

## INFORMATION FOR CONTRIBUTORS

*CANCER RESEARCH* is a monthly journal devoted to the prompt publication of original observations in cancer research. Manuscripts will be considered for publication on condition that they are submitted solely to this journal and provided that they are carefully prepared in conformity with the style of *CANCER RESEARCH*. They must be accompanied by an abstract of the whole paper, complete in itself, and limited to about 3 per cent of the length of the article. Manuscripts must be typewritten, double-spaced (including references), and the original copy submitted. Papers should not exceed 10 pages (9000 words) in length, including tables and illustrations. If they do, authors may be charged for additional pages at cost.

Illustrations in moderate numbers will be accepted if they are of good technical quality and essential for the clarity of the presentation. Plates in color and excessive numbers of illustrations, if accepted, will be charged to the author. Illustrations should be sent unmounted, except when numerous illustrations are trimmed and fitted together on heavy bluish-white mounts within a space of 15 × 21 cm. or less to form one plate. Drawings should be made with pen and India ink. Tables should be typed with double spacing on separate sheets. Since horizontal and vertical lines are omitted because of their expense, extra care must be taken to make tables easily understood by the reader.

References to books must give name of author, complete title, place of publication, name of publisher, year, and page. References to an article must give name of author, full title of paper exactly as it appears, name of journal (abbreviated as in the *Quarterly Cumulative Index Medicus*), volume number, inclusive page numbers, and year. The following examples illustrate the desired punctuation and arrangement:

EWING, J. Neoplastic Diseases. A Treatise on Tumors, p. 4. 4th ed. Philadelphia and London: W. B. Saunders Co., 1940.

SAPHIR, O., and PARKER, M. L. Intracystic Papilloma of the Breast. *Am. J. Path.*, 16:189-210, 1940.

Reprints may be ordered before publication, at cost, according to a schedule of prices accompanying the galley proof of the article.

### ADDRESSES

Manuscripts, books for review, and correspondence related to contributions should be addressed to Dr. Paul E. Steiner, Editor-in-Chief, *CANCER RESEARCH*, Department of Pathology, University of Chicago, Chicago 37, Illinois.

Correspondence regarding subscriptions, reprints, advertising, etc., should be addressed to the University of Chicago Press, 5750 Ellis Avenue, Chicago 37, Illinois.
