: Donald S. Coffey, Baltimore, MD

Chairpersons: Jonathan W. Simons, Baltimore, MD, and Kenneth J. Pienta, Ann Arbor, MI

Hyatt Grand Champions Resort, Indian Wells (Palm Springs), CA

JANUARY 8-12, 1999

The Steroid Receptor Superfamily

Chairpersons: M. Geoffrey Rosenfeld, La Jolla, CA; Additional Chairperson to be Announced

Renaissance Esmeralda Resort, Indian Wells (Palm Springs), CA

JANUARY 31-FEBRUARY 5, 1999

Cancer Biology and the Mutant Mouse: New Methods, New Models, New Insights

Chairpersons: Tyler Jacks, Cambridge, MA; Ronald A. DePinho, New York, NY

Keystone Resort, Keystone, CO

AACR members will receive brochures on the above conferences as soon as they are available.

Nonmembers should call or write:

American Association for Cancer Research
Public Ledger Building, Suite 826
150 South Independence Mall West
Philadelphia, PA 19106-3483
215-440-9300 • 215-440-9313 (FAX)

AACR-HBCU Faculty Award in Cancer Research
Supported by a generous grant provided by the
Comprehensive Minority Biomedical Program of the National Cancer Institute

The American Association for Cancer Research (AACR) is extremely pleased to announce the availability of Awards in Cancer Research for full-time faculty members of Historically Black Colleges and Universities (HBCUs). Supported by a generous grant provided by the Comprehensive Minority Biomedical Program of the National Cancer Institute, AACR-HBCU Faculty Awards in Cancer Research will be presented annually by the American Association for Cancer Research to scientists at the level of Assistant Professor or above at an HBCU who are engaged in meritorious basic, clinical, or translational cancer research.

The purpose of this Award program is to increase the scientific knowledge base of faculty members at Historically Black Colleges and Universities, and to encourage them and their students to pursue careers in cancer research. Awardees will receive financial support for their participation in the 89th AACR Annual Meeting, March 28-April 1, 1998, in New Orleans, LA. The 1998 AACR Annual Meeting will attract approximately 7,500 scientists from around the world; will provide the latest findings in the most rapidly developing areas of basic, clinical, and translational cancer research; and will feature major presentations from prominent scientists who are making important advances in the field.

The American Association for Cancer Research, a scientific society of more than 13,500 researchers working in all subfields of basic, clinical and translational cancer research, is extremely pleased to sponsor this faculty award.

For Further Information
If after reading the enclosed information you have any questions concerning the application process or Award criteria, or if you have not received the Official Application Form, contact: HBCU Award Coordinator, American Association for Cancer Research, Telephone: (215) 440-9300, FAX: (215) 440-9412, E-mail: felder@aacr.org.
SPECIAL LECTURES
Presidential Address: Donald S. Coffey
Clowes Award: Arnold J. Levine
Burchenal Award: Bernard Fisher
Rosenwald Award: Lee Nadler
Cain Award: Bruce A. Chabner
Rhoads Award: Michael Dean
AACR-ACS Award
Goodman Lecture

PLENARY SESSION
New Horizons in Cancer Research (Frank J. Rauscher, III)

SYMPOSIA
Molecular Determinants of Cellular and Tumor Responses to Radiation (Michael B. Kastan)
The Promise of Oncogene-based Drug Targeting (Alex Matter)
Cancer Gene Therapy: New Concepts and Clinical Applications (Jack A. Roth)
Reconstruction of Human Tumorigenesis and Progression: Cancer Genetics In Model Organisms (Anthony Wynshaw-Boris)
Tumor Angiogenesis and Microcirculation: An Integrated Approach (Rakesh K. Jain)
Signaling by wnt-1, β-catenin, and the APC Tumor Suppressor in Cancer (Paul Polakis)
Prostate Cancer: Basic Science and Clinical Aspects (Leland W. K. Chung)
The Molecular Basis of Immune Recognition: Basic Concepts with Therapeutic Implications (Giorgio Trinchieri)
The bcl-2 Family: Death Agonists and Antagonists (Stanley J. Korsmeyer)
Telomerase and Telomeres in Normal and Neoplastic Cells (Ronald A. DePinho)
Inherited Cancer Susceptibility Syndromes: Genetics, Genes, and Function (Daniel A. Haber)
New Concepts in Chemotherapeutics and Drug Resistance (Susan Band Horwitz)
Cell Death Signaling Pathways: Caspase Cascades and Effectors/Initiators of Apoptosis (Douglas R. Green)
p73/p53: An Emerging Gene Family (William G. Kaelin)
Breast Cancer: Basic Science and Clinical Aspects (Sofia D. Merajver)
Molecular Targets and Endpoints for Chemoprevention (Waun Ki Hong)
Cancer Biology in Context: Stromal-Epithelial, Cell-Cell, and Cell-ECM Interactions in Normal Development and Cancer (Mina J. Bissell)
Gastrointestinal Cancer: Basic Science and Clinical Aspects (Kenneth W. Kinzler)
Tumor Virology: Molecular Biology and Virology (Karl Münger)
Advances in Cancer Vaccine Development (Dorothee Herlyn)
Molecular Diversity-based Approaches to Anti-Cancer Drug Design (Jack D. Keene)
New Mechanisms of Action of Viral and Cellular Oncogenes (Elizabeth Moran)
Genetic Approaches to Diagnosis: The Impact of Molecular Medicine on Early Detection and Diagnosis (David Sidransky)
Tobacco and Lung Carcinogenesis: Genetics, Biology, and Epidemiology (Adi F. Gazdar)
Transcriptional Regulation of the Neoplastic Phenotype (Frank J. Rauscher, III)
Restoring Drug Sensitivity to Tumors: New Concepts from Tumor Biology and Physiology (William N. Hait)
Emerging Issues for Individual Cancer Susceptibility and Risk Assessment (Fred F. Kadlubar)
Epigenetics and Cancer (Stephen B. Baylin and Peter A. Jones)

CONTROVERSY SESSIONS
Have We Improved the Treatment of Cancer?
Environmental Estrogens and Cancer (Nancy E. Davidson)
Will Multidrug Resistance Modulators Be Effective in the Clinic?

METHODS WORKSHOPS AND EDUCATIONAL SESSIONS
To Be Announced

"MEET-THE-EXPERT" SUNRISE SESSIONS
Cancer Genome Anatomy Project (MCGAP): Update and Potential (Paul S. Meltzer)
JAKs, STATs, and Src Kinases: Obligate Partners in Cytokine Signaling (E. Premkumar Reddy)
Histone Acetylation and Transcriptional Regulation (Tony Kozarides)
Molecular Genetics of Brain Tumors (Sandra H. Bigner)
Genetic Analysis of Tumor Suppression by COX-2 Inhibitors (Makoto M. Taketo)
Sequence-specific Gene Regulation: Application of Ribozymes in Preclinical Models of Cancer (Thale Jarvis)
Gene Transfer to Hematopoietic Progenitors (Fulvio Mavilio)
Genetic Testing for Breast Cancer Susceptibility: Psychosocial and Clinical Research Update (Caryn E. Lerman)
Nuclear Hormone Receptors in Development and Disease (Vincent Giguet)
B-Cell Lymphomas: Genetics and Biology (Riccardo Dalla-Favera)
Hormonal Regulation of Cell Proliferation and Differentiation (Lorraine J. Gudas)
Alterations of Cell Cycle Controls in Cancer (Giulio Draetta)

Proteases in Cancer: Clinical Significance and Mechanisms in Metastasis (Henri Rochefort)
Inherited Cancers of the Kidney: Family Studies, Genes, and Biochemistry (W. Marston Linehan)
Strategies for Combining Chemotherapy and Biotherapy (Antonio C. Buzaid)
Antimetabolites: New Insights into Cell Death/Signal Transduction Pathways as Determinants of Drug Sensitivity (Steven Grant)
Interleukin-12: Biological and Clinical Developments (Giorgio Trinchieri)
Chemoprevention Trials: Progress and Promise (Scott M. Lippman)
Growth Factor Signaling: The IGF-1, IGF-2 System in Cancer (Haim Werner)
Pathogenesis of Acute Promyelocytic Leukemia (Pier P. Hopf)
Radiation Sensitization: Basic and Clinical Aspects (Rupert Schmidt-Ullrich)
Advances in Mechanisms of Drug Resistance: Basic Science and Clinical Implications (Susan E. Bates)
Harnessing the Immune System in Tumor Therapy: Manipulation, Stimulatory and Inhibitory Signals in T Cell Activation (James P. Allison)
Integrin Signaling and Cell Growth Control: Consensus and Controversies (Rudolph L. Janulo)
Issues and Applications in Molecular Epidemiology (Barbara S. Hulka)
Familial Cancer Syndromes: Genetic Tests and Clinical Approaches (Ken Yamaguchi)
Relevance of DNA Damage and Repair for Initiation and Progression of Carcinogens: Recent Advances (Jan H. J. Hoeijmakers)
Chromosomal Translocations: Genetics, Biology, and Protein Function (James R. Downing)
Advances in the Mechanisms of Invasion and Metastasis (Isaiah J. Fidler)
From Slave to Master: The Biological Events During Melanoma Development and Progression (Meenhard Herlyn)
Farnesyl Transferase Inhibitors (Ivan D. Horak)
Topoisomerases: Structure and Function (James Wang)
Progress in Antibody Therapy of Human Cancer (Nancy Hynes)
Animal Models for Chemoprevention (Michael N. Gould)

**ORDER TODAY!**

Members, American Association for Cancer Research:
Contact the AACR for special rates at (215) 440-9300; FAX (215) 440-9313.

Members subscribing to any AACR journal automatically receive the Proceedings of the AACR.

Institutions: Purchase all four journals and save 15% off the total subscription price, excluding postage outside U.S.

Canada: Add 7% GST to all orders. MD: Add state sales tax.

Nonmembers, contact: American Association for Cancer Research Subscription Office P.O. Box 11806 Birmingham, AL 35202 1-800-633-4934 or (205) 995-1567 FAX (205) 995-1588
