

## Retraction: The Potential Role of Hypoxia Inducible Factor 1 $\alpha$ in Tumor Progression after Hypoxia and Chemotherapy in Hepatocellular Carcinoma

This article (1) is being retracted at the request of the authors. The authors suspect an error in Fig. 4A but cannot locate the original source of the data for confirmation. Given this, the authors have requested that the article be retracted to ensure that the research record is correct.

A copy of this retraction notice was sent to the last known email addresses for all five authors. Two authors (Z.F. Yang and S.T. Fan) agree to the retraction; the three remaining authors (R.T.-P. Poon, J. To, and D.W. Ho) did not respond.
