Supplementary Figure S2

Mdivi-1 toxicity

Survival Fraction (%) vs. Mdivi-1 concentration (µM)

- Control
- 6 hours
- 12 hours

Legend:
- Blue line: 6 hours
- Red line: 12 hours

Graph shows the survival fraction (%) against Mdivi-1 concentration (µM) for control and treated samples, with the effect of Mdivi-1 toxicity evident at higher concentrations.
