EIGHTIETH ANNUAL MEETING OF THE AMERICAN ASSOCIATION FOR CANCER RESEARCH, INC.

The scientific sessions of the 80th Annual Meeting of the American Association for Cancer Research, Inc. will be held at the Moscone Convention Center, San Francisco, California, from 8:00 a.m., Wednesday, May 24, 1989, until midday on Saturday, May 27, 1989. After the conclusion of the regular scientific sessions, the Association will sponsor several workshops on laboratory techniques during the afternoon of Saturday, May 27, 1989. The AACR meeting will be preceded by that of the American Society of Clinical Oncology to be held on May 21-23, 1989, in the Moscone Center.

Members of the AACR and interested nonmembers will be able to register in advance of the 1989 meeting. Forms for this purpose were mailed to members as part of the First Announcement of the meeting in early autumn and can also be found in the December 1, 1988 through the March 15, 1989 issues of *Cancer Research*. Additional forms may be obtained by writing to the office of the American Association for Cancer Research. On-site registration will be conducted at the Moscone Center beginning in the afternoon of Tuesday, May 23, 1989, and will continue throughout the meeting. On Tuesday, May 23, only, on-site registration will also be held in the evening at the San Francisco Hilton, the Association's headquarters hotel, in conjunction with an opening reception.

The deadline for submitting abstracts for presentation at the meeting was December 8, 1988. Abstracts that were submitted in conformity with regulations and were considered to be of acceptable quality will be published in the March 1989 *Proceedings of the American Association for Cancer Research*. All subscribers to the journal *Cancer Research* will receive a copy of the *Proceedings* in April.

Forms for the Association's Employment Register appear in this issue. Again this year registered employers and candidates will be able to place listings in the *Proceedings* and in two issues of *Cancer Research*. The Association will also schedule appointments for employers and candidates during the annual meeting. To ensure full participation in the Employment Register forms for the service should be submitted to the Association Office by February 1, 1989.

Further information may be obtained from the office of the American Association for Cancer Research: 530 Walnut Street, 10th Floor, Philadelphia, PA 19106. Telephone: 215-440-9300.

TRAVEL GRANTS FROM THE COMPREHENSIVE BIOMEDICAL PROGRAM OF THE NATIONAL CANCER INSTITUTE

Funds will be provided to help a limited number of minority scientists to attend the AACR and ASCO Annual Meetings. The NCI is funding this program in order to encourage participation in the annual meetings by predoctoral students, postdoctoral fellows, and physicians in training from minority groups which have traditionally been underrepresented in cancer research. Eligible scientists are those who are either engaged in cancer research, or who have training that could lead to contributions in this field. By action of the AACR Board of Directors, only citizens of the U.S. and Canada or scientists who are permanent residents in those countries may receive one of these awards. Awardees will be selected by an advisory committee consisting of members of AACR and ASCO based on a completed application and letters of reference. The maximum award available will be \$350 plus economy air or land transportation to and from the meeting.

Applicants will be chosen from both minority institutions and the larger bodies of universities and research institutions. Although preference will be shown to those who are authors of abstracts accepted for presentation at the annual meetings, this is not a requirement. Applications will be accepted until March 1, 1989. Awardees are expected to attend at least three full days of scientific sessions. They are also expected to submit a brief report after the meeting commenting on the sessions they attended.

Application forms and further information regarding travel awards to attend either the AACR or the ASCO meeting, or both, are available from:

AACR SPECIAL CONFERENCES IN CANCER RESEARCH

A number of meetings are now being organized in the AACR's new series of smaller scientific meetings. The topics, dates, locations, and program committees for these meetings are given below. When full details of each meeting are available, AACR members will be the first to receive complete brochures and application forms for participation in these important conferences. Nonmembers may receive this information by sending their names and addresses to Meetings Mailing List, AMERICAN ASSOCIATION FOR CANCER RESEARCH, 530 Walnut Street, 10th Floor, Philadelphia, PA 19106.

ROLE OF DNA VIRUSES IN HUMAN TUMORS

January 22-26, 1989

Catamaran Hotel, San Diego, CA

Chairman

Harald zur Hausen, German Cancer Research Center, Heidelberg, Federal Republic of Germany

Program Committee

R. Palmer Beasley, University of Texas School of Public Health, Houston, TX

George Miller, Yale University School of Medicine, New Haven, CT

Jesse W. Summers, University of New Mexico School of Medicine, Albuquerque, NM

MOLECULAR EVENTS IN MUTATION AND CANCER

May 21-23, 1989

Tiburon Lodge & Conference Center, Tiburon (Marin County), CA

Co-Chairmen

B. A. Singer, University of California, Berkeley, CA

D. J. Patel, Columbia College of Physicians and Surgeons, New York, NY

GENE EXPRESSION IN CANCER CELLS

May 22-24, 1989

San Francisco Hilton, San Francisco, CA

Chairman

Inder M. Verma, Salk Institute, San Diego, CA

Topics and Speakers

Suppressor Oncogenes: Webster K. Cavenee, Ludwig Institute for Cancer Research, Montreal, Quebec, Canada

myc: Mark T. Groudine, Fred Hutchinson Cancer Research Institute, Seattle, WA

EGF Receptor: Joseph Schlessinger, Rorer Biotechnology, Inc., Rockville, MD

Steroid Receptors: Ronald M. Evans, Salk Institute, San Diego, CA

E1A and Cyclic-AMP Regulation: Thomas E. Shenk, Princeton University, Princeton, NJ

fos and *jun*: Inder M. Verma

mos: George F. Vande Woude, Jr., NCI-Frederick Cancer Research Facility, Frederick, MD

MOLECULAR ASPECTS OF GROWTH CONTROL

Joint Meeting with the Japanese Cancer Association

May 28-31, 1989

Sheraton Waikiki, Honolulu, HI
