American Cancer Society

**PHYSICIANS' RESEARCH  
TRAINING FELLOWSHIPS**

---

---

The American Cancer Society has initiated a program of individual training fellowships for physicians. The purpose of these grants is to provide the opportunity for selected physicians to arrive at a level of competence in research comparable to that of recent Ph.D. graduates. Training may be either in basic or clinical fields relevant to cancer research and must be full-time; that is, the awardee may not have any clinical obligations during the training period. In addition, the training period may not be designed as part of a residency protocol required by the various specialty boards. Grants will be awarded for one or two years. The first deadline for receipt of applications will be **October 1, 1981** for funding to begin July 1, 1982. The annual stipend will be \$15,000.

Application forms and additional details concerning these fellowships can be obtained by writing:

**Research Department  
American Cancer Society  
777 Third Avenue  
New York, N.Y. 10017  
Tel: (212) 371-2900**
