If you're worried about cancer, remember this.  
Wherever you are, if you want  
to talk to us about cancer, call us.  
We're here to help you.

2,500,000 people fighting cancer.

KEEP UP WITH THE LATEST DEVELOPMENTS  
IN  
**Cancer Research**

THE #1 CITED JOURNAL IN ITS FIELD

**Subscribe to *Cancer Research***—the leading citation source of original studies in cancer research and cancer-related biomedical science. Issued semimonthly, *Cancer Research* publishes over 7,000 pages per year that keep you abreast of the most significant and timely findings in your field through the following regular features:

- **The most up-to-date articles** in basic research and clinical and epidemiological investigations by authors from more than 20 countries and the United States
- **Perspectives in Cancer Research**, in which leading investigators explore contemporary and at times controversial topics
- **Supplemental issues** developed from symposia on relevant subjects—*Symposium on Estrogen Receptor Determination with Monoclonal Antibodies*, the 1986 supplement, presented reports from an international conference on new immunoassay techniques for evaluating breast cancer and other types of cancer.
- **Proceedings of the American Association for Cancer Research**, a special annual issue that offers stimulating new research ideas in abstract form

**ORDER THE MOST HIGHLY CITED JOURNAL IN ITS FIELD TODAY**

Yes, I want to keep up with the latest developments in *Cancer Research*. Enter my one-year subscription.

1987 Subscription Rates:  Individual, \$120     Institutional, \$230

Add \$50 for delivery outside the US and Canada. Subscriptions payable in advance (in US currency or equivalent) to:

WAVERLY PRESS, INC.

# **\$500,000,000 OF RESEARCH HELPED CLIFF SHAW PLAY BASEBALL AT AGE 85.**

In November 1973, Cliff Shaw was stricken with cancer.

Fortunately, it was detected early enough. And with surgery, Cliff was able to continue living a healthy, active life.

There was a time when such a diagnosis was virtually hopeless.

But today, cancer is being beaten. Over the years, we've spent \$500,000,000 in research. And we've made great strides against many forms of cancer.

With early detection and treatment, the survival rate for colon and rectal cancer can be as high as 75%. Hodgkin's disease, as high as 74%. Breast cancer, as high as 90%.

Today, one out of two people who get cancer gets well. It's a whole new ball game.

 **AMERICAN CANCER SOCIETY®**

Help us keep winning.
