NOW AVAILABLE

THE PROCEEDINGS OF THE EURES SYMPOSIUM ON

# THE MACROPHAGE AND CANCER

ISBN 0 9506022 0 5

This publication consists of 8 review papers plus 35 original communications that cover the topic under 6 headings.

1. **The macrophage (3 rev.)**
2. **Mechanisms by which macrophages exert anti-tumour activity (1 rev. 7 comm)**
3. **The anti-tumour effectiveness of macrophages *in vivo* ( 1 rev. 8 comm)**
4. **The influence of tumour cell products on macrophages ( 1 rev. 9 comm)**
5. **Macrophages in solid tumours ( 1 rev. 3 comm)**
6. **Macrophages in human cancer ( 1 rev. 8 comm)**

These papers were presented at the European Reticuloendothelial Society Symposium held in Edinburgh, Scotland from September 12th-14th, 1977.

Available from Christmas 1977, it is approx. 450 pages in length and is printed in offset litho. To purchase send £12 or US\$20 incl. surface postage ( cheques payable to *The Macrophage and Cancer Proceedings Account* ) to:- **The Editorial Office, Department of Surgery, University of Edinburgh Medical School, Teviot Place, Edinburgh EH8 9AG, Scotland**

They said tuberculosis  
was hopeless.

---

They said polio  
was hopeless.

---

They said smallpox  
was hopeless.

Cancer is only a disease.

Even when most people considered the struggle against polio hopeless, the people who worked in medical research believed they would someday find the answer.

The same was true for tuberculosis. And for smallpox. The same is true for cancer now.

We know because we hear from people doing medical research in

laboratories all over the country. They talk to us because they all need support. They are all excited because they all think they're on the right track. And that the work they're doing will unlock a secret and lead to a solution for cancer. And you know what?

At least one of them is right. But which one?

We must support them all.

**American Cancer Society** †

We want to cure cancer in your lifetime.
