
NOTICE TO AUTHORS

Before preparing manuscripts for submission to **CANCER RESEARCH**, authors are urged by the Editor to consult the detailed **INSTRUCTIONS TO AUTHORS** which are given in the January 1970 issue of the Journal. Copies of these instructions are available from the Editorial Office upon request.

Mr. Lawrence Welk

Learn the seven warning signals of cancer.
You'll be in good company.

1. Unusual bleeding or discharge.
2. A lump or thickening in the breast or elsewhere.
3. A sore that does not heal.
4. Change in bowel or bladder habits.
5. Hoarseness or cough.

6. Indigestion or difficulty in swallowing.
7. Change in a wart or mole.

If a signal lasts longer than two weeks, see your doctor without delay.

It makes sense to know the seven warning signals of cancer. It makes sense to give to the American Cancer Society.
