FUTURE ANNUAL MEETINGS OF THE AMERICAN ASSOCIATION FOR CANCER RESEARCH

1996 April 20-24, Washington, DC
Abstract Deadline: *December 1, 1995*
1997 April 12-16, San Diego, CA
1998 March 28-April 1, New Orleans, LA

APPLICATIONS FOR ELION AWARD AND RESEARCH FELLOWSHIPS

In response to increasing demand for fellowships for young investigators, this year the AACR will offer several one-year, \$30,000 grants to nontenured scientists. The AACR's only young faculty award, the Gertrude Elion Cancer Research Award, sponsored by Glaxo Wellcome Oncology, supports meritorious basic, clinical, or translational research in cancer causation, prevention, or treatment by a researcher at the level of Assistant Professor. A new research fellowship for postdoctoral fellows in translational research will be sponsored by Amgen, and others will be announced shortly. In October, the necessary forms will be sent to all members and to those nonmembers who have requested information from the AACR office. The deadline for applications for the Elion Award and the new research fellowships is *February 15, 1996*.

TRAVEL GRANTS FROM THE COMPREHENSIVE MINORITY BIOMEDICAL PROGRAM OF THE NATIONAL CANCER INSTITUTE

Funds are being provided through the Comprehensive Minority Biomedical Program of the National Cancer Institute for the travel of a limited number of minority students to the 1996 AACR Annual Meeting. Eligible scientists are young, full-time predoctoral students, postdoctoral fellows, and physicians-in-training who are either engaged in cancer research or who have training that could lead to contributions in this field.

This travel award program applies **only** to minority groups that have been defined by the National Cancer Institute as being traditionally underrepresented in cancer research; these groups are American Indians, Blacks, Hispanics, Native Alaskans, and Native Pacific Islanders. Only citizens of the United States and Canada or scientists who are permanent residents in those countries may receive one of these awards.

Although preference will be shown to authors of abstracts that have been accepted for presentation at the annual meetings, this is not a requirement for the award. Awardees will be selected on the basis of their qualifications, references from mentors, and an estimation of the potential professional benefit to the Awardees. An advisory committee consisting of members of the AACR will review submitted applications and letters of reference. The award will consist of partial support of registration, travel, and subsistence expenses incurred in connection with attendance at the annual meeting.

Applicants will be chosen from minority institutions as well as the larger bodies of universities, colleges, and research institutes. Travel grants are awarded to the applicant's institution to permit a minimum of 3 days of attendance at the annual meetings. If accepted, applicants will be expected to participate in any planned activities for the Awardees. They are required to submit a brief report commenting on the scientific sessions they attended at the annual meetings and the minority travel program.

Further information and application forms are available from the AACR office. Letters of reference should accompany the application. The deadline for receipt of applications will be *January 26, 1996*. Grants from this program are also available for attendance at AACR Special Conferences taking place in North America. The brochure for each meeting contains all the necessary information.

AACR SPECIAL CONFERENCES IN CANCER RESEARCH

A number of meetings are now being organized in the AACR's new series of smaller scientific meetings. Following are the topics, dates, locations, and

program committees for these meetings. When full details of each meeting are available, AACR members will be the first to receive complete brochures and application forms for participation in these important conferences. Nonmembers may receive this information by sending their names and addresses to Meetings Mailing List, American Association for Cancer Research, Public Ledger Building, 150 South Independence Mall West, Suite 816, Philadelphia, PA 19106-3483.
