

INTRODUCTION

This is the first of the series **CANCER CHEMOTHERAPY SCREENING DATA** to be published in 1960. The complete listing of previous issues may be found in the Introduction to **CANCER CHEMOTHERAPY SCREENING DATA IV**, published as Part 2 of the November, 1959, issue of **CANCER RESEARCH**.

Additional supplements in this series will be published later in 1960, and a complete cumulative index will appear in the last supplement published this year.

* * *

An error was made in this issue in assigning certain entry numbers which had previously been used in the November, 1959, supplement; this was discovered too late to permit correction throughout this supplement. The duplicated numbers (16552-16651) are identified by an "a" after the numbers in the data tables, but they are not so marked in the index for this issue. The next cumulative index will, however, contain this correction. Thus the entry numbers 16552-16651 in the index for this issue refer to 16552a-16651a in the tables for this issue only.
