CONTENTS

Katharine P. Hummel and C. C. Little. Studies on the Mouse Mammary Tumor Agent. I. The Agent in Blood and Other Tissues in Relation to the Physiologic or Endocrine State of the Donor ........................................ 129

Katharine P. Hummel, C. C. Little, and Mary S. Eddy. Studies on the Mouse Mammary Tumor Agent. II. The Neutralization of the Agent by Placenta ........................................ 135

Katharine P. Hummel and C. C. Little. Studies on the Mouse Mammary Tumor Agent. III. Survival and Propagation of the Agent in Transplanted Tumors and in Hosts That Grew These Tumors in Their Tissues ........................................ 137

Charles D. Stevens, Alice Lee, Paul H. Stewart, Patricia M. Quinlin, and Paul R. Gilson. The Distribution of Radioactivity in Tumor-bearing Mice after Injection of Radioactive Iodinated Trypan Blue ........................................ 139

M. J. Taylor and E. C. MacDowell. Mouse Leukemia. XIV. Freeing Transplanted Line I from a Contaminating Virus ........................................ 144

Hugh J. Creech, Reed F. Hankwitz, Jr., and D. R. A. Wharton. Further Studies of the Immunological Properties of Polysaccharides from Serratia marcescens (Bacillus prodigiosus). I. The Effects of Passive and Active Immunization on the Lethal Activity of the Polysaccharides ........................................ 150

Howard E. Skipper and Juanita B. Chapman. Carbamates in the Chemotherapy of Leukemia. VI. The Influence of Urethan and Blood Acid-Base Equilibrium on Mouse Chloroleukemia 1949 ........................................ 158

Albert Tannenbaum and Herbert Silverstone. The Genesis and Growth of Tumors. IV. Effects of Varying the Proportion of Protein (Casein) in the Diet ........................................ 162

Arnold J. Kremen, Samuel W. Hunter, George E. Moore, and Claude R. Hitchcock. Distribution of Tracer Doses of Methionine Tagged with Radiosulfur in Normal and Neoplastic Tissue ........................................ 174

Charles Huggins, Gerald M. Miller, and Elwood V. Jensen. Thermal Coagulation of Serum Proteins. II. Deficient Coagulation in Cancer and the Iodoacetate Index ........................................ 177

C. G. Grand. Cytoplasmic Inclusions and the Characteristics of Hodgkin’s Disease Lymph Nodes in Tissue Culture ........................................ 183

Announcement of Annual Meeting ........................................ 187
