HIGHLIGHTS

85TH ANNUAL MEETING OF THE AMERICAN ASSOCIATION FOR CANCER RESEARCH (AACR) APRIL 10-13, 1994, SAN FRANCISCO, CA

THE ESSENTIAL INFORMATION RESOURCE FOR ALL CANCER RESEARCHERS

A TRADITION OF BROAD SCIENTIFIC EXCELLENCE CONTINUES.

Because of its worldwide reputation for comprehensive cancer programs at the basic, clinical, and translational levels, the AACR Meeting is the event that all cancer researchers cannot afford to miss.

- Internationally renowned basic and clinical investigators will organize sessions on the most promising developments in the field.

- Chairperson of the Program Committee, Karen S. H. Antman, Chief of the Division of Medical Oncology at the Columbia Presbyterian Medical Center in New York, has made certain that the AACR Meeting will represent the full spectrum of the most timely and significant cancer research being conducted today.

- This year's Program Committee has emphasized those areas that show promise for the translation of laboratory findings to the clinic.

- The Program Committee will organize **multidisciplinary organ site sessions** on topics such as breast, prostate, lung, and pediatric cancers.

- **Abstract categories** have been revised to include more clinically relevant topics such as biological therapy and radiation oncology, and other modifications have been made to reflect contemporary advances in cancer and biomedical research.

- Scientific sessions will explore **the important clinical implications of new molecular biology** findings such as tumor suppressor genes, apoptosis, and cell cycle control.

THE NEW MEETING FORMAT PROMOTES SCIENTIFIC INTERACTION AND REDUCES TRAVEL COSTS FOR PARTICIPANTS.

While maintaining excellence and breadth of scientific coverage in the annual meeting program, the format has been modified substantially in order to reduce scheduling conflicts and travel costs, and to increase substantially the opportunities for slide presentations of proffered papers in minisymposia. The AACR Meeting will

- **Take place in April**, well before the June 1 NIH grant submission deadline and the Memorial Day Holiday.

- **Begin on Sunday morning, April 10, and end on Wednesday afternoon, April 13**, allowing registrants to obtain significantly reduced airfares that require Saturday night stayovers.

- **Include four full days of scientific sessions.** More papers will be presented in minisymposia. Also, it will be possible to attend three-hour symposia and still have one hour to view posters.

- **Provide an opportunity to learn state-of-the-art research techniques** at methods workshops scheduled on Saturday afternoon, April 9, the afternoon before the annual meeting officially begins.

- **Feature an opening plenary session and 26 special symposia that include invited presentations by the leaders in the field.**

- **Present six major lectures** covering reviews of state-of-the-art basic, clinical and translational cancer research.

- **Offer opportunities for small-group interactions** with these leaders during an increased number of "Meet the Expert" Sunrise Sessions each morning as well as sessions dealing with scientific controversies.

A FULL COMPLEMENT OF SERVICES AND PROGRAMS MEETS YOUR OTHER PROFESSIONAL NEEDS.

- The **rapidly growing exhibit show** presents the products and services essential to laboratory and clinical research programs.

- The **AACR Employment Register** lists available positions and candidates and arranges appointments between employers and potential employees during the meeting.

- **Women in Cancer Research (WICR) programs** provide guidance on career advancement for women in the cancer field and offer insights to all cancer investigators.

- The **Minority Issues Committee's Careers Symposium** brings together senior and junior investigators to discuss pathways and obstacles to successful research careers in cancer and biomedical research in various sectors.

- **NCI Program Officers and Study Section Leaders** meet informally with registrants and answer questions about the grant review process.

- The **AACR Associate Member Meeting** enables young investigators in the AACR to meet officers and directors and suggest new Association programs to meet their professional needs. (Nonmembers are welcome to attend.)

AN OUTSTANDING MEETING SITE IS NOW EVEN MORE APPEALING.

- The Moscone Center has added new meeting space while remaining one of the most compact venues that can accommodate the AACR Meeting.

- The new San Francisco Marriott, only one block from Moscone, will serve as headquarters hotel.

- A variety of other accommodations are available, including economical properties, well-known luxury hotels, and a number of San Francisco's famous boutique hotels.

- The Association's Official Travel Agent, **Uniglobe**, will offer **special airfare discounts** on United Airlines and Delta Air Lines. Call 800-243-4370 or (from outside of North America) 215-628-3322 or FAX 215-628-0310.

- Bonded child care will be available at the San Francisco Marriott Hotel.

- Accompanying persons will have access to tours of several unique local cultural and natural attractions.

AN EXPANDED PROGRAM OF TRAVEL AWARDS MAKES IT EASIER FOR YOUNG INVESTIGATORS TO ATTEND THE MEETING.

- **Upjohn Company and CIBA-Geigy Travel Awards** for medical and graduate students, physicians in training, and postdoctoral fellows who are authors of abstracts that have been highly rated by the Program Committee. Eligible scientists need only submit an abstract and check Box 6A on the abstract form for automatic consideration.

- **Travel Awards from the Comprehensive Minority Biomedical Program of the NCI** for graduate and medical students, physicians in training, and postdoctoral fellows from minority groups considered underrepresented in cancer research by the NCI, *i.e.* African Americans, Hispanic Americans, Native Americans, Native Pacific Islanders, and Alaskan Americans. Check Box 6B on the abstract form or call the AACR Office for an application form.

- **WICR Student/Trainee Travel Awards** for graduate and medical students, physicians in training, and postdoctoral fellows who have submitted an abstract for the meeting and have been nominated by a member in good standing of Women in Cancer Research. Further information will appear in the next announcement.

- **Other travel award programs will be announced in future meeting brochures.**

HOW TO PARTICIPATE

1. **Submit an abstract.** See official forms on Pages 11 and 13, instructions on Pages 3-7, abstract categories on Pages 8-9, and sample abstract on Page 10. **ABSTRACT DEADLINE IS OCTOBER 25, 1993.**

2. **Register for the meeting** using the advance registration form on Page 19. Send the form with payment by **February 18, 1994**, to obtain reduced registration rates and to ensure the receipt of your badge and meeting publications in advance of the annual meeting.

3. **Review the scientific program on your home or office computer in advance of the meeting** by adding \$15 to your advance registration fee payment. Check the appropriate box on the registration form and be sure to specify the desired diskette format.

4. **Reserve a hotel room.** On Page 23 you will find the official housing form; on Page 21, instructions for using the AACR Housing Bureau in San Francisco and a map showing the Moscone Center and all hotels reserving rooms for the AACR Meeting; on Page 22, sleeping room rates; and on Pages 24-5, descriptions of each hotel. **Submit your form as soon as possible** to obtain your first choice hotel room and, in any case, by **March 9, 1994.**

5. **Join the AACR.** Application forms for active and corresponding membership appear on Pages 15-16, and for associate membership, on Pages 17-18. Application for membership has been facilitated for many scientists:

- Corresponding members may now sponsor candidates for corresponding, active, and associate membership.

- Eligible scientists from outside of North America may now apply for associate membership.

- The next deadlines for applications for active and corresponding membership are September 1, 1993, and January 1, 1994. Applicants who meet the September 1 deadline will be afforded the opportunity to sponsor an abstract for the 1994 meeting pending their subsequent election to membership.

***THE AACR MEETING IN SAN FRANCISCO, APRIL 10-13, 1994
THE MEETING YOU CANNOT AFFORD TO MISS***

**AMERICAN ASSOCIATION FOR CANCER RESEARCH
85th ANNUAL MEETING**

Moscone Center • San Francisco, California • April 10-13, 1994

**Deadline for Receipt of Abstracts at the AACR Office
OCTOBER 25, 1993**

Regulations Applying to Abstracts and Proffered Papers

Submission of an abstract of a paper for consideration for presentation at the annual meeting of the Association implies that the authors have not previously presented these data at a national scientific meeting and that they are not planning to do so prior to the dates of the AACR annual meeting. The content of all abstracts is kept confidential by the members of the Program Committee during the review and publication process. After review of the abstract by the Program Committee the authors will be notified about its acceptability for presentation. The paper given at the annual meeting must coincide directly with the scientific content of the submitted abstract. If for any reason this is not possible, the paper must be withdrawn from presentation. Only those abstracts that after scientific review by the Program Committee are deemed acceptable for presentation at the annual meeting will be published in the *Proceedings of the American Association for Cancer Research* to be issued in the Spring of 1994. *N.B.* Authors will be charged for production costs of abstracts withdrawn after the *Proceedings* goes to press.

The Program Committee will assign papers at its own discretion to minisymposia, poster discussion sessions, and poster sessions.

Minisymposia. Minisymposia will be planned from submitted abstracts. This format serves as a vehicle for the presentation and extensive discussion of developments in timely areas of cancer research.

Authors whose papers are assigned to minisymposia will be informed about the amount of time available for the delivery of their papers. There will be opportunities for the discussion of each paper scheduled at appropriate intervals during the session. In addition, these sessions will include an introduction and a concluding discussion of the topic.

The Program Committee has identified a number of topics as being suitable for minisymposia and strongly encourages the submission of abstracts in these areas. If a sufficient number of high-quality abstracts are submitted and accepted on these topics, minisymposia will be devised. Authors who submit abstracts in these areas should note that their papers may be scheduled in poster sessions if they cannot be accommodated in minisymposia. Authors need not designate their interest in these sessions on the abstract form; the Program Committee will use computer-aided search techniques to identify appropriate submissions.

SUGGESTED MINISYMPOSIUM TOPICS

Genetic Epidemiology
Hematopoietic Stem Cells
Non-hematologic Stem Cells
Early International Drug Trials
Oncogenic Viruses
Gene Therapy
Angiogenesis
Basic and Clinical Radiation Research
Cervical Cancer
Genetic Instability
AIDS-associated Malignancies
New Aspects of Drug Design
Novel Chemical Structures in Drug Development

Poster Discussion Sessions. Poster discussion sessions will also be scheduled from submitted abstracts and will run for four hours. The usual presentation of posters is supplemented by a focussed discussion of the research areas under consideration. After presentation of posters, there will be a one-hour discussion period led by two chairpersons. Participants will have an opportunity to view the posters again after this discussion.

Prior to the annual meeting, the two chairpersons of these sessions will communicate directly with the authors presenting in the session to obtain more information on the work to be discussed. Authors will be expected to submit the content of their posters to the two chairpersons well in advance of the meeting to maximize the effectiveness of the discussion at the annual meeting.

Poster Sessions. Regular poster sessions will extend for four hours. Authors will be required to be present at their posters for the first three hours of each session. Detailed instructions for the preparation of posters will be sent to all authors whose abstracts are accepted for these sessions.

PRESENTERS PLEASE NOTE:

If you intend to present more than one abstract, you may find that the Program Committee has inadvertently scheduled the papers in different sessions taking place at the same time. Since time limitations preclude the rescheduling of papers to other sessions, it will be the responsibility of the presenting author to find a suitable coauthor to present the other paper(s).

The Association will do its utmost to assist any author who, for religious reasons, cannot present a paper on a particular day of the week. However, the complexities of scheduling thousands of abstracts for this multidisciplinary cancer research meeting require that sufficient notice from authors be given to the Program Committee. Authors who need special assistance in this regard must enclose written requests along with their submitted abstracts.

SPONSORSHIP REGULATIONS

1. The SPONSOR must be a member of the Association in good standing. That is, an active, corresponding, or associate member must have paid his or her membership dues through 1993 by the time of the submission of the abstract in order to serve as the SPONSOR of one abstract for the upcoming annual meeting. As stated in the AACR By-Laws, honorary and emeritus members are exempt from the payment of dues; thus this regulation does not apply to them.

An associate member may SPONSOR his or her own abstract provided that (a) he or she is the PRESENTER of the abstract, **and** (b) an active or corresponding member in good standing also signs the abstract form endorsing the work. The endorser does not thereby lose his or her own sponsorship privilege. **Note:** An Associate Member may sponsor only **one** (namely, his/her own) abstract.

2. Each member of the Association may sponsor only one abstract. This privilege may be used in one of two ways: (a) the SPONSOR may be one of the authors of the abstract, or (b) the SPONSOR may sign the abstract on behalf of the authors who may be members or nonmembers of the Association.

3. The SPONSOR must sign the abstract form in the space provided.

4. A member or nonmember may be listed as a coauthor on more than one abstract, provided that each abstract has a different member SPONSOR.

5. The SPONSOR is obligated to ascertain that all authors are aware of the content of the abstract. Sponsorship of an abstract implies support for the data and interpretations contained therein.

Do not submit applications for 1993 active/corresponding membership along with your abstracts. The closing date for receipt of these applications is September 1.

COMPLIANCE WITH THESE REGULATIONS IS THE RESPONSIBILITY OF THE SPONSOR.

Adherence to these rules will be verified. Violations will result in the rejection and return of the abstract to the SPONSOR without consideration by the Program Committee.

ABSTRACT SUBMISSION FEE

A fee of US\$35 will be assessed for each abstract submitted for consideration by the Program Committee. This fee offsets some of the costs of processing the abstract. Each abstract must be accompanied by a check or purchase order for US\$35 payable to the American Association for Cancer Research, Inc. - **OR** - authorization must be provided to charge this fee to a credit card that is accepted by the AACR (see Item 8 on the abstract form). All checks must be drawn on United States banks. If a purchase order must precede payment by an institution, it is the PRESENTER's responsibility to ensure that the purchase order is followed by payment of the fee. **Please list the name(s) of the PRESENTER(s) on the check or purchase order.**

In cases of the voluntary withdrawal of an abstract by the author, the return of the abstract because of violation of abstract regulations, or the rejection of the abstract for presentation, the submission fee will not be refunded.

Instructions for the Preparation and Mailing of Abstracts

ABSTRACT FORM

Abstracts must be submitted on the original blue and white abstract form provided by the Association. **FAX TRANSMITTALS WILL NOT BE ACCEPTED.**

Enclosed are TWO original abstract forms. Please pass one on to a colleague if you do not need it for your own abstract. Additional abstract forms may be obtained by calling or by writing to the Association Office.

A Temporary Abstract Number will be assigned to your abstract when it arrives at the AACR Office. The number will be listed on the card that is returned to you acknowledging receipt of your abstract. Please reference the Temporary Abstract

Number in all subsequent communications with the AACR Office.

The original abstract form must be completely filled out and signed in accordance with the instructions. Two (2) photocopies of the completed form must also be submitted. In addition to typing the abstract within the blue border according to the instructions given below, please provide the information and signatures requested on the abstract form as follows (*N.B.* The numbered headings below correspond to the numbers on the abstract form.)

1. **Category and Subclassification.** Choose **ONLY one** category and subclassification. Indicate the category and subclassification in which your paper belongs by typing the two-digit code of the subclassification next to the appropriate category.

A list of codes for the categories and subclassifications appears on Pages 8-9 of this booklet. These designations will serve as a guide to the Program Committee in the grouping of abstracts but will not necessarily be the actual titles of scientific sessions to be held at the meeting.

2. Sponsor of the Abstract. Type the member number, name, address, telephone number, and FAX number of the member using his or her membership privilege to SPONSOR the abstract. The SPONSOR, who must be a member of the AACR in good standing through 1993, may SPONSOR only one abstract. (See Page 4 for Sponsorship Regulations.)

3. Sponsor Signature. The SPONSOR must sign the form in the space provided to indicate support for the data and interpretations contained in the abstract and to transfer the copyright of the abstract to the American Association for Cancer Research, Inc., copyright owner of the collective work - the *Proceedings of the American Association for Cancer Research*.

4. Associate Members Only. If the SPONSOR AND PRESENTER is an associate member, he or she must ask an active or corresponding member in good standing or an emeritus or honorary member to sign Line 4 of the form as an endorsement of the work. Type the name and member number of the endorsing member on the appropriate lines.

5. Presenter of Abstract. Type the name, AACR member number (if applicable), address, telephone number, and FAX number of the PRESENTER of the paper in the space provided. It is generally expected that the first author of an abstract will be its PRESENTER; however, the Association realizes that this person cannot always be present at the annual meeting.

6. Eligibility for Travel Awards.

A. Indicate whether the PRESENTER of the abstract is a medical student, graduate student, physician in training, or postdoctoral fellow. PRESENTERS who meet these requirements and who are first authors on abstracts rated highly by the Program Committee may be candidates for a travel award sponsored by the Upjohn Company or by CIBA-Geigy. If a PRESENTER is eligible based on the above criteria and is under consideration, a letter confirming his or her status on the official letterhead of the PRESENTER's institution and signed by the registrar, dean, or department head of that institution will be requested at a later date.

B. If the PRESENTER meets the criteria in the paragraph above, check this box if the PRESENTER is **also** Black, Hispanic, American Indian, Native Alaskan, or Native Pacific Islander. The Comprehensive Minority Biomedical Program of the National Cancer Institute funds a program of travel grants administered by the AACR to encourage participation in the annual meeting by minority groups which have traditionally been underrepresented in cancer research.

Eligible scientists are young, full-time predoctoral students, post-doctoral fellows, and physicians in training who are either engaged in cancer research, or who have training that could lead to contributions in this field. By action of the AACR Board of Directors, only citizens of the U.S. and Canada or scientists who are permanent residents in those countries may receive one of these awards. Awardees will be selected on the basis of qualifications, references, and an estimation of potential benefit by an advisory committee consisting of members of AACR who will review a completed application and letters of reference. The award will consist of partial support of registration, travel, and subsistence expenses incurred in connection with attendance at one or both of these annual meetings.

Persons checking this box will receive an application form which must be completed and returned to the AACR by **January 10, 1994**. Applicants will be chosen from minority institutions as well as the larger bodies of universities and research institutions. Awardees are expected to attend at least three full days of scientific sessions. Along with their requests for reimbursement of relevant expenses, they must submit a brief report commenting on the scientific sessions they attended at the meeting(s).

7. Presenter Signature. The PRESENTER of the paper must sign the form in the space provided to give the Association permission to arrange for audiotape recording and the subsequent sale of audiotape cassettes of the papers delivered orally at the 1994 Annual Meeting. Your advance permission for this taping in the event that your paper is among those to be recorded is appreciated. NOTE: If the PRESENTER is also the SPONSOR of the abstract, he or she must sign the form on Line 3 as well as Line 7.

8. Optional Authorization to Charge Credit Card for US\$35 Abstract Submission Fee. If you want the Abstract Submission Fee (US\$35) to be billed to your credit card, please fill in the necessary information and sign in the space provided.

ABSTRACTS SUBMITTED IN VIOLATION OF ANY OF THE ABOVE REGULATIONS, I.E., ABSTRACTS WITHOUT A CATEGORY AND SUBCLASSIFICATION (LINE 1), WITHOUT THE NAMES OF THE SPONSOR AND PRESENTER (LINES 2 AND 5), OR WITHOUT THE REQUIRED SIGNATURES (LINES 3 AND 7) WILL BE SUBJECT TO AN ADMINISTRATIVE CHARGE OF US\$35

CONTENT OF ABSTRACTS

As stated previously, submission of an abstract of a paper implies that the authors have not previously presented these data at a national

scientific meeting and that they are not planning to do so prior to the dates of the AACR annual meeting.

Members of the Program Committee will evaluate the scientific quality of the submitted abstract on the basis of several criteria: novelty of the research, significance of the findings, and the clarity of the presentation. Authors should be particularly cognizant of the importance of setting forth the objectives and hypotheses of the study in a clear and succinct manner and of summarizing the new, unpublished results. If the abstract is poorly written such that the Program Committee cannot determine its novelty and importance, the acceptance of the paper for presentation at the annual meeting will be jeopardized.

1. Abstracts must describe in a succinct manner the purposes and results of the research so that the quality, originality, and comprehensiveness of the work can be evaluated by the Program Committee. Each abstract should contain: (a) an introductory sentence indicating the purpose of the study; (b) a brief description of pertinent experimental procedures; (c) a summary of the new, unpublished data; and (d) a statement of the conclusions. Authors must accept sole responsibility for the statements in their abstracts. Abstracts should be carefully proofread to avoid errors in the published literature.

2. Titles should be indicative of the content of the abstract. All words necessary to identify the subject matter should be included in the title to facilitate information retrieval and online searches. Periods (not dashes or other punctuation) should be used to separate two-part titles. Abbreviations are not permitted in titles.

3. Abbreviations may be used in the body of an abstract if they are defined at the first mention in the text. Complex therapeutic regimens must be identified. The chemical structure, method of preparation, and patent or reference number of chemical compounds should be provided in the abstract.

4. Illustrations within abstracts are not permitted; however, a brief, clear table is acceptable if the author(s) feel that this is the most effective mode of presenting the findings.

5. Supplementary data submitted along with the abstract will not be accepted.

FORMAT OF ABSTRACTS

Abstracts will be printed in the *Proceedings* by direct photoreproduction of the original abstract form submitted by the author. Since errors made on the form will appear in the published abstract, careful preparation and proofreading are essential. Only abstracts submitted on the original abstract form will be considered by the Program Committee. There is a limited supply of these forms. Therefore, before the abstract is typed on the final form, all

instructions and the sample abstract should be read thoroughly.

Abstracts must be prepared in accordance with the approved format demonstrated in the sample abstract (Page 10). Please note in particular the following regulations concerning format:

1. The entire abstract, including text, title, authors, and affiliations, must fit within the blue lines provided.

2. The abstract must not be mechanically reduced to fit into the box provided.

3. The first line of the title should be flush with the left margin of the abstract box.

4. The heading must include the title of the paper with **ONLY THE FIRST LETTER OF THE FIRST WORD CAPITALIZED** and the rest in lower case (except where lower case is incorrect - see sample), the authors' names (as a group, with surnames first and given names last), their institutional affiliations, cities, states in abbreviated forms, zip codes, and countries. If possible, please print the title in **boldface** letters.

Abbreviations are not permitted in titles. Abbreviations may be used in the body of the abstract if they follow in parentheses immediately after the term being abbreviated at the first usage of that term in the text.

5. Academic degrees should be omitted.

6. The abstract should be printed single spaced in one paragraph. Abstracts should not be prepared on dot-matrix printers. Abstracts may be prepared on typewriters or daisy-wheel printers using a sharp black ribbon and a printing element no smaller than 12 pitch (elite). Abstracts may also be printed using laser or ink-jet printers with type no smaller than 10 point.

7. Blue ink will not reproduce satisfactorily; any symbols that must be drawn by hand should be drawn in black ink.

ABSTRACTS OR ABSTRACT HEADINGS FOUND TO BE UNSUITABLE FOR DIRECT PHOTOREPRODUCTION WILL BE RETYPED AT A COST OF US\$35 TO THE SPONSOR.

PLEASE DIRECT QUESTIONS REGARDING THE PREPARATION OF ABSTRACTS TO 215/440-9300.

SUBMISSION OF CORRECTED ABSTRACTS

If after mailing your abstract you discover an error, please submit a corrected abstract in strict accordance with the following instructions:

1. Use an official abstract form, print the **full** text of the abstract in the space provided, and answer **all** questions on the form.

2. Write or type the word "**Resubmission**" in the box in the upper right hand corner labeled Temp. Abst. No.

3. Send the abstract to the address given on the next page. **In addition**, write or type the word "**Resubmission**" on the mailing envelope.

Authors may be charged for the production costs of abstracts resubmitted after the *Proceedings* issue has been sent to press. The Association will not be responsible for the acceptance and processing of revised abstracts not submitted in compliance with the above regulations. No substantive changes may be made in abstracts after they have undergone scientific review, and the Association cannot accept any resubmission that will delay publication of the *Proceedings*.

MAILING INSTRUCTIONS

1. Abstracts must be received in the office of the American Association for Cancer Research **no later than October 25, 1993**. Submission at an earlier date would be appreciated. The Association urges investigators working outside of the United States to mail their abstracts well ahead of the deadline date or to use one of the international mailing services that offer delivery within a few days. The deadline for receipt must be applied uniformly to all abstracts regardless of their origin.

2. The following material should accompany the original abstract form:

- A. Two (2) legible, completed copies of the form.
- B. A check or purchase order for US\$35 payable to the American Association for Cancer Research, Inc. All checks must be drawn on United States banks. **PLEASE LIST THE NAME(S) OF THE PRESENTER(S) ON YOUR CHECK OR PURCHASE ORDER.** If you wish us to charge this amount to your credit card, fill out and sign Item 8 on the abstract form.

C. The Acknowledgment Card attached to this announcement. The names of the authors, and the title of the paper should be filled in on the card prior to submission. The card will be returned to you showing the Temporary Abstract Number assigned to your abstract. This number should be referenced in all correspondence or telephone calls to the AACR Office. PRESENTER: To ensure receipt of the Acknowledgment Card, put your own address on the reverse of the card and affix proper postage.

D. One stamped, regular letter-sized envelope (about 4 x 9 1/2 inches, 10.2 x 24.2 cm.) addressed to the PRESENTER. The final decision of the Program Committee concerning acceptability for presentation and publication will be returned in this envelope along with any other necessary instructions.

3. A check, purchase order, or credit card number in payment of US\$35.; the original abstract form with the signatures of the SPONSOR and PRESENTER; 2 copies of the completed form; the completed, self-addressed, stamped Acknowledgment Card; and one self-addressed, stamped envelope should all be mailed unfolded and with cardboard backing in an envelope of suitable size to:

Margaret Foti, Executive Director
American Association for Cancer Research, Inc.
Public Ledger Building
620 Chestnut Street, Suite 816
Philadelphia, PA 19106-3483

4. The envelope should be marked "**ABSTRACT FOR AACR ANNUAL MEETING.**"

5. Please note that special mailing charges cannot be paid by the AACR. The AACR staff cannot assume responsibility for abstracts that are not delivered directly to the premises. FAX transmittals will not be accepted.

THE OCTOBER 25, 1993, DEADLINE WILL BE STRICTLY ENFORCED.
